Ucanttear KNEE PANTS

We sell knee pants for less than the materials alone would cost you if you were to make them yourself. To make this low price possible we have taken advantage of every possible saving in manufacturing cost. Our fabrics are secured at practically no cost, being remnants left over from the various branches of our clothing departments. Marvelous machines, human like in their action, are used in cutting, sewing, pressing, etc., producing several pairs of pants quicker, better and cheaper than if the entire operations were performed by hand labor. By working on this basis of furnishing the best values for the money, we have built up an enormous business in knee pants. You can order one pair or a dozen. Most of our customers order at least six pairs at a time, including their order with other goods selected from this catalog.

HERE'S CHEAP WOOL MIXED CLOTHING IF YOU WANT IT

Same quality that the average clothing stores sell, but we offer it at prices that save you 40 per cent. We do not recommend it, but offer it only to show our customers how we are able to undersell others on goods of the same quality. We advise all customers who wish to spend their money to the best advantage to buy our genuine U-CANT-TEAR clothing for boys and little fellows. The best made clothing, barring none. Prices than you would pay for inferior quality elsewhere.

OVERALLS WORKING PANTS — Rip-Proof Brand — JACKETS OVERALL SUI

Regular Sizes of Overalls and Jackets. Jackets run from 34 to 46 inches breast measure. Overalls from 30 to 44 inches waist measure and from 30 to 36 inches leg measure from crotch to heel. When ordering, give your breast measure for jackets and waist and inseam measures for overalls. See inside front cover page for measuring instructions. In writing your measurements in your order, give them like this: Breast, 38; waist, 34; leg measure, 32.

Every garment is sewed on a lockstitch machine and we guarantee it against ripping even with the roughest kind of wear. We will give a new pair free in exchange if any seam rips. Our RIP-PROOF Brand guarantee tag worded in this manner is attached to every garment.

Extra Large Sizes of Overalls and Jacke If your breast measure is larger than 46 inche waist larger than 44 inches, or your leg leng 36 inches, we will make garments to special or an extra charge of 15 cents on all garments cents in price, and at an extra charge of 25 ce all garments of 50 cents or over. If you want alls in a size larger than 44 inches waist and than 36 inches leg, we charge double the extra mentioned above.

VER CAUGHT IN THE RAIN WITHOUT AN UMBRELLA?

r course. Umbrella always at the wrong end of your journey. That's the way it nine times out of ten. But what a poor affair an umbrella is anyway compared with coat. Hard to manage and the rain blows under. The only convenient and sure way ing dry even in the heaviest rains is to wear one of these waterproof slip on overcoats. h style and shape to them as well. So much lighter and more comfortable than a mackintosh. Can be worn as a light weight overcoat during the chilly spring and fall weather. Made exclusively for us by one of the best raincoat manufacturers in the country. See the new velvet collar feature on Nos. 41H862, 41H866, 41H869 and 41H871. A new improvement that prevents collar from soiling and is easily replaced when worn out.

Did You Ever Buy Regular $2.00 Shirts for $1.15

and have the complete range of patterns and sizes in both soft and laundered shirts that we show you on this page? We have put forth an extra effort to fill this page with the newest and best the market affords in both soft and laundered shirts, and know that these values cannot be duplicated anywhere.

We embody in this line the very acme of shirt making, both in materials and make. The patterns were selected after a careful search of the shirt markets throughout the country. We know that they are absolutely right.

Shirts of this character are sold only in the finest men's furnishing stores of the large cities, and then at a much higher price than we ask.

$1.15 Any Shirt on This Page $1.15

Our New "Cornwell" Line of Hats

The tremendous success of this line of hats this past season has enabled us to make them even better, if possible, for the coming season than they were before. We are making these hats of the very finest imported fur and control the manufacture of them from the fur clear to the finished article. They are made for us exclusively by the best hat makers, made under our own brand, and controlled exclusively by us. The quality and finish of the trimmings used on these hats is the very finest, and we know that it is the best line of hats sold anywhere in this country for less than $3.00 each.

Made especially for us by the best hat factory in America.

Duplex Wardrobe Trunk

No. 33H2130¼ Box is made of three-ply veneer lumber, top slightly rounded, covered with pegamoid, a covering that is absolutely waterproof and will give the best of service. Bound with extra heavy vulcanized fiber binding, strongly riveted, corners and trimmings are brass plated, solid brass Excelsior lock, heavy sheet iron bottom. The suit or dress compartment has a full set of hangers. Top tray is exceptionally large and is divided into five separate compartments. The hat compartment has movable hat form. Large tray in bottom of trunk. All corners on trays are metal bound. Fancy cloth lined throughout. A good point about this trunk is the fact that when ready for shipment this trunk can be closed up like any ordinary trunk and still have all the good features of an upright wardrobe trunk. Length, 40 inches. Width, 22 inches. Height, 26 inches. Weight, 93 pounds.

Price $30.00

$30.00

CONVINCER SHOE COLORS

No. 15H2527
17c
The Tube

You can make your white velvet, canvas, silk and satin shoes look bright and new. Twelve colors to select from. Absolutely fast.

No. 15H2527
17c
The Tube

Yellow, Champagne or Linen, Light Green, Purple, Salmon or Helen Pink, Light Brown, Old Rose, Rose, Pink, Cadet Blue, Light Blue, Navy Blue or Gray.

We are greatly pleased to bring to our trade a preparation for coloring white canvas, silk, satin and velvet shoes in absolutely fast shades to match party dresses, suits or gowns. We have hesitated to offer one in the past because we could not find anything we could recommend as being satisfactory, but we highly recommend Convincer Shoe Colors and assure you that they will give you satisfaction in every respect. Convincer Shoe Colors make old shoes appear as bright and clean as a new pair. Cost is small. Colors absolutely fast.

Shoes of dark shades cannot be dyed in any light colors. Light colored shoes can be dyed in any shade darker. Dark shoes can only be dyed in darker colors. Full directions for dyeing on box. Shipping wt., 5 oz.

No. 15H2527 The tube..... **17c**

HOW OUR CONVINCERS CONVINCE.

Lawrenceville, Ill.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—I have worn your shoes for the last two years and they are good ones yet. They have cut my shoe bill down about three-quarters what it used to be. A pair of shoes usually lasted me about three or four months; now they last me about two years—that is the difference. IRA L. HURST.

1208 S. Cedar St., Lansing, Mich.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—In reference to the pair of Convincer Shoes that I purchased of you nearly one and one-half years ago, would say, they are as good as other people charge $3.50 and $4.00 for. Have given splendid satisfaction. JEROME DELONG

Somerville, Tenn.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—I have worn a pair of the Convincer Shoes constantly for the past four months and can say I never wore a more pleasant shoe. With this mail have ordered another pair. J. M. CULBREATH.

Kestler, Ga.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—I received the shoes all O. K. I have been buying them for five years. They are the best shoes I have ever bought anywhere. They can't be beaten anywhere. Keep on making them. They are the only kind I want. SAMUEL W. WHITE.

---

4 Vine St., Salem, Ohio.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—I received a pair of your Convincer Shoes three months ago and am well pleased, as they fit my feet better than any shoe I ever before owned at any price. W. J. WARD.

Robert Lee, Texas.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—I have just used one pair of shoes (Convincer) for one year. I would challenge any other shoe made for comfort, durability and style. They are worthy of attention and a trial of all shoe users. T. J. RANKIN.

PROOF FROM WEARERS

Burdett, Kan.
Sears, Roebuck and Co., Chicago, Ill.
Dear Mr. Profile:—Have worn these shoes every day for nearly eighteen months and am wearing them yet. They have made good your guarantee once and a half over. The best work shoe I ever had. Am ordering another pair just like them.
H. B. YORK.

Prospect, Ohio.
Sears, Roebuck and Co., Chicago, Ill.
Dear Mr. Profile:—I bought a pair of your shoes a year ago and they have proved satisfactory. I am a farmer and have worn them steadily with the same soles I bought on them. I will never wear any but the Profile.
J. W. SPAWN.

Lucas, Kan.
Sears, Roebuck and Co., Chicago, Ill.
Dear Mr. Profile:—I purchased a pair of your shoes and have worn them for thirteen months of hard wear. I am a farmer and have worn them every day and am pleased to say that they are all that you recommend them to be. I expect to wear them for six months yet.
JOHN TITUS.

GUARANTEED FOR ONE YEAR.

COBBLERS' OUTFIT $2

The Most Complete and Reliable Outfit You Can Buy

IT IS WASTING MONEY TO BUY AN INCOMPLETE OUTFIT, ONE THAT IS PRACTICALLY WORTHLESS WHEN IT COMES TO SERVI

Our aim is not to give you an outfit containing the most articles for the smallest amount of money, but one which is better than any other the market and cheap at the price, an outfit that both you and ourselves can be proud of.

Combination Shoe, Harness and Tinners' Outfit, $2.00

Before getting out this big high grade outfit, we purchased the best outfits advertised by other leading houses at $2.25 to $3.00, and we found the best outfit in the lot compared with our big $2.00 outfit about as follows:

OUR HAMMER is made of the best forged steel, the other outfit contained a worthless cast iron hammer costing 48 cents a dozen.

OUR KNIFE costs as much as two of the other knives.

OUR SOLDERING IRON is extra heavy, the other light and worthless.

OUR RIVETING MACHINE is high grade and practical, the other is almost worthless. We found the same comparison on almost every item that went into the outfit. The best outfit we found put up in a cheap, common box, **while ours goes into a handsome, stained, hinged tool chest.**

OUR BIG $2.00 OUTFIT is the only thoroughly reliable and practical outfit on the market for repairing of boots, shoes, harness and tinware, all high grade, standard tools and furnishings.

EVERY ARTICLE contained in this outfit is the best money can buy, suitable for the best shoemakers', tinners' and harness makers' use. We guarantee each and every tool to be of the best quality and to give the best of satisfaction. The tools are made by the best manufacturers of the highest grade of tools. The outfit is not composed of worthless cast iron hammers, worthless riveters, knives that will not keep an edge, soldering irons too light to hold the heat and do the work. It is put up on honor, containing only carefully selected tools of the highest standard offered in any combination outfit.

No. 15H3001¼ Shipping weight, 27 pounds. Price.....**$2.00**

THIS OUTFIT IS ACTUALLY WORTH A GREAT DEAL MORE THAN ANY OTHER OUTFIT EVER PLACED UPON THE MARKET.

OUR OUTFIT CONTAINS THE FOLLOWING ARTICLES, EVERY ONE GUARANTEED TO BE BETTER THAN YOU CAN PROCURE ELSEWHERE:

- 1 Extra Heavy Malleable Iron Stand.
- 4 Extra Heavy Malleable Lasts.
- 1 Best Riveting Machine.
- 1 Steel Finished Shoemakers' Hammer.
- 1 Best Steel Shoe Knife.
- 1 Patent Peg Awl Handle.
- 1 Peg Awl.
- 1 Sewing Awl Handle.
- 1 Sewing Awl.
- 1 Harness Awl Handle.
- 1 Harness Awl.
- 1 Wrench for Peg Awl Handle.
- 1 Ounce Best Leather Cement.
- 2 Ounces Best Rubber Cement.
- 1 Bunch Bristles.
- 1 Ball of Thread, 2 ounces.
- 1 Ball of Wax.
- 1 Package of Shoe Pegs.
- 1 Pound of Iron Heel Nails.
- ½ Pound 4-8 Clinch Nails.
- ½ Pound 5-8 Clinch Nails.
- 4 Pairs Best Heel Plates.
- 6 Shoe and Harness Needles.
- 1 Improved Saw and Harness Clamp.
- 1 Box Harness and Belt Rivets.
- 1 Steel Punch.
- 1 Soldering Iron, Extra Heavy.
- 1 Bar Solder.
- 1 Box Rosin.
- 1 Ounce Soldering Fluid.
- 1 Copy of Directions for Soldering.
- 1 Copy of Directions for Shoe Repairing.

ORDER THIS OUTFIT AT $2.00

AND IF YOU DO NOT SAY IT IS FOR ALL PRACTICAL PURPOSES WORTH A GREAT DEAL MORE THAN ANY OTHER OUTFIT ON THE MARKET YOU MAY RETURN IT AT OUR EXPENSE AND WE WILL RETURN YOUR $2.00.

$6.35 WHITE AND GOLD COIN GOLD LACE BORDER AND EDGE DINNER SET

White and gold dinnerware is always in the very best of taste; it always has a rich appearance. It is always in style. The ware from which this dinner set is made is of the highest grade white American semi-porcelain and of a specially selected quality of stock.

This exquisite gold decoration makes it one of the handsomest white and gold American china dinner sets ever sold. The edge of every piece is decorated with a broad band of burnished coin gold, and a lace border of coin gold inside of the gold band, which follows the outline of the rich ornamental embossing. All the handles are elaborately traced with gold. Each piece is the acme of gracefulness and beauty, and is light and thin, yet very strong and durable.

COLONIAL GOLD BAND DINNER SET

White and gold dinnerware possesses the quality of harmonizing with a room decorated in any color. The demand today among people of refinement is for a plain shape with a gold band around the edge. The highest priced Haviland ware is made with a gold band decoration. This set has a fine perfectly modeled pure white semi-porcelain china body in a new plain shape. The edge of each piece is decorated with a broad band of burnished coin gold supplemented with an inside hairline of coin gold. The handles are also hand traced with gold. The ware is thin and light, yet strong and durable. It has a fine rich pure white glaze. These sets are shipped from the pottery in East Liverpool, Ohio.

GOLD INITIAL PINK ROSE DECORATED DINNER SET

25

YOUR OWN INITIAL ON EVERY PIECE IN GENUINE GOLD.

The initial used on our set is an exact copy of the initial used on the finest imported sets of dinnerware and is of Old English design, surrounded by a wreath of **genuine coin gold.** The initial is carefully inspected and is guaranteed to be perfect.

The decoration is exceedingly pretty and artistic. It consists of clusters of pink roses with green stems and leaves. The roses and foliage are gracefully entwined with maidenhair ferns, delicately shaded.

All handles and knobs of all the pieces are hand traced with bright genuine coin gold. Embossed around the edges in a dainty lace design. Bear in mind that every initial is put on to order, so be sure to state plainly the initial you want. Think of the individuality that a dinner set bearing your own initial will give to your table. Each set is shipped from the pottery in East Liverpool, Ohio.

"ROYAL" PLAIN WHITE CHINA DINNER SET

This set is made of the very finest quality of selected pure white translucent "Royal Austrian" china (Porzellan-Fabrik "Victoria"). Every piece has a graceful festooned edge, daintily embossed. This embossing is just heavy enough to take away the severity of the plain edge without sacrificing any of its simplicity or elegance. The ornamental handles on the covered ware are richly embossed, as are also the handles on the platters, open vegetable dish, etc. We want to call your attention to the quality of this china. Every piece is guaranteed first quality. It is light and translucent, yet very strong and tough. It is pure white in color with a fine glaze. We guarantee this set to contain only first quality selected china.

GOLD BAND CHINA DINNER SET

BAND OF BRIGHT GOLD ON EDGE WITH GOLD HAIRLINE

White and gold dinnerware is as popular today as it was in the days of our grandfathers. It always harmonizes with a room decorated in any color. The highest priced Haviland ware is made with a gold band decoration. This set is made of the finest pure white translucent "Royal Austrian" china with a brilliant glaze. It is light and thin yet very strong and durable on account of its superior quality. It is perfectly modeled in attractive plain edge shapes. The decoration consists of a broad burnished coin gold band with a delicate hairline of bright gold inside the gold band. The handles are hand traced with burnished coin gold. It is an impossibility to adequately convey to you the attractiveness and refinement of this set on paper.

98 FESTOONED PINK ROSE BORDER FRENCH RIBBON BOW KNOTS DOUBLE GOLD TRIMMED DINNER SET

An exceptional value in a genuine "Royal Austrian" china (Porzellan-Fabrik "Victoria") Dinner Set. The decoration consists of a complete flower border around each piece composed of festooned garlands of small pink roses and their delicate green leaves. In the background is a very soft and delicate French gray band entwined in the foliage. This band connects small ribbon bowknots from which hang the rose garlands. This decoration is a copy of one of the finest Haviland patterns and it is impossible to show its daintiness and beauty in an illustration. The gold treatment on this set is especially elaborate, consisting of broad edge of burnished coin gold on every piece, with an additional gold line around the center of all of the platters and plates and also around tops of the covered ware. The ornamental handles are hand traced with burnished gold. Finest "Royal Austrian" china, light, thin and translucent, yet very strong and durable. Delicately festooned and embossed edges.

8.95 14-KARAT GOLD INCRUSTED SOLID MATTE GOLD HANDLES DINNER SET

We consider this Dinner Set the greatest bargain in high grade china dinner sets that we have ever been able to offer. It is in every respect equal, if not superior, to the finest French incrusted ware. The body of this set is made of the finest "Royal Austrian" china (Porzellan-Fabrik "Victoria") in the plain edge shape. Each piece is absolutely pure white in color, translucent, perfect in shape, richly glazed, strong and durable. The decoration on every piece, including the covers, consists of a band (¼ inch wide) of 14-karat yellow Roman gold, incrusted with an imperial laurel leaf. Inside of this gold incrusted edge is a yellow gold hairline. The handles are solidly covered with 14-karat yellow Roman matte gold. A Haviland 100-piece incrusted set which is no better than this set would cost you $80.00 or $100.00.

This exceptionally attractive and popular set is made of genuine Haviland china in the famous Versailles shape. Every piece is richly embossed around the edges and the china itself is pure white in color with a fine glaze. The pieces are light and translucent, yet exceptionally strong and tough. Each piece is decorated with dainty pink climbing roses entwined with French gray scrolls and delicate green foliage. This is the most effective spray pattern Haviland has ever made. All handles and knobs are hand traced and stippled with yellow gold. It is not possible to reproduce on paper in miniature all the nice details of shape and modeling, nor to show the real beauty of the patterns as they appear upon the actual china.

100-PIECE GOLD BAND 14-KARAT YELLOW ROMAN GOLD EDGE, SOLID MATTE GOLD HANDLE DINNER SET

This finest and most beautiful of all white and gold Dinner Sets is modeled in Haviland's newest plain edge shape. Each piece has been designed with the greatest care. Please note the square handles on the covered ware and the exceedingly dainty and graceful shape of these pieces. The china itself is of the very finest quality of Haviland china and special care has been used in the selection of every piece that goes into the set, thus insuring perfection in quality. It is pure white in color, and while it is light, thin and translucent, yet it is very strong and durable. The decoration consists of a broad band of 14-karat yellow Roman gold (guaranteed) surrounding the edge of each piece. The handles are solidly covered with 14-karat matte yellow gold. We know of no set that in perfection of quality, beauty of decoration and correctness of style excels this set.

100-PIECE "L'AIGLON" PINK ROSE AND FORGET-ME-NOT BORDER DINNER SET

$21.75

A VERY SPECIAL BARGAIN.

Here is a regular $40.00 Dinner Set which we are offering as a leader at $21.75, about one-half the regular price. A genuine Haviland set for the price of German china. Such an opportunity may never occur again. This very attractive set is decorated with a border of beautiful pink roses and dainty forget-me-nots interwoven with a delicate green leaf background. A small wreath of the same flowers forms a medallion which ornaments the center of each piece. The handles are decorated and stippled with yellow gold. Each piece is daintily scalloped and embossed, which adds to the beauty of the set. The ware is light and thin, yet is as strong and durable as those twice as thick.—Made from the genuine Haviland white translucent china.

SOLID BRASS EXTENSION HANGING LAMPS

ALL OF THE LIBRARY LAMPS ARE FITTED WITH 28-INCH EXTENSIONS which allow the lamp to be raised or lowered a distance of 3 feet. All the metal parts of our hanging lamps, the frames, ornaments, ceiling plates, collars, smoke bells, etc., are made of solid brass (not bronze metal, a composition made in imitation of brass, costing one-third what brass costs). Weights quoted are on lamps packed for shipment.

HOW TO ORDER CARPE

In ordering carpet be careful to give the exact size of room or rooms. If an odd size, having a fireplace, bay window or offset, be sure to send a diagram with exact measurements, also be sure to state where entrance and front of room is, and allow 1½ yards extra to every 25 yards for waste in matching. **State whether you want the strips to run the long or short way of the room.** We always cut the carpet to the best advantage when no instructions are given.

HOW TO MAKE A DIAGRAM OF A ROOM.

When you send us an order for carpet, if you will make a diagram, with all measurements carefully taken and correctly marked, as shown by this sketch, it will not be possible for us to make a mistake in cutting and fitting your carpet for you.

We cut all carpets to match free charge. We strongly advise having carpets cut by us; as there will be waste and better matching if we cut carpet for you, for the reason that we are cutting up hundreds of rolls we always make a saving of waste by cut and matching from several rolls, and every case where we use less than yards waste to every 25 yards we will the difference.

SPECIAL NOTICE!

ALWAYS ALLOW FOR WASTE.

When ordering carpet always allow for waste in matching the pattern. For example, if you wish to cover a room measuring 25 yards, order 26½ yards, for, although 25 yards will actually cover the room, the pattern will not match; therefore, 1½ yards extra is needed to match the pattern exactly. Always order 1½ yards extra for every 25 yards required by actual measurements if you want the pattern to match at the seams.

PRICES FOR SEWIN CARPET

For 2 cents a yard extra we will cut, and sew **Ingrain, Rag or Granite Carpet** any room. **For 3 cents a yard extra** we cut, match and sew any of our **Brussels Velvet or Axminster Carpet** to fit any **For 10 cents a yard extra we will cut** and sew any **Brussels, Velvet or Axminster Carpet ordered with a border.**

ORDERING CARPET MADE WITH A BORDER

When ordering carpet made with a border be sure to allow enough money to pay for same will avoid any delay in writing for money to cover cost of goods. Remember, the border is on inches wide. The body of the carpet is 27 inches wide. The diagram shown is of a room 10 inches by 10 feet 6 inches.

Measure the distance around the room, which gives the quantity of border required. instance it would be four times 10 feet 6 inches, or 42 feet, which is 14 yards of border.

To get the number of strips of carpet, deduct the width of two strips of border, or 45 inches 10 feet 6 inches, which leaves 6 feet 9 inches, or 81 inches. Dividing by 27 inches (the width strip of carpet), gives the number of strips needed.

To get the length of the strips, deduct width of two strips of border, or 45 inches from of room, 10 feet 6 inches, which is 6 feet 9 inches. Three strips 6 feet 9 inches long would be 3 inches, or 6¾ yards.

Allowing 1½ yards for matching would make the carpet and border required to fit a room 6 inches by 10 feet 6 inches—22¼ yards. The cost of sewing carpet with border is 10 cents extra.

If a certain number of strips of carpet do not fill the width of your room, and the remaining to be covered is less than 13 inches wide, you must allow an extra strip of carpet one-half the of the room. If more than 13 inches remain to be covered allow a full length strip of carpet

THIS TABLE SHOWS HOW MUCH CARPET YOU NEED

If the size of your room is not given in this list allow enough money for the next larger size. We will cut the carpet with the least waste and return whatever balance is due you at the time the shipment is made. The necessary waste for matching has been included figures given below. When sending a drawing of any room, locate front of house, doors and bay window if any.

HOW TO GET CARPET SAMPLES

We illustrate and describe fully the various kinds of carpet we furnish, and we also show the general color effect. You can readily make your choice from this catalog without samples, besides we guarantee to satisfy you in every way. **But if you prefer to see samples of carpet just write and say, "Send me a sample showing the quality of your carpet No. — —," giving the catalog number of the carpet you wish to see, and we will immediately send the sample, postage paid.**

We do not sample Hemp and Rag Carpet, Mattings of any kind or Rugs. Our descriptions and illustrations enable you to order these satisfactorily without samples, and we guarantee absolute satisfaction or your money back. You can save time by selecting and ordering your carpet from this Big Catalog.

SIZING OF RUGS

When ordering a carpet and border to be made up as a rug we will apply special sizing at 5 cents per yard extra.

ADVANTAGES OF SIZING. We strongly advise having us apply sizing to your rug, as it will lie flat on the floor and not curl up after this sizing has been used. The sizing we use consists of a high grade glue which has no odor to it. Remit 5 cents per yard extra and be sure to state in your order that you wish to have this work done.

MITERED MATS OR RUGS

When ordering carpet and border there are always ends border left, which we will sew up into a mat or small rug at $1.00 These mats when made up this way look very pretty and can to good advantage in bedrooms and odd corners. **If you order** dered carpet or rug and you wish us to make up the ends of the into a nice mat, just state so in your order, remitting $1.00 we will be pleased to make up a pretty mat that is bound to please Easily worth double the price.

CARPET REMNANT RUGS

As we cut enormous quantities of carpet of all grades we have a lot of remnants left over which we cut into 1½-yard lengths finish with a good quality worsted rug fringe at both ends. up these rugs from 27-inch carpet and 22½-inch border, all goods, and they range in quality from our medium priced Carpet to our best Wilton and Axminster Carpet. Can be used advantage in any part of the house.

Floor Oilcloths and Linoleums

Linoleum is rapidly displacing every other form of floor covering for kitchens, dining rooms, bathrooms, vestibules, stores, offic etc., because of its long wear, cleanliness, comfort, beauty of designs and colorings. We offer the newest designs in each grade prices only a trifle over the actual cost of manufacture and guarantee the quality.

CAUTION! When buying linoleum in cold weather, always be sure it is thoroughly warmed thro before unrolling, otherwise it is liable to crack and be ruined. A safe way is to let linole stand in a warm room for one or two days, according to weather conditions, then it may be unrolled with danger. Do not use lye, ammonia, strong chemicals, soaps or powders when cleaning linoleum, as it destr the surface of the goods. Ivory or castile soap is good.

Oilcloth Stove Rugs.

Special Quality Extra Heavy Corrugated Rubber Matting. A quality that others charge one-fourth more for. Rubber matting is used in aisles of public buildings, as it deadens noise, prevents slipping and keeps the floor clean in wet weather. Is ⅛ inch thick and weighs about 7¾ pounds a yard.

No. 37H1240 Width, 36 inches.
Price, per yard.....**$1.10**

Carpet Remnant Rugs.

As we cut enormous quantities of carpet of all grades, we naturally have a lot of remnants left over which we cut into about 1½-yard lengths and finish with a good quality worsted rug fringe on both ends. We make up these rugs from 27-inch carpet and 22½-inch border, all perfect goods, and they range in quality from our medium priced Tapestry Carpet to our best Wilton and Axminster Carpet. Can be used to good advantage in any part of the house.

No. 37H6000 Carpet Remnant Rugs made of Tapestry Brussels Carpet or Border. Price, each.....**87c**

No. 37H6002 Carpet Remnant Rugs made of Wilton Velvet or Axminster Carpet or Border.

READ!

LENGTH OF WINDOW SHADES.

6 inches are required for hemming and mounting window and as the lengths we give are manufacturers' measure- the finished shades will be about 6 inches less. For instance, we give the length as 6 feet, the window shade measures ut 5½ feet long when finished.

READ!

To avoid any delay in filling your order be sure to give the catalog number, size and color of window shades desired.

READ!

Shades made to order cannot be returned if sent as ordered, therefore, be sure to give the right width and length, and specify whether the width is for the length of roller from tip to tip or for the width of cloth.

GILT LETTERING—Price for lettering window shades with gilt lettering is 35 cents a running foot extra.

Special Size Made to Order Window Shades for Stores, Offices and Homes.

These shades we make to order from the very best quality hand made oil painted opaque shade cloth. It usually requires about four days to have special size shades made to order. We require the full amount of cash with the order in every instance. **Shades made to order cannot be returned if sent as ordered. Don't fail to give size and color wanted.**

Colors—Special size shades are made only in the following colors: Dark green, light olive green, dark olive green, terra cotta, slate, pea green, white or light buff. Shade cloth 48 inches and wider is made of heavier fabric and will not always exactly match colors of smaller shades.

Be particular to state whether your measurement is for the length of roller from tip to tip or for the width of cloth. In the price list below, "width in inches" is the width of cloth. If the exact size you wish is not given in the following schedule the next larger size will be charged, but the shade will be made the exact size you order.

No. 24H1500½ Order by number, size and price, and be sure to state color wanted.

Write for This Handsome New Catalog *of* Modern Lighting Fixtures

Newest Ideas for 1912 Practical Durable Artistic

Every Home Owner, Every Builder and Contractor Should Have a Copy of This Catalog

Be Up to Date. Before You Place Any Orders for Fixtures for Your Home or Other Buildin Get This Catalog. It Shows the Very Latest Ideas in Modern Lighting and Means a Large Saving.

The artistic and decorative possibilities of artificial light are wonderful. The development of this new branch of art in the past few years has been rapid, as every reader of this page must know if he or she has inspected a recently built up to date home.

Are you going to buy or build a new residence? Do you realize that the value and attractiveness of any house, new or old, can be wonderfully increased at very small cost by means of new and modern lighting fixtures? Your home may be out of date in a dozen of its features, but new lighting fixtures of the latest 1912 designs would make it look like a new building.

We have just organized a new department to handle the output of a great modern factory making a complete line of gas and electric fixtures of the newest designs. To introduce this new department we have published a handsome catalog of its entire line of electric, gas and combination fixtures of every style, pattern and finish. This book will be mailed promptly upon request to anyone interested as a home builder, home owner or housekeeper.

Do not be discouraged by the high prices you have known others to pay for the beautiful fixtures that have displaced the old fashioned designs of a few years ago. While many manufacturers of these new fixtures are still charging the h prices demanded for them when they were first put on market, the cost of manufacturing these goods has been gre reduced and we have been able to contract for a complet at prices that will surprise you. We know you cannot buy equal of any fixture in this catalog elsewhere without pa 20 to 30 per cent more than our prices,

This brand new line of fixtures includes showers of 2, 3, and 6 lights, with crystal or beautiful stained glass leaded art glass dome tops, artistic 2, 3 and 4-light chandel brackets, pendants, porch lights and ceiling lights. These tures are made for either electricity, gas (upright or inve or combination (both gas and electric). Our new depart includes everything necessary for a complete installation new fixtures throughout the house, electric wire for h wiring, conduit, plugs, sockets, wall plates and switches, cocks, tubing, burners and all other supplies.

Merely as an example of fine printing, this handsome catalog will be prized by those who secure a copy. Over fixtures are represented by fine halftone engravings, while artistic polished and satin or spun brass finish, the shad multicolored stained glass, frosted glass and crystal of fixtures and lamps are reproduced in their actual colors.

Remember, there is nothing newer or more artistic in lighting fixtures than is shown in this catalog. E fixture in this great stock is a new 1912 design. Write for the book.

DRUG DEPARTMENT

UR POLICY IN REGARD TO DRUGS AND REMEDIES

of our standard preparations will be found to be of the highest and strength, and capable of doing all that can be expected of medies. We have endeavored to indicate in each case the way in hey may be found useful.

have also selected from the great array of preparations found on arket a list of proprietary remedies, which from their popularity ppear to be reliable, and which we believe may also be depended o as much as is reasonable to expect of such remedies.

reputation we have built up for selling goods and telling the bout them, together with our desire to protect our customers the possibility of being disappointed as to the results likely to be d, has led us to be very conservative in our claims for all of these rs. If we have understated the value of certain remedies, our ers will find it out; we would rather have it this way.

The fact is well known that what may prove very useful in most cases may utterly fail in some others, either because of a difference in individuals or of a lack of knowledge as to the real nature and cause of the trouble. In describing the virtues of a medicine these facts are too often lost sight of. We accordingly feel like warning our customers against being misled by the exaggerated claims made for many so called patent medicines by their makers. The continued popularity of certain of these remedies, however, gives us sufficient confidence in them to keep them on our list. These we wish to sell strictly on their merits. Accordingly, in our catalog descriptions we have been guided by a desire to avoid all overstatements of fact, no matter how slight. If we do not claim as much for them as others do, it is not because they are in any way inferior. The fact is they are in every case the best of the kind that can be obtained.

TANDARD FAMILY MEDICINES—STANDARD BLOOD AND NERVE TONICS

LIQUIDS OVER 4 OUNCES IN WEIGHT CANNOT BE SHIPPED BY MAIL.

RAINBOW DYES

TRADE MARK REG. U.S. PAT. OFFICE

Beautifully Brilliant

One Dye For All Fabrics

Rainbow Dyes are the simplest, cleanest and most economical dyes to use. They enable you to dye cotton, wool, silk and mixed goods evenly and all in the same bath. Reliable and stainless. No more trouble dyeing cotton and wool separately. No more necessity of ripping the goods. No more indecision which dye to use. By means of the Rainbow Dyes all the work can be performed together and an even color obtained by following the simple directions accompanying the package. Rainbow Dyes are the best and most satisfactory dyes on the market, as well as the simplest. They produce bright fadeless colors and will not stain hands or the container. One package will color from 1 to 6 pounds of goods, according to shade desired. Rainbow Dyes can be successfully used for coloring dress goods, coats, carpet rags, ribbons, feathers, yarns, silk fabrics, etc. Furnished in the following eighteen beautiful shades and standard colors:

Black, Orange, Yellow, Cream, Pink, Rose, Maroon, Cardinal, Scarlet, Green, Dark Green, Gray, Baby Blue, Navy Blue, Dark Brown, Tan, Heliotrope, Violet.

Write and ask for our Booklet of Rainbow Dyes, mailed free on request. It contains complete and valuable information; shows the ease with which goods can be dyed, gives full directions how to dye various articles, treatment of stains, effect of dyeing one color over another, colors that harmonize, etc. In ordering be sure to state color of dye wanted. Shipping weight, 2 ounces.
No. 8H327 Regular 10-cent package. Price.....8c

OTERITE. Magic Color Discharger.

One package will strip or discharge color from 1 pound of material, wool, cotton, silk, linen or mixed goods, without in the least degree injuring the most delicate fabric. Enables you to dye one color over another; in other words, dark colored goods can be stripped of the color and dyed any light shade desired. Full directions in package. Regular price, 10c.
No. 8H349 Price, per package.....8c

Protect Your Home, Stables and Property With the Liberty Fire Extinguisher

One of the best, simplest and most reliable of all fire extinguishers. Never gets out of order. Always ready. It effectively and instantly extinguishes, by scientifically smothering, all kinds of fire, whether the fire originates from gasoline, naphtha, benzine, excelsior, rubbish, electricity, or from your own burning clothing. Simply dash **"Liberty"** Dry Chemical into the flames and the fire is out.

The "Liberty" is perfectly safe and can be as easily used by women and children as by an expert fireman. Merely pull the tube from the hook and throw the powder on the base of the flames. **"Liberty"** is harmless to person or fabrics. No dangerous acids, no explosives.

Don't leave your family, your home and your property unprotected from fire! Six **"Liberty"** Extinguishers (at a cost of $15.00) hung at convenient points about your house and stables will afford abundant protection and will extinguish fires which otherwise might destroy property worth thousands of dollars, or even cost the life of a loved one. Shipping weight, 3½ pounds. Regular price, $3.00 each.

INSECTICIDES AND FUNG

Spray Your Trees and Plants and Kill the Bugs and Insec

If you want full information on sprays and spraying machines, what to use and how to and ask for our Sprays and Spraying Machine Booklet. It is free and may save you hund thousands of dollars on your crop. Send for this booklet at once.

Paris Green, Powder Form.

Paris Green is recognized as one of the most important insecticides and is used for destroying insects of all kinds, either in wet or dry conditions, but in all cases it is first largely diluted. When it is used in the dry or powder form, it should be mixed with plaster, sifted wood ashes or flour. The strength of the mixture should depend upon the plants and insects to which it is to be applied, but at no time should more than 1 pound of Paris Green be added to 50 pounds of mixture, as that is usually sufficient. Care should be taken when using Paris Green mixed with water that the liquid is constantly stirred as it is used for spraying; otherwise the Paris Green will settle and the last quantity in the bottom of the cask will be so strong as to be liable to do serious damage.

No. 8H2006¼ Price, per 100-pound keg $15.50

The above prices are subject to market changes.

Arsenate of Lead Paste.

Arsenate of Lead Paste has many advantages over all other arsenic insecticides. Absolutely harmless to foliage and will adhere to it for a period during which two or three sprayings with Paris Green would be necessary to secure same effect. Will kill all leaf eating insects. The only material for gardens or groenhouse, as it is perfectly safe in inexperienced hands. Remains in suspension for a long time without stirring. Secures a uniform distribution of poison over the plants and trees. This is one of the best grades on the market.

Bordeaux and Arsenate of Lead Compound.

A combined insecticide and fungicide. Thoroughly tried and recommended by both federal and state agricultural colleges and experiment stations. Successfully used for killing all leaf eating insects and bugs which attack fruit trees and vines of all kinds. Preferable to Paris Green as it quickly mixes with cold water, does not clog spray nozzles and sticks to the foliage like glue. Prevents fungi; will not burn the foliage. Save your fruit trees and vines, your potatoes, cucumbers, asparagus, cabbage, etc. Helps produce larger fruit and more of it. By preventing blight it gives potatoes longer to mature, which means a larger tuber. Full directions on can.

Scale Killer.

Positively kills and prevents San Jose and oyster shell scale. San Jose scale is the most pernicious and serious pest the fruit grower and orchardist has to fight. The only approved method of fighting is by spraying. This Scale Killer not only kills the scale, but protects the tree from reinfestation. The formula is recommended by the Connecticut Agricultural Experiment Station. One gallon makes 12 to 15 gallons by mixing with cold water. It will kill every scale covered with it when sprayed according to the directions on the can. Work should be done in fall or winter, or before buds open in the spring. No fruit grower can afford to be without this product.

"INSURE YOUR CROPS"

QUICK DEATH

TRADE MARK

IMPROVED BUG KILLER AND FERTILIZER

ABSOLUTE DEATH TO ALL INSECT LIFE.

After years of experience in handling bug killers, we offer QUICK DEATH as an improvement over other insecticides. It is positively the quickest and surest death to all insects, worms, beetles, bugs and other pests preying upon vegetation that has ever been manufactured.

QUICK DEATH is cheaper than any other insecticide known; a good fertilizer; any child can apply it; not dangerous to handle; ready for immediate use, no mixing or preparation required.

QUICK DEATH means bigger crops. If your vines and plants are kept free from the ravages of insects and bugs they will be green and growing long after your neighbors' vines and plants are dead. This gives the vegetables an opportunity to properly mature and insures larger and better potatoes, cabbages, etc. Every dollar invested in Quick Death may mean fifty times that amount in increased profit when your crops are harvested.

QUICK DEATH is preferred by many farmers because of its invigorating and fertilizing qualities, its cheapness and ease of application, and safety to those handling it.

QUICK DEATH kills all leaf eating insects. It will positively kill potato bugs, squash bugs, pumpkin bugs, watermelon bugs, cabbage worms, etc.

We purchase Quick Death by the carload. This product enjoys a tremendous sale. Each year shows an enormous increase in the demand. We supply it to every section of the United States. We receive orders for barrels upon barrels of Quick Death from owners of large truck gardens who have purchased it from us in previous seasons, and who write that they would not be without it. Every market gardener, every greenhouse owner who purchases Quick Death will never fail to reorder it. Every grower of flowers or vegetables should give Quick Death a fair trial. If it is once used it will always be used.

QUICK DEATH is easily applied. The ease and speed with which Quick Death can be used makes it preferable to other insecticides. Simply shake on the vine dry (never mix with water). Apply early in the morning when the plants are damp with dew, never when the plants are dry. Can be used with a sifter or with small burlap bag or sack made of moderately coarse cloth. In this way the powder is not wasted. One application is usually sufficient for an entire season, but sometimes more are necessary. Be on the lookout for the first appearance of the bugs so that 1 pound will do the work of a larger quantity later. Three crops of potato bug eggs are laid each year. By killing off the first arrivals you will have no further trouble. Dust the leaves of the plants at the first appearance of the bugs, and save your crop from destruction. For sifter with which to apply Quick Death, see No. 8H2045 at lower right hand corner of this page.

LIME AND SULPHUR WASH

The most effective remedy known for San Jose scale, oyster shell scale, scurvy, peach leaf curl, ground and bitter rots, smuts, scabs, leaf spots, rust, etc. Highly effective as an insecticide against caterpillars, canker worms, moths and other insects.

Agricultural Experiment Stations recommend Lime and Sulphur Wash in preference to all other scale killing fluids, not only because it is cheap and most effective, but because it has no bad after effects. Many authorities state that trees repeatedly sprayed with oil sprays are injured and sometimes killed. Lime and Sulphur Wash can be used with no fear of injury to the trees. Millions of fruit trees are being destroyed annually by the San Jose scale, and millions of others are infested with it. Trees should be sprayed first in March or April, and a few weeks later go over them a second time to be sure every part is covered.

Lime and Sulphur Wash is entirely free from sediment, will not clog in spraying, securing an even distribution of the liquid; will keep indefinitely and is reasonable in price. It is always ready for use by simply adding cold water. No heating is necessary. It is not only valuable as a wash for the trunks of fruit and shade trees, but it acts as a repellant of the pests and prevents their ascending to the branches.

Directions are furnished with each package, showing quantities to be used for various trees. This preparation contains the maximum amount of lime and sulphur that will remain in solution under varying conditions. It will be found cheaper and more effective than any home made spray.

This is best applied with the Deluge Spray Pump shown on this page.

LIQUID BORDEAUX.

ONE OF THE BEST KNOWN REMEDIES AND PREVENTIVES ON THE MARKET FOR FUNGUS GROWTH ON VEGETABLES, BLIGHT, ROT, MILDEW, RUST, ETC., AND THE ACTUAL COST OF SPRAY IS LESS THAN 1 CENT A GALLON.

It controls and prevents scab, leaf spot and sooty mold of the apple, anthracnose of the bean, blackberry, raspberry and grape, leaf spot of the beet, checks ravages of the beetle, various rusts, leaf blights of the current and gooseberry, celery and pear blight, mildew of the cucumber, melon and squash, potato blight, as well as fungus diseases, blights and leaf spots of shade trees. The importance of compounding Bordeaux properly cannot be overestimated. Careful selection of materials and great care in its preparation are essential to the greatest success. This Bordeaux Liquid is prepared by experienced chemists, and can be absolutely relied upon. It is a compound of remarkable adhesive properties. When once it becomes dry on the foliage it will resist heavy washings of rain for a long time. It is particularly recommended as a fungicide, but can be combined with poisons, such as lead arsenate, Paris green, etc., making valuable mixture to be used in killing insects, bugs, worms, moths, maggots, slugs, etc., which attack vegetables, vines and trees. Insects and fungi are now so abundant that no crop can be neglected if profitable returns are to be secured. Easy to use, and can be applied to best advantage with any spray pump, but if pump is not available it may be applied with brush and pail. Complete directions on each can.

This is best applied with the Deluge Spray Pump shown on this page.

The touch of time falls lightly on the face that is daily cleansed with

DAGGETT & RAMSDELL'S Perfect Cold Cream

It is called "Perfect" because of its unvarying quality, the purity of its ingredients, the extreme cleanliness and care with which it is made, its unequaled benefits to the skin, the delicacy of its perfume and its keeping properties. A delightful, soothing, healing emollient for retarding the telltale wrinkles of time. Known the world over as "the kind that keeps."

There Is Beauty in Every Jar of Ingram's Milkweed Cream

The well known and highly advertised beautifier. A toilet cream that has proved its merits. It is nature's own aid to beauty, a skin tonic. Apply a small amount to the face, neck and hands night and morning and note the pleasing result. Good for all complexions as it is absorbed by the skin, stimulating, nourishing and beautifying. Dainty, fastidious and refined. A largely used toilet luxury. Regular price, per large jar, $1.00. Shipping weight, 21 ounces.

No. 8H3044 Price.....79c
NOTE—We do not carry the small 50-cent size jar as it holds only one-third the amount of the $1.00 size jar. It is therefore more economical to buy the large jar.

Are You Troubled With Freckles?

USE DR. C. H. BERRY'S FRECKLE OINTMENT.

Dr. Berry's Freckle Ointment is a dainty, fragrant, snow white cream, easily and quickly applied; no massage necessary. It has been the standard of all freckle ointments in America for fifteen years, and is guaranteed by the manufacturers never to have injured the most delicate skin, but has given the most universal satisfaction. For ladies affected by freckles, that great enemy of beauty, it is highly essential that a reliable remedy be used. Satisfaction guaranteed or your money back. Shipping weight, 14 ounces.

No. 8H3073 Regular $1.00 jar. Price.....79c

"DON'T ENVY A GOOD COMPLEXION; USE POMPEIAN AND HAVE ONE."

POMPEIAN MASSAGE CREAM

You will never know how good looking, clean looking and attractive you can be until you use Pompeian Massage Cream, which you have read about in many magazines for so many years. Rub Pompeian on your moistened face and well into the pores. Massage the face a few moments. Out comes the cream darkened and dirt laden. You never knew that so much dirt could stay in the pores despite soap and water scrubbing. Glance in your mirror. The old sallow dead skin look has begun to go. In its place comes a skin that has the healthy clearness and freshness of youth. Pompeian is used in a million homes. It is not a rouge or cosmetic. No, it is just a natural cleanser that makes the face pores cleaner than ever before. In pores which are Pompeian Cream cleaned lie skin health. A Pompeian massage also exercises the muscles of the face in a most helpful way. Pompeian is wholly different from cold creams in purpose, use and results. Pompeian is a massage cream that enjoys a larger sale than any other face cream. Full directions with each jar. Shipping weight, small jar, 6 ounces; large, 18 ounces.

No. 8H3111 Large $1.00 jar, holding three times as much as small. Price....77c
No. 8H3110 Small 50-cent jar.

Perfection Reversible Combination Game Board.

100 GAMES CAN BE PLAYED ON THIS BOARD.

The board is 28¼ inches square, reversible, with good net pockets. Furnished complete with 109 pieces of equipment, including twenty-nine rings (four colors), two cues, fifteen number discs, ten pins, backstop, two dice boxes, four dice, thirty-eight pawns (four colors), direction book, two boxes for men, three removable legs and revolving stand. Only the very best basswood is used. No warping. Not like some boards, sold with two or three different colored woods on each face, making it more difficult to play and of bad appearance. All the squares, circles, diagrams, decorations, checker board and stencil work are in high polish, varnished and rubbed. Very artistic finish. Result of many years' experience. One hundred separate games can be played, including such popular games as Auto Race, Chuck-a-Luck, Chess, Checkers, Fortune Telling, Fox and Geese, Go-Bang, Nine Pins, Pool games, Backgammon, Shuffle Board, Crokinole. Twenty-five cue games can be played. Makes young people enjoy staying home evenings. Each board guaranteed perfect and complete. Separate parts can always be furnished at small nominal cost. Largely sold for progressive parties. After once seeing and trying it, and finding out for yourself the immense amount of enjoyment derived from such small investment, you will thank us many times for urging you to buy this beautiful board. No other game board contains so many new and interesting games. Shipping weight, 14 pounds. Regular price, $3.50.

No. 49H3000¼ Price for board complete, 28¼ inches square, with the 109 pieces of equipment..... **$2.65**

Monarch Combination Game Board.

A very high class nicely finished game board, 28½ inches square. Has revolving stand and all necessary equipment for playing seventy-five popular games. FINEST QUALITY PLUSH TEDDY BEARS.

Plush Bears are not a fad, but are actually more popular than ever before. No toy brought out in recent years will hold the interest of the child so well as the bear, besides giving most splendid service, as they are almost indestructible. The quality we offer is of celebrated German manufacture, the best that money can buy. Beautiful long silk plush, perfectly featured bodies, very true to life, full jointed, allowing the bear to assume countless comical positions. All sizes are fitted with the very latest improved automatic growling voice, which requires no pushing or pressing to operate. The bear growls when the body is tilted forward. Comes in natural cinnamon color only. Priced according to size and proportion as given below.

Chautauqua Home Educator Blackboard and Writing Desk, $2.25.

The result of the maker's effort to produce the very highest class and finest educational chart. Nothing has been spared to make it the very best. The blackboard has a special slated surface, and can be written on with chalk and easily erased. The chart stands 4 feet high and 22 inches wide. The desk and blackboard surface measure 20x18 inches. Chart is built of white oak, golden oak finish, handsomely varnished. The cabinet and five-compartment desk top are nicely colored, the desk being highly polished, and both chart and desk are made in a practical substantial manner. The chart scroll contains thirty-three plates, nearly twice as many as most charts on the market. The subjects are of the widest range, including lessons in penmanship, both English and German script, arithmetic, drawing, landscape and marine sketching, music writing, tables of standard weights and measures, interest rules, single and double entry bookkeeping, shorthand, telegraphy and a variety of others. A practical education for all, from the little tot beginning its A B C's, to the mature child eager to learn mysteries of mechanics, telegraphy, shorthand, etc. A fascinating amusement, yet not a plaything or toy. Can be folded to thickness of 2½ inches. Size, 47x22 inches. Shipping weight, 22 pounds.

No. 49H3012¼ Price..... **$2.25**

These Fine Masks, 6 for 25 Cents.

Six first class quality paper masks, all painted in colors, and equipped with either hair, whiskers or mustache, for only 25 cents. The masks average about 8 inches in length, and in assorted popular subjects, as shown in above pictures. Shipping weight, 16 ounces.

No. 49H1198 Price, 6 for..... **25c**

A Real Airship for $1.65.

It actually flies through the air. A good reproduction of the famous new model biplane, and will fly about 15 yards high, and for a distance of 50 yards. Made of the best steel spring wire and therefore very substantial and unlikely to get out of order. Practically no danger to the framework if machine should fall in a tree or strike a wire. The planes are covered with light silk material, so if through an accident they should get torn, they can easily be replaced. The mechanism is very simple, and can be operated by a child. Entire length, 12 inches; height, 7 inches. The momentum is produced by pulling a cord wound around patented starting handle. A most delightfully interesting and instructive toy for boy or girl. Complete with starting handle and cord. Shipping weight, 2 pounds.

No. 49H464 Price..... **$1.65**

Golden Locks Doll.

Large Doll of beautiful design, 27 inches tall when made. Prettiest and best selling rag doll ever offered. Large enough to wear baby's clothes. Printed in five colors. A cut out dolly that sells everywhere. Printed on strong muslin and will wear for years. Shipping weight, 4 oz.

gic X-Ray Cards.

The mind reading deck. Full pack of fifty-two cards. Per- an allow spectator to d, place it in deck, and any shuffling or manip- the performer can in- all out the chosen card. eight, 5 oz. **21c**
9H1310 Price.

The Magician's Peerless Deck.

Pack of fifty-two cards without marks. Enables an amateur to draw desired card from middle of deck. Call any number of persons to select cards, place in different parts of deck and shuffle pack themselves. You can draw all the cards at one cut. Shipping weight, 5 ounces. **21c**
No. 49H1311 Price.....

Great Panel Trick.

Remarkable little trick that will astonish anyone. Place a coin on center of panel, covered by a plain tin cover. On removing cover it has vanished. Can be made to reappear while the cover is held down by spectator. A well made, most popular trick. Shipping weight, 3 ounces. **19c**
No. 49H1312 Price.....

The Remarkable Spirit Slate.

No trick has ever puzzled the spectators more and created a greater sensation than the famous so called "spirit writings," which appear between sealed slates that have been freely shown, cleaned, carefully tied together, and given to a spectator to hold. Full simple directions sent with each slate; no chemicals required. Shipping wt., 22 oz. **45c**
No. 49H1313 Price.....

The Mysto Handkerchief Vanisher.

With sleeves rolled back, the performer takes a silk handkerchief, rolls it into a small ball, until finally it entirely vanishes. The hands never approach the body. No rapid movements required. Most mysterious. Easy to perform. Highly popular with magicians. Shipping weight, 5 ounces. **21c**
No. 49H1314 Price.

Phantom Cards.

A trick that will fascinate and bewilder any spectator. From five cards three are mentally selected by spectator, placed under an ordinary handkerchief. Performer withdraws two cards, the ones not selected. The performer invites anyone to remove the others, and to the great astonishment of all, they have disappeared. No sleight of hand. One of the most ingenious card tricks invented. Shipping weight, 2 ounces. **8c**
No. 49H1315 Price...

Magic Coins.

A mystifying and amusing trick. With this machine you can stamp out three bright new dimes from smooth, examined metal discs. A real money pocket trick. Shipping weight, 2 ounces. **12c**
9H1316 Price.....

Pass Pass Coin Trick.

This is without doubt one of the most brilliant and deceptive experiments ever devised. The performer shows seven coins, which he counts upon the table, one pile of four and one of three coins. Placing one of the nickel covers over each pile and instantly removing them, but two coins are found in one pile while the other is increased to five. This is repeated until all the seven coins are found under one cover. This trick can be performed anywhere under the very eyes of the spectators, and with the famous Mysto coins the trick is almost undetectable. Highly recommended as one of the best things to be had. Regular price, $1.50. Shipping weight, 4 ounces. **89c**
No. 49H1318 Price.....

Vanishing Coins.

A coin held in the palm of the hand is made to vanish when the hand is closed. Only one hand used. No practice required. A very wonderful effect. Shipping wt., 2 ounces. **19c**
No. 49H1319 Price..

Cigarette Vanisher.

YROGRAPHY OR THE ART OF WOOD BURNING

ELL SELECTED LINE. While the pyrographic goods we have shown in the past were the best possible to secure at that time, and have given satisfaction, we have this season been able to secure an entirely new line, the latest, highest most finish, and most excellent quality ever offered; each piece representing exceptional and a product of painstaking experience. We have secured for our customers the latest, ns of pyrographic materials.

VERY HIGHEST QUALITY MANUFACTURED. There is probably no other line of ndise which so readily permits unscrupulous manufacturers and dealers to dispose of "seconds" and shoddy material as in pyrographic goods. The various stamped pieces we show are absolutely fresh new stock, beautiful white basswood, three-ply to prevent warping, and entirely free from knots, cracks, and other imperfections. Many dealers hide these defects under the designs, so they can hardly be detected.

PYROGRAPHY OR WOOD ETCHING is the art of burning decorated stamped designs on wood, leather or cardboard, by means of a heated point. The heat is produced by rubber bellows and attachments. Full instructions accompany each outfit. It requires but little experience—and no great talent—to produce very satisfactory work.

ood Pyrographic fit for Only 98c.

uit contains all the necessities for the beginner, well in a fine clearly stamped d box, fitted with brass d hinges. Includes a good tested platinum point, plain tile, imported red rubber bulb, metal screw cap, alcohol complete with wick, metal ork and benzine bottle, directions and book complete course of instructions. 6½x4⅞x4 inches. Shipght, 20 ounces.

No. 8H4601 Price.....**98c**

An Excellent Outfit for Only $2.69.

The quality of the articles in this outfit is the best and everything is guaranteed to give perfect satisfaction. The point is heavier and more durable than points in less expensive outfits; the bulb is the same good quality imported red rubber but larger size, making the work easier; the benzine bottle is larger and in addition, the outfit contains a metal screw cap alcohol lamp, extra length of red rubber tubing, plain cork handle, metal union cork, also one bottle of wood filler and one bottle of stains for coloring burnt articles. The box is made of the finest white basswood clearly stamped and ready for burning, fitted with brass clasp and hinges and is divided into five partitions for keeping the respective articles separate. Also a sheet of directions and a book containing a complete course of instructions. Size, 10x4½x4½ inches. Shipping weight, 2¾ pounds.

No. 8H4603 Price.....**$2.69**

Our Best Outfit $3.85

This outfit is the best we carry and we are confident that you cannot duplicate it at anywhere near the price we ask, quality considered. The heavy platinum point is the best and has been carefully tested before packing. The handle has a patent swivel attachment which prevents the tubing from twisting. The bulb is the best made, extra large, thus requiring less than half the amount of labor to keep the point heated. There are seven partitions in the box, containing an alcohol lamp, large benzine bottle, one bottle wood filler and a complete set of water colors for coloring in natural colors the burned articles, in addition to a direction sheet and illustrated book of instructions, showing how to procure the different effects in burning. All packed in an exceptionally strong and well made box, stamped with a beautiful design for burning. Extension top and bottom. Fitted with brass clasp and hinges and brass handle on cover. A practical and useful set and one that we recommend. Size, 9¾x7¼x4⅞ inches. Shipping weight, 3½ pounds.

No. 8H4604 Price.....**$3.85**

Our $1.29 Outfit.

This outfit is more complete than No. 8H4601 in that it contains two bottles of stains for coloring the articles when burned, in addition to the regular and necessary pieces. Thoroughly tested platinum point and all the other articles will give equal satisfaction, including the first class plain cork handle. The double bulb is made of the best imported red rubber and there are also a metal screw cap alcohol bottle, metal union cork and benzine bottle, extra piece of red rubber tubing, direction sheet and a book comprising a complete course of instructions. All well packed in a very fine white basswood box, clearly stamped for burning and fitted with brass clasp and hinges. Size, 8½x6½x3⅝ inches. Shipping wt., 1¾ lbs.

SYRINGES AND WATER BOTTLES

NOTICE—We are the only concern, to our knowledge, which sells syringes and water bottles that actually hold the amount given on the label, the average 3-quart packages only holding about 2 quarts. These short measures are sold to reduce the price. We are glad to say we do not sell short measure rubber goods, but all are guaranteed to hold the quantity the label specifies. Our prices are very low and you must realize we sell you a 2-quart bottle that actually holds 2 quarts as a 2-quart bottle, while it is sold in the trade as a 3-quart size and priced accordingly. When your doctor advises a 2-quart syringe, you want one that holds 2 quarts, and you get full capacity in the following line.

OUR GOODS, PRICES AND MEASUREMENTS ARE RIGHT.

89c

Sanitary Fountain Syringe.

Fine medium priced white rubber syringe. Made of high grade rubber and contains vaginal, rectal and infant slip pipes, good rubber regular flow tubing and patent shut off. Packed complete in neat box. By far the best syringe ever offered at the price. Shipping weight, 17 oz.

Veno-Star Household Red Rubber Gloves.

Ladies! If you wash dishes, scrub floors, blacken the stove, develop photographic negatives, wash windows, trim plants, work in the garden, dye fabrics or do a hundred and one other household duties which roughen and soil the hands, then buy a pair of Veno-Star Red Rubber Household Gloves and protect your hands.

Never waste time and money on cheap household gloves. They look nice for a short time but do not wear. In rubber gloves, as in nearly all other commodities, it pays to buy the best. The Veno-Star Red Rubber Household Gloves are among the very best and highest class household gloves manufactured. They are as good as fine material and expert workmen can produce. They keep the hands soft and white and are unequaled for ladies' use in doing general housework. They are strong, soft and pliable and can be worn without the slightest inconvenience in doing work of the most delicate nature. Every pair fully guaranteed. Follow closely the directions for keeping them clean found on cover of each box. Especially note effect of oil and grease. Shipping weight, 8 oz.

DIRECTIONS FOR MEASURING—Take measurement loosely around hand over the knuckles and add ½ inch to amount for correct size. For example, if measurement around hand is 7½ inches add ½ inch and order size 8 glove.

No. 8H2496 Price, per pair.....89c

Venus Sanitary Protector.

Waterproof, cleanly, antiseptic. Has an India rubber sack, soft, pliable, and very strong, which admits a napkin, or any soft substance like cheese cloth, and will hold it securely in proper position. No. 8H2147 Price, 3 for..13c

Hygeia Nursing Bottle.

NOTHING LIKE IT.

The Hygeia Nursing Bottle consists of two parts—breast and cell. The food is not put into a bottle, but into an open, wide mouth cell. This can be filled without a funnel, and cleaned without a brush. The interior can be wiped out with a towel. The other portion of the bottle is not a nipple, but a breast, which is seamless, reinforced, reversible, and in form and function is like a mother's breast. It is yielding like an air cushion, yet non-collapsible, and is turned inside out with perfect ease for cleansing, so that both bottle and breast can be readily cleaned. The breast resembles mother's breast, so that when breast milk fails, or time for weaning has arrived, there is little difficulty in transferring baby from mother's breast to the breast of the Hygeia Bottle, or feeding from the bottle, while feeding from the breast, to make up the deficiency in the natural supply. Capacity, 8 ounces. Shipping weight, 12 ounces. Retail price, 35c.

No. 8H2150 Price, bottle complete.25c

No. 8H2151 Extra breasts or bottles can be supplied. Price.....13c

Elastic Stockings, Abdominal Belts and Shoulder Brace

Elastic Stockings, Etc.

Very best that skill, finest material and experience can produce. Prices only about one-half what other firms charge. We guarantee quality and workmanship to be the best. You can get nothing better at double the price at which we sell these goods.

For the relief of varicose veins; weak, swollen or ulcerated limbs; corpulency and abdominal weakness. As rubber goods spoil with age, these Elastic Stockings and Belts to wear well should be made of fresh material. As soon as we receive an order from a customer for **elastic stockings, or other special make elastic goods,** we at once send it to the factory and have the article manufactured **exactly according to measurements given. We guarantee perfect fit and goods that are actually fresh.** Anyone who has had trouble in obtaining either serviceable or good fitting stockings is requested to give us a trial.

Take measurements carefully at each letter as indicated in the illustration; also give the length from the lowest letter to the highest. For example: For a garter stocking you would take circumference at A, B, C, D and E; also the length from floor to E inside limb. For stockings extending above and below knee BE SURE TO TAKE SIZE AT F, ALSO LENGTH FROM LOWEST POINT TO F, AND FROM F TO HIGHEST POINT. For thigh knee cap give circumference at E, F, G, H and I; also length from E to F and from F to I. For hand piece give circumference at U, V, W, and length from U to W; also state whether for right or left hand. Give us the exact measurements, which should be taken, if possible, in the morning. We allow for expansion. Shipping weight, 8 ounces.

Dr. Diemel's Lift-Up Supporter.

Linen Mesh.

Soft, light, cool, comfortable, perfectly ventilating. Will not unravel. Superior to muslin, flannel, silk or other fabrics. Strong and can be washed like underwear. Three adjusting straps on each side, and the special lift up strap at bottom to give extra support when needed. Sizes, 30 to 48 inches. **In ordering give measurement around body at largest part of abdomen.** Shipping weight, 15 ounces. Regular price, $2.50.

No. 8H3706 Price.....**$1.95**

Silk Abdominal Belt.

Buckling at side affords easy adjustment.

This supporter is made of fine silk thread, full leather trimmings, pads are of soft leather and chamois lined. Full fashioned front, extra heavy at top and bottom to prevent wrinkling. **Give measurements at largest parts of abdomen.** We allow for pressure. Made in all sizes and in 8 and 10-inch fronts. **Be sure to give all measurements.** All belts over 54 inches in length are extra sizes for which 25 cents extra must be charged. Shipping weight, 13 oz.

No. 8H3701 Price.....**$4.35**

Moleskin Cloth Obesity Belt.

Made of very fine strong moleskin cloth, thereby giving comfort and the support required. Used to advantage by corpulent people, both ladies and gentlemen. They will give shape to the pendulous or relaxed abdomen. Its use leaves no room for surplus fat to accumulate. They are fitted with strong elastic side straps and stays. **In sending your order be sure to give your measure at the largest circumference around the abdomen.** Shipping weight, 14 ounces. Regular price, $3.00 to $5.00.

No. 8H3705 Heavy extra high grade moleskin cloth, leather protected stays to keep from working out of belt and an extra fine high grade belt made especially for us. The best one to buy. Price.....**$2.45**

No. 8H3704 The same belt sold by others and a good belt in every respect but of cheaper material and finish than belt above. Price.....**$1.45**

Perfection Maternity Belt.

The latest and most approved belt made. Material of the finest open mesh cloth, laces at sides, has extra lift up attachment at front. In our opinion it is one of the finest, softest and easiest worn belts made. Can be washed and kept cleanly and antiseptic. Should be worn by every expectant mother. **In ordering specify size 6 inches larger than abdominal measurement,** to allow for greatest expansion of belt. For example, for 38-inch abdomen you should order 44-inch belt, as measurement of belts in all cases count on greatest expansion. Shipping weight, 14 ounces.

No. 8H3708½ Price.....**$2.65**

Full Fashioned Abdominal Belts.

The finest made. Very best thread, knit double at top and bottom, full leather trimmed, silk stitched, full leather chamois lined back pad, with eyelets for attachment of under straps, if desired. Made to order by hand. Shipping weight, 18 oz.

Old Comfort Body Brace.

Why pay others $5.00? This style brace has been handled by us for many years, and is one of the most popular, and, in our opinion, one of the very best supporters for the purpose intended on the market. Made from specially prepared material, adjustable, no trouble in getting a perfect fit. Upper portion of belt and shoulder straps of strong elastic webbing. Lower belt is non-elastic. Only white material is used throughout. Easily laundered. Can be worn under corset or over vest. An extra set of understraps is furnished free of charge, to be used when first set is in laundry, so that brace can be worn when most needed. The genuine Old Comfort Body Brace is an abdominal supporter and shoulder brace combined, and in addition to possessing many of the good points of each, its special construction makes it very desirable for women needing a support of this nature. **When ordering give number of inches around body about 2 inches below of the hip bones.** Shipping weight, 20 ounces. Regular price, $5.00.

REATHING GOVERNS YOUR HEALTH

PROF. CHARLES MUNTER'S

NULIFE

PATENTED

—MAKES YOU BREATHE CORRECTLY

The best shoulder garment made.

The Health Garment For Man, Woman and Child.

Everyone who has worn a NULIFE garment has shown immediate improvement in health and appearance. Every man, woman and child should wear a NULIFE, because every NULIFE wearer is a living testimonial of health.

NULIFE is recognized the world over as the best and most beneficial garment ever invented for compelling deep breathing, expanding the chest, straightening round shoulders, reducing the waist and making you stand naturally, sit and walk correctly all the time.

Gives man a military appearance, gives women the grace, symmetry and poise demanded by health and fashion, rounding out the hollows of the neck and chest, and causes weak, round shouldered and delicate children to improve rapidly and grow up healthy and strong.

NULIFE is not made of steel or rubber, but is a thin washable garment as light as a feather, but very strongly made, fits the body smoothly and responds easily to every movement of the wearer. One trial will convince you of its wonderful merits. Gives the same benefits to athlete or invalid, young or old.

Deep breathing is Nature's method for ventilating and purifying the human body, exhausting the gases created by foodstuffs and carries oxygen or life giving atmosphere throughout the entire system, creating perfect circulation and preventing decay.

Deep breathing keeps the lungs in proper action all the time, which purifies the blood and creates new life throughout the system.

Deep breathing increases the capacity of the lungs, which are the storage batteries of energy and the reservoir of strength for the body.

Fresh air is Nature's natural medicine for the body and gives proper benefits without any fear of harm.

Deep breathing straightens round shoulders and sunken chest by developing the upper structure of the body to its natural formation.

Deep breathing creates proper pressure that stimulates heart action and gives it energy to promote circulation.

Every school child should wear a NULIFE.

NULIFE holds up the shoulders and makes the child grow erect and strong.

NULIFE makes you sit and stand correctly.

NULIFE rests you while you work and gives you a graceful and stylish appearance.

breathing keeps the body in a normal temperature and prevents colds, coughs, throat and lung trouble about by improper breathing, and renders the body less susceptible to disease.

breathing gives all the benefits of physical culture without loss of time or exercise.

breathing makes the weak strong, and the strong more healthy and vigorous.

LIFE is not a mechanical restriction, but a health garment made on scientific principles, whose good are positive and permanent.

more than seven years NULIFE has been recommended and sold the world over by eminent physicians, and vocal instructors, military authorities and teachers of breathing exercises, at $3.00 a garment, com- At our price you save over one-third.

Try NULIFE First and Avoid Experiments and Dissatisfaction

No garment is a genuine NULIFE unless the name is woven in the belt.

In ordering be sure to give height, weight and measurement, clear around the body at chest, and state whether for man or woman, boy or girl.

3H3800 Regular price, $3.00. Our price **$1.92**

Shipping weight, 8 ounces.

THE BEST TRUSSES At Reasonable Prices — TRUSSES — THE LARGEST TRUSS Business IN THE United States

WE HANDLE ONLY THE VERY BEST MAKES. TRUSSES OF EXCEPTIONAL QUALITY AND FINISH.

OUR UNQUALIFIED GUARANTEE. We guarantee every truss we ship to be strictly as represented and of the highest grade manufactured. We guarantee that our prices are much lower than those charged by others for trusses of like quality. Make an investigation for yourself and prove our statement.

IN ORDER TO PROVE TO EVERY PERSON who wears a truss that we can fit your condition, that we can save you half the retail price you formerly paid, and in order that the truss may meet your every requirement, we will allow you to purchase any truss shown in our catalog, with the distinct understanding that you may compare it with trusses from other houses and that you may try it on, adjust it, and wear it for a reasonable time as a trial, in order to prove value and that it is just the truss you require. A few hours' wear will easily prove whether or not the truss fits your particular case. If, however, you find after trying that it causes pain, that it does not hold the rupture, or, in other words, is not satisfactory, then **DO NOT WEAR IT ANY LONGER**, but return it to us and we will either exchange for another form of truss or will gladly return your money.

EVERY TRUSS WEARER should wear a "Nulife" Shoulder Supporter (see No. 509). It holds up the shoulders and abdomen, which is of great importance in keeping the rupture in place. We urge you to buy a "Nulife" and you will thank us many times for the suggestion.

Elastic Trusses

Trusses with elastic bands are excellent styles for use at night to continue the support given by a spring truss during the day. Remember, in elastic as well as spring trusses, it pays to buy the best.

A rupture can only be cured by giving support and not allowing protrusion at any time. An elastic truss worn at night and a spring truss during the day give such support and help to contract and heal the opening in the shortest possible time.

J. Ellwood Lee's Genuine New York Elastic Truss.

SINGLE, 59c
DOUBLE, 98c

Made of an extra good quality web elastic 1¾ inches wide, of great strength and durability. Fitted with nickel fastenings, solid front and fine enamel pad, which is reversible, so it can be arranged for either right or left side. Remember that this truss is fitted with the very best improved safety clutch fastenings, the most reliable fastener made. The price of this style of truss elsewhere is usually from $1.00 to $2.50. We guarantee our trusses to be of high quality workmanship and finish, and to cost you much less than usual prices. Shipping weight, single, 6 ounces; double, 8 ounces.

No. 8H3510 J. Ellwood Lee's New York Elastic Truss, reversible, single. (Be sure to state size and side.) Price.....59c

No. 8H3511 J. Ellwood Lee's New York Elastic Truss, reversible, double. Price.....98c

The above truss can be furnished in youths' and adults' sizes at the prices quoted. **Be sure to send with your order measurement around body on a line with rupture.**

Do not fail to state on which side the rupture is located.

Lee's Special Elastic Truss.

SINGLE $1.25
DOUBLE $2.25

A superior quality high grade elastic truss, made of a fine quality of heavy web elastic. It has a new style belt, adjustable at both ends so it can be lengthened or shortened as may be desired. It is fitted with improved safety clutch fastenings. Complete with the well known leather covered water pads. These water pads are very popular and comfortable and are reversible, so they can be arranged for either right or left side. This class of truss is seldom sold by others for less than $2.50 to $4.00, single, and as high as $4.00 to $6.00 for the double truss. Shipping weight, single, 8 ounces; double, 12 ounces.

No. 8H3514 Lee's Special Elastic Truss, youths' or adults' size, single. (Be sure to state size and side.) Price...$1.25

No. 8H3516 Lee's Special Elastic Truss, youths' or adults' size, double. Price.....$2.25

Be sure to send with your order measurement around the body on a line with rupture, also state whether leather or silk covered pads are desired.

Walker's Approved French Pad Single Elastic Truss.

A HIGHLY RECOMMENDED TRUSS.

SINGLE, $1.75

Composed of fine strong extra wide elastic, to which is attached the improved Walker pad or pads combined with strong elastic understraps. It is one of the best elastic trusses made. This truss is fitted across the body, the full part of the pad facing the center. The advantages of this style of truss over other elastic trusses are as follows:

First—By fitting across the body and fastening on the center steel posts on the back of pad a center draft over the top of pad is produced, insuring inward and upward pressure.

Second—By hooking on the tie strap the pad tips produce upward and inward pressure at the same time. **Walker's Approved French Pad Elastic Truss is, therefore, especially adapted for rupture which comes out egg shape, usually known as inguinal hernia, or light cases of scrotal rupture, where the intestines go down into the scrotum, called inguinal scrotal rupture.** Fitted with rubber tubing understraps. Can be furnished in stuffed pad or water pad. In ordering state which kind is desired. Made of the finest extra wide and heavy web elastic. This truss is reversible and adjustable. Shipping weight, 8 ounces.

No. 8H3512 Walker's Approved French Pad Single Elastic Truss. (Be sure to state size and side.) Price.....$1.75

Walker's Approved French Pad Double Elastic Truss, $2.75.

DOUBLE, $2.75

NOTICE—The Radical Cure Spring Pad is for use

Keystone Appendicitis Supporter

This newly perfected truss now meets a long felt want. It affords good pressure and protection needed for all persons subject to attacks of this disease. The large soft white kid pad is attached to body by means of the very best 3-inch white elastic. The understrap is of best material and prevents slipping. The pad is of celluloid face with white kid pad, is adjustable, is soft, easy and comfortable and affords a good surface protection. This truss can also be used for holding difficult ruptures and for protection after operation on abdomen or back. We believe this truss will give you satisfaction. weight, 10 ounces.

Patented Akron Elastic Trusses With Sponge Rubber Pa

IN OUR OPINION THE VERY BEST ELASTIC TRUSSES MADE.

No. 8H3545 Akron Elastic Truss, single, reversible. Be sure to state size and side. Shipping weight, 10 ounces. Regular price, $3.00.
Price.....**$2.39**

All manufactured from the very best 1¾-inch elastic, with genuine leather and nickel plated improved safety clutch fastenings and popular patented Akron soft sponge rubber pads. The Akron soft rubber pad trusses cost a little more than others, but for comfort and satisfaction are well worth the difference.

AKRON PATENTED SPONGE RUBBER PADS.

Just what the name implies, pads made from a special compound of the finest red rubber made in molds and blown to a perfect porosity, fine and firm, yet soft and resilient, velvety and soft to the skin, and a comfort and relief to truss wearers.

The Akron sponge rubber pads are the most comfortable so far produced. Pad yields at every point, adapting itself to the ruptured parts and covers instead of spreading the rupture. **PAD WILL NOT SLIP, BUT STAYS WHERE IT IS PUT.** Can be easily removed from the truss and can, without injury, be washed with soap and warm water, keeping them clean, odorless and aseptic. We strongly suggest to truss wearers that they give this pad a trial. Satisfaction guaranteed or your money back. These pads are supplied only on the Akron trusses.

SINGLE ELASTIC TRUSS WITH SPONGE RUBBER PAD.

This truss has double end straps which admit of different adjustments; drawing up the lower strap gives inward and upward pressure in holding the rupture firm for all motions of the body and limbs.

DOUBLE ELASTIC TRUSS WITH SPONGE RUBBER PADS.

Same grade elastic as the single, but with double pads and double understraps. Easy adjustments and a truss that gives satisfaction.

No. 8H3546 Double Elastic Truss, with sponge pads and the same as the single truss. Shipping 12 ounces. Regular price

Umbilical Trusses for Adults and Infants

Akron Umbilical Truss With Sponge Rubber Pad.

FOR INFANTS AND YOUTHS.

Flat and navel pad made from sponge rubber, soft and comfortable to the flesh. Buckle for adjusting and fastening band is on the outside of pad, eliminating all danger of hurting the child. Easily cleansed with soap and warm water and perfectly sanitary in every way. Far superior to the old style hard pads. Will not slip. Made in all sizes. **In ordering give size around abdomen.** Shipping weight, 3 ounces.

No. 8H3547 Price.....89c

Akron Umbilical Truss With Sponge Rubber Pad.

FOR ADULTS.

Flat and navel pad made from sponge rubber, soft and comfortable to the flesh. Wide high grade elastic and a very fine truss. Pads can be easily cleansed with soap and warm water and kept perfectly sanitary in every way. Preferred by many to the hard pad style belts. These pads will not slip, and are highly recommended. **In ordering give size around abdomen.** Shipping weight, 15 ounces.

No. 8H3548 Price.....$2.55

Infants' Umbilical Truss.

Soft Rubber with an inflatable pad. An excellent truss for very young infants. Sizes, 10 to 17 inches inclusive. It consists of a short rubber belt with laces in the back. The pad, which covers the navel, is inflated through the rubber tube and when filled the tube is tied with a soft string to prevent the escape of air from the pad. **Be sure to give size around body when ordering.** Shipping weight, 3 ounces.

Our Leader Scrotal Truss. A Truss That Meets Nearly All Requirements. As Good as Money Can Buy.

Single, **$3.95**

Double, **$5.95**

WE HAVE SELECTED as a leader **the genuine full calf covered scrotal truss, manufactured by J. Ellwood Lee Co., the celebrated truss manufacturers of America.** It is a truss that can be used either for regular or scrotal rupture. This truss is sold by nearly every surgical instrument and physicians' supply dealer in the country at practically double our prices. **EVERY PART OF THE TRUSS** is selected with special care. **The springs are the very best steel and carefully tempered.** The covering over the spring is heavy calfskin, padded inside and fine casing, double silk stitched, with hand made pad, preventing its cutting the body and making the truss easy and comfortable. The pad is especially constructed, hair stuffed, covered with soft leather, large in size and will hold a rupture where every other form of pad has failed. It has a rubber covered elastic understrap which keeps the pad in perfect shape and prevents its slipping or shifting. **This truss is the very best truss that can be made and we guarantee will give satisfaction in every case.** We offer you the single truss for $3.95 and the double truss for $5.95. We offer you this excellent truss at these low prices in order to bring the best truss within the reach of all.

Shipping weight, 24 ounces.

In ordering please state side on which rupture is located; also give measurement around body on a line with the rupture. Sold under a positive guarantee that no better truss of this style could be obtained anywhere no matter what price you would be willing to pay.

Fine German Scrotal Truss.

Single, **$2.25**
Double, **$3.35**

In cases of rupture which are exceedingly difficult to be held in position the Fine German Truss has proven very successful. This is a spring truss, leather covered, with scrotal pad. It is fitted with an additional understrap which holds the pad in position and which prevents the moving of the pad. Consequently it will hold the rupture better than most any other style of belt, yet it is comfortable and effective in the treatment of rupture.

No. 8H3552 Fine German Truss for rupture that is difficult to hold, single. **(Be sure to give size and side.) Price.....$2.25**

No. 8H3554 Fine German Truss for double rupture. **Price.....3.35**

If mail shipment, postage extra, 14 cents.

In ordering the Single Fine German Truss be sure to state the side on which the rupture is located, whether right or left; also give measurement around body on a line with rupture in all cases.

Fine Leather Covered Spring Reversible Trusses.

Fine orange color leather Spring Trusses; best springs, silk stitched leather casing, padded inside top and bottom, rolled edges to prevent cutting the body, full nickel plated and highly polished attachments, and reversible and adjustable pads to fit various parts of the body.

Leather Covered Water Pads.

Vim Athletic Supporter and Suspensory Combined.

Combines all the convenient and essential features of an athletic supporter and suspensory. The materials used are the very best and workmanship par excellence.

As an Athletic Supporter. The leg bands are attached in front, not to the waistband, but to the bandage itself, and for this reason there is no downward pull to cause the supporter to slip over the hips, nor will the leg bands get out of place and cause chafing.

As a Suspensory. The Vim is light, cool and comfortable. It fits perfectly without adjustment. There are no buckles to cause discomfort and the comparatively wide bands lie flat so they cannot possibly cut into the flesh. Especially adapted to athletes and as a combination suspensory. Can be changed in a moment's time while being worn from a reinforced athletic supporter to a light, cool suspensory. Regular price, $1.00. **Furnished in three sizes, small, medium or large. State size.** Shipping weight, 5 ounces.

No. 8H3780 Vim Athletic Supporter and Suspensory. Price.....79c

Draw String Suspensory.

Something new in the line of draw string suspensories. Exceptionally neat in appearance and embodies features and advantages in construction not found in many suspensories. Durable, comfortable, easily washed, no elastic in bands and very serviceable. Shipping weight, 4 ounces.

No. 8H3783 Lisle Suspensory.....33c
No. 8H3784 Silk Suspensory.....49c

Turkish Bath Cabinets

The following line of Turkish Bath cabinets is the best made. This same line is advertised under another name and sold much higher than our prices. They are of the latest steel spring construction, are all patented, extra well made, larger than most cabinets and are the most satisfactory bath cabinets sold today.

The vapor bath is a very reliable means for effectively opening the pores, thereby elimination through the pores of the skin.

With a steam cabinet you can take a Turkish bath in the privacy of your own just before retiring, consequently there is no exposure afterward. You avoid any from this source and also save much valuable time and have the bath ready for use when most needed, save the expense of public baths, and most important of all, fresh air while bathing, air not polluted with poisons exhaled from others.

If you desire a home treatment for opening the pores of the skin, for aiding the tion of a clean, healthy body, buy a good bath cabinet. It is an investment you will regret. We carry four grades of bath cabinets, depending upon the covering material appliance desired, as follows:

$12.50 Imperial Bath Cabinet for Only $9

The Very Finest Money Can Buy. The only cabinet made with double rubber goods. There is no better bath cabinet construction possible. sesses features of great value not embodied in the construction of any cabinet on the market.

The Special Patent Features. We special attention to the four-piece top enables the occupant to cool off gradu feature especially desirable for those conditions would not permit of a sudden change in temperature; the tops are by metal patented turning knob hinges corners have patented double wall protectors, preventing the corners from ing or wearing out when cabinet is Cabinet also has patented side wall

The Extra High Grade Material. The of very extra heavy rubber coated side walls are made of double coated canvas placed back to back, making tary and easily cleaned. The goods stretch or crack when on the frame antiseptic, germ proof, heat and affecting the material.

The Special Alcohol Heater and Vaporizer, furnished free with this cabinet is an improvement over any other, and has patented flame reflector, enabling user to heat cabinet quickly with minimum amount of alcohol.

The Very Superior Face Steamer, sold separately at $1.00, is furnished free with this highest grade cabinet. (See illustration of face steamer at bottom of page.)

We Recommend This Cabinet to be the very best made, regardless of price. Easily handled. A child can operate it. When not in use, can be folded into space 1¼ inches thick. Size, set up, 28¼x30½x41½ inches. Regular price, $12.50 to $15.00. Shipping weight, 18 pounds.

Nutriotone.

Bring the pasture to the stable. A record of thirty-seven years of success. Used regularly year after year by thousands of horse owners. Horses when worked or driven regularly, or kept in the stable, need something in addition to hay and grain to keep them in condition. Nutriotone meets the need perfectly. It is not a stock food, but a tonic, containing in condensed form the properties which animals running at large get from pasturage, and this tonic, used in connection with regular feed, keeps the digestive organs working properly, and enables the horse to extract the greatest possible nourishment. Nutriotone expels worms quickly and safely, aids digestion, prevents colic, regulates and cleanses the bowels and blood, and removes blotches and eruptions of the skin. Nutriotone is especially valuable for horses used for breeding purposes. Weaned colts thrive when Nutriotone forms part of their rations. If you own horses you cannot afford to do without this splendid tonic. If you are interested in securing a free booklet giving list of some of the largest concerns in the world using Nutriotone, write and ask for our Nutriotone Horse Tonic Booklet, mailed free on request.

Summer's Worm Powders. For Sheep, Horses and Hogs.

Fed to millions of animals every year. For thirty years the standard American worm remedy. Combines the necessary qualities of perfect worm destroyer with such tonics as will regulate digestion, stimulate the appetite and restore the stock to normal condition in the minimum of time. Summer's Worm Powders destroy stomach and intestinal worms, including tape, twist, stomach and others, and are very easily administered. Simply add to feed or salt. Makes a very cheap and effective medicated salt. Summer's Worm Powders should be kept before stock mixed with salt at all times as a preventive. Worms never attack stock receiving this treatment. Satisfaction guaranteed or your money back.

No. 8H717 3-pound package. Regular price, 50c. Price....**39c**

No. 8H718 7-pound package. Regular price, $1.00. Price..**73c**

Genuine English Bitter Lick.

For all live stock. The great conditioner, tonic, digester and worm destroyer. Always before the animals. They doctor themselves, taking it with great ease. Costs less than **1 cent a week** for horses and cattle, 1 cent a month for sheep or goats. Keeps them in salt and free from disease at the same time. All stock like it and eat it with great relish.

F. H. Neil & Sons of Lucan, Ontario, say: "After using a case of your medicated salt bricks among our horses, cattle and sheep with gratifying results, we heartily recommend all stockmen, and especially sheepmen, to give it a trial."

No. 8H720 Large Bitter Lick Brick, weighing 2 pounds. Price..**19c**

No. 8H721 Galvanized iron frame for holding the brick in place, keeping it dry and preventing waste. Shipping weight, 15 ounces. Price..**12c**

HOOK'S Hog Cholera Remedy

REGISTERED

Protect your hogs against disease. One of the best known treatments for cholera and keeping hogs in best condition generally. Easy to use. Inexpensive. Six feeds for 1 cent. Well repays your investment. Most highly recommended as a treatment for all hog diseases and plagues, swine fever, pneumonia, thumps, coughs, blood poison, etc. A powerful worm exterminator. Do not wait until your hogs get in bad condition. Feed this preventive early and save the hogs.

POULTRIOTONE.

HOW TO MAKE MORE PROFITS FROM YOUR POULTRY.

There is money in poultry, but it takes just as much time, trouble, feed, labor and care to keep hens that lay sparingly as it does to keep hens that lay 200 eggs a year. Poultriotone is highly recommended by the makers as the best poultry conditioner and toner made, claiming it increases the appetite, aids digestion and tones up the general condition of the fowl. This preparation has been highly advertised and has many excellent testimonials of its benefit and value. Guaranteed by its manufacturers as purely vegetable and very beneficial for invigorating breeding fowls and increasing the fertility of the eggs. Equally well adapted for turkeys, ducks, geese, pigeons and other fowl. Easy to give by mixing it with the feed or water. A heaping teaspoonful for a dozen fowls.

STERLINGWORTH EGG TABLETS.

A concentrated medicine of merit. Enables the hen to properly assimilate her food and secure the egg producing benefits. Tablets are used by dissolving in water and mixing solution from each tablet with 3 to 5 pounds of the fowl's food. Assists in putting the hens in best possible physical condition and keeping them so. Satisfaction guaranteed. Easy to use. Highly recommended by poultry raisers. Very inexpensive, the small size box containing sufficient tablets to medicate 130 pounds of feed, and the large size box containing sufficient tablets to medicate 400 pounds.

No. 8H809 Large, 50-cent size. Shipping wt., 12 oz. Price....38c

HEN COMFORT.

Evaporating Nest Eggs.

The simplest insecticide and disinfectant made and easiest to use. Drives all lice from your fowls and premises. Most effective and cheapest lice killer. It is impossible to achieve success if your fowls are afflicted with vermin. The old way of greasing, smoking, fussing and mussing is superseded by the Evaporating Nest Egg, which positively cleans all the lice from your fowls and hen houses. Packed one dozen to box. Regular price, per dozen, 50 cents. Shipping weight, 2 pounds.

No. 8H819 Price....37c

SterlingworthDiarrhoeaRemedy.

A most highly recommended treatment for diarrhoea, dysentery and other kindred bowel troubles in young and old chickens and pigeons. Hundreds of successful poultry raisers keep it on hand as a preventive. It is a powder for use in drinking water. The fowls take their own medicine; no individual treatment. Does not stunt the chickens, but causes them to become strong and healthy. Inexpensive, one box being sufficient for several flocks. Shipping wt., 8 oz.

No. 8H812 Regular 50-cent size. Price....39c

Webb's Limberneck, Cholera and Roup Remedy.

...known remedy for limberneck, cholera and roup. Put ...scient form. A remedy that sells on its merits, and sat...aranteed. Very easy to use and extremely cheap, one ...55 gallons of medicine when placed in drinking water. ...pure drugs and contains no bran or filler. SANFORD'S EGG PRODUCER.

Sixty feeds for 1 cent. Composed of granulated blood, powdered roots, herbs, spices, etc. Manufacturers claim each pound to be equal to 16 pounds of fresh beef. Contains no bran, sand or other cheap filler. Contains only those ingredients most needed and best adapted to the health and productiveness of the fowl. Keeps the digestive organs in perfect condition and unsurpassed by any other egg producing product. Largest value of any egg maker on the market. Stimulates the egg producing abilities of the bird to the fullest. Keeps hens in active perfect condition.

No. 8H811¼ 25-pound pail. Retail price, $2.00. Price....$1.65

Rice's Liquid Lice Paint.

Compounded for the use of poultry raisers for killing all vermin and annoying pests of fowls. An article of unquestionable merit. Poultry cannot flourish while infested with annoying parasites and Rice's Lice Paint is easily applied and very effective. Paint the roosts and nests, etc., where the lice harbor and the fumes will kill them and allow the chicks to grow and become healthy. A trial will convince you. Regular price, per ½-gallon can, 90 cents. Shipping wt., 6 lbs. (Unmailable.)

No. 8H818 Price....63c

SANFORD'S LICE POWDER.

YOU CAN SEE IT KILL.

Spread a newspaper on the ground and hold the fowl to be treated over it while dusting. The manufacturers claim that five minutes after you have completed the application, there will be as many dead lice on the paper as there were live ones on the fowl. Also good for cattle, horses and hogs. Put up in sprinkler top box which allows easy application of the powder. An article that ought to be in the hands of every poultry raiser.

No. 8H816 6-pound package. Regular price, $1.00. Price....79c

POULTRY INSTRUMENTS.

Poultry Marker.

Do you keep a record of chickens? There is no better or quicker way than by this marker, as over 200 different marks can be made by punching between the toes. You can not only make marks for records, but secure yourself, as well, from the chicken thief. This instrument is well made, with steel spring and cutter, nicely nickel plated. Every poultry raiser should have one. Shipping wt., 4 oz.

No. 8H820 Price....19c

Killing Knife.

One of the very finest instruments on the market for the purpose intended. The shape of this knife permits making incisions which are impossible with any other instrument. Far superior to the old style knives. Highly recommended by leading poultry raisers. Shipping wt., 5 oz.

No. 8H821 Price....33c

Gape Worm Extractor.

Gapes are caused by a small worm in the windpipe of the fowl. When the chicken seems to gasp frequently, it is a sure sign of gapes, and it should receive immediate attention. The only sure cure is to remove the worm. This can best be done by this simple instrument. One chick saved pays for the instrument. Shipping wt., 2 oz.

No. 8H822 Price....17c

CAPONIZING SET.

POULTRY RAISING PAYS.

Poultry raising if properly conducted is very profitable, and every good raiser knows that he can double his profits by caponizing his chicks. The operation is very simple, the instructions being so explicit that anyone, after a careful reading, can do it with these instruments. The complete caponizing set contains the best instruments, and at the price at which they are offered no one who keeps chickens can afford to neglect this opportunity of increasing his profits. Shipping weight, 8 ounces.

No. 8H823 Price, per set, in velvet lined case, with book, "Instructions for Caponizing"....$2.35

Guaranteed Standard Stock Dips Approve

Cooper's Fluid Cresol Dip

Permitted by U. S. Government for Official Dipping. Strength, 1 to 120. Mixes clearly with water 1 to 10 as now required by law.

One of the most popular and effective liquid dips in America. The product of the largest dip makers in the world. Cooper's Fluid Cresol Dip represents the combination of strength and purity with effectiveness. It is perfect and complete in composition, free from crude substances, contains no tar oils, and requires no addition except water. No sediment, no stirring or shaking. Will not injure sheep or wool. Owing to the purity and concentration 1 gallon of Cooper's Fluid Dip goes farther than most other dips. Each gallon of Cooper's Fluid Dip makes 120 gallons of dipping fluid for scab and 200 gallons for ticks. Figure this carefully when comparing cost—it's where you make the saving.

Cooper's Fluid Dip has been in use for a number of years; it was the first Cresol dip recognized by the Government; there's no doubt as to its effectiveness. Uncle Sam has permitted its use in all official dipping for sheep scab. This alone assures a dip of certain worth and reliability.

Cooper's Fluid Dip absolutely destroys scab, kills lice and ticks on sheep and goats, kills lice on hogs and is unequaled for general disinfecting purposes. For use as a disinfectant 1 gallon of Cooper's Fluid Dip makes 300 gallons of antiseptic fluid. It will also be found very satisfactory for ringworm, thrush in horses, etc. When mixed with water Cooper's Fluid Dip makes a water clear solution; no emulsion containing insoluble and wool staining oils; no sediment, no stirring. Mixes easily with water.

Cooper's Fluid Dip cleanses and heals, stimulates growth of wool and destroys disease without any setback to animals. A splendid dip for hogs, cattle and goats, and a powerful disinfectant and insecticide for all purposes. Satisfaction guaranteed or your money back.

Hunt's Cresol Dip

Permitted by U. S. Government for Official Dipping. Strength 1 to 124. The best, strongest, and most efficient Cresol Dip produced by any manufacturer. A reliable, up to date, standardized, efficient dip for sheep scab, and for hogs and cattle and all stock.

A sample of this product has been submitted to the Department of Agriculture for examination. The makers guarantee the contents of package to be of the same composition as the sample submitted to Department, and that when diluted according to the directions for treatment of sheep scab, as printed on the package, it will give a dip fluid of the composition required of a cresol dip by the regulations of Secretary of Agriculture governing sheep scab.

Just note this strength. One gallon of this dip makes 124 gallons of official dip, enabling you to dip your sheep cheaper than ever before, and with a guaranteed strength dip. Strength, concentration and quality considered, this is the best Cresol Dip made. Clear in color, mixes easily and quickly in either hot or cold water, forming a sparkling clear solution that penetrates the fleece, softens the skin and does not injure sheep or wool. Contains no rosin, no coal tar, no caustic soda; just pure linseed oil and Cresol saponified by the latest and most approved methods. Each barrel of this dip makes 6,200 gallons of official dip while a dip strength 1 to 120 makes only 6,000 gallons and a dip 1 to 101 makes only 5,050. Consider the cost and you will see that Hunt's Cresol Dip makes 200 gallons more official dip than Cresol dip, strength 1 to 120 and 1,150 gallons more per barrel than Cresol Dip, strength 1 to 101. We have thoroughly investigated the many dips and we offer you the very best. Satisfaction guaranteed or your money back.

The Famous English Dip

Cooper's Powder Sheep Dip. Sixty Years' World Wide Record.

Used on two hundred and fifty million sheep annually. Merit has made it famous. A sheep dip made for sheep. Eradicates insects and disease, protects the flock from fresh attack, assists the natural functions of the skin in the production of an ideal fleece, and promotes the general appearance and condition of the flock. **Cooper's Powder Dip hurts nothing but the disease.** It positively increases both the quality and quantity of wool and preserves its natural color. The flock thrives better from the moment of dipping. It is a powder, soluble in cold or tepid water, has no smell, does not stain and is easily prepared. Insects cannot live on a Cooper dipped sheep. Cheapest because best.

Cresyline Dip and Disinfectant

STANDARDIZED. EFFICIENT. STRENGTH, 1 TO 70.

A SAMPLE OF THIS PRODUCT HAS BEEN SUBMITTED TO THE DEPARTMENT OF AGRICULTURE FOR EXAMINATION.

The makers guarantee the contents of this package to be of the same composition as the sample submitted to the Department, and that when diluted according to the directions for the treatment of sheep scab, as printed on the package, it will give a dipping fluid of the composition required of a coal tar creosote dip by the regulations of the Secretary of Agriculture governing sheep scab.

Permitted by the Government for official dippings for sheep scab. Also good for cattle, hogs and all stock. Makes a milky white solution in strength 1 to 70, kills and destroys all parasites, lice, ticks and fleas, at the same time cures scab and mange. It does not injure the animal in the least, prevents attacks of insects, and in the case of sheep improves the wool, strengthens the animal and facilitates succeeding clips.

NOTICE—Stock dips are sold elsewhere at prices ranging from $1.00 to $1.50 a gallon, depending upon the strength.

We guarantee that this same dip is put up by its manufacturers for many concerns in this country and that it is sold under various other names for $1.50 a gallon. It does not matter under what name it is sold, the strength is what decides its value.

For use as a stable disinfectant and general purifier. Merely dilute Cresyline Dip with water. It pays for its use a hundredfold. Satisfaction guaranteed or your money back.

Cresotol Dip

STANDARDIZED. GUARANTEED. EFFICIENT. DIP AND DISINFECTANT. STRENGTH, 1 TO 72.

A SAMPLE OF THIS PRODUCT HAS BEEN SUBMITTED TO THE DEPARTMENT OF AGRICULTURE FOR EXAMINATION.

The makers guarantee the contents of this package to be of the same composition as the sample submitted to the Department, and that when diluted according to the directions for the treatment of sheep scab, as printed on the package, it will give a dipping fluid of the composition required of a coal tar creosote dip by the regulations of the Secretary of Agriculture governing sheep scab.

DIRECTIONS—For Sheep Scab—Use 1 gallon of Cresotol Dip to 72 gallons of water previously heated to a temperature of 100 degrees Fahrenheit. Immerse sheep from two to three minutes, loosening up the scab while sheep are immersed.

The rules and regulations governing the enforcement of The Insecticide Act of 1910 require that the names and percentage of inert substances shall be stated on the label. Inert substances: Water, 9 per cent; hydrocarbons, 56.66 per cent; combined with phenols (absolute acid content, 14 per cent), pyridin, rosin acids and soda.

We declare the carbolic coefficient (by the Rideal-Walker method) to be 6.25, or 6¼ times as strong as carbolic acid. Only pure phenol (carbolic acid) is used as a standard and the germicidal value of a disinfectant is made by comparison with it. The coefficient is arrived at by dividing the degree of dilution of the disinfectant that kills the organism in a given time by the degree of dilution of carbolic acid under the same conditions.

Cresotol Dip is permitted by the Government for official dipping in strength 1 to 72. This is one of the strongest solutions made, and when you consider the dilution it is by far the cheapest for you to buy. If the consumer requires 300 gallons of diluted dip and he pays $1.50 a gallon for the fluid dip and the grade he purchases is 1 to 50, the cost of the diluted dip would be $9.00. Had the consumer purchased the same grade approved 1 to 72, the cost of the diluted dip would be $6.25, or a saving of $2.75 on this small quantity.

We guarantee that carloads of this same dip are sold by other concerns under labels at $1.50 a gallon. We sell you the same dip for $1.15 a gallon in lots and cheaper in proportion for the larger containers. Why pay your retail dealer a gallon for this article when we guarantee you strength 1 to 72 at $1.15 a gallon? The only way to buy a disinfectant is by the comparative cost based on 100 units of strength and the strength of all dips depend entirely upon the dilution strength as permitted by the U. S. Government. This dip is permitted for official dipping in strength 1 to 72 and is by far the cheapest dip for you to buy. We guarantee satisfaction or your money back.

New Improved Wizard Power Sheep Shearing Machines

The new Wizard is guaranteed to cut any wool that grows, no matter what the condition of the wool is; it may be long, thick, matted and greasy, or fine, crinkly, soft wool. This shear has been tested in all kinds of wool and has proven most satisfactory.

This machine is guaranteed to give perfect satisfaction. Each part of the shear is made of the best grade material and perfectly finished to the most minute detail and there is nothing about it to get out of order, nothing to prevent it from giving long satisfactory service.

Power driven sheep shearing machines have proven the most satisfactory shearing machines on the market.

Price for the Wizard is for the complete machine as shown in the illustration, the power with long jointed shaft and shearing head.

ıst ONE Profit to Pay on Wall Paper

Because We Make It in Our Own Mill

lere is the Result

The Best Wall Paper in All the New Fashionable Designs at 3 to 35 Cents a Double Roll of 16 Full Yards

)ur free ıll Paper nple Book ws samples over eighty igns cut di- t from the 1ls in our ck.

Write for our free Wall Paper Sample Book. It tells you the story of quality and money saving better than words.

HIS large wall paper mill, equipped with the **LATEST IMPROVED** modern wall paper machinery with a capacity of over twelve million rolls of wall paper a year, owned and operated exclusively by us, easily explains why we can market the best wall paper **DIRECT) YOU** at 3 to 35 cents a double roll of 16 full yards.

The reason for our **REMARKABLE SUCCESS** in the wall paper field is due to the strik- **DIFFERENCE** between our method of marketing the product and the methods employed ewhere. The wall paper industry outside of our share in it is in the hands of **A FEW** manu- turers who have enjoyed, and still enjoy in a large measure, **A MONOPOLY** of the busi- s. Their products marketed through jobbers, agents and dealers are **BURDENED WITH LLING EXPENSES** and **LARGE PROFITS.** Extra selling expenses and extra profits led to the manufacturing cost **DO NOT ADD TO THE VALUE** of the paper nor to the uty of the designs. We offer you the best obtainable at very low prices. Positively you ı get nothing more for your money by paying more elsewhere.

We control the quality of our papers. We have gone to the very **SOURCE OF SUPPLY** make our control complete. We have employed the foremost artists in this field in order to ure the **BEST DESIGNS** in wall paper for the various rooms of the home. We will not e your time to tell you all about our papers, because our samples, cut direct from the rolls our stock, tell you **BETTER THAN WORDS** just what we offer. Write for our Wall Paper nple Book. It will be mailed to you free and postpaid. Then you will **KNOW** and will be **NVINCED.**

The papers are made in our wall paper mill and sold direct to you, just one profit added to actual manufacturing cost. Write for our Wall Paper Sample Book today.

Fiber Veneer for Floors and Walls.

This new wall and floor covering or veneer can be applied to walls or floors with ordinary paste. When dry a coat or two of varnish applied over it results in a surface that has the appearance of genuine oak wood. Splendid effects may be had with this material; for instance, you can have a parquetry floor effect at a small cost that will look like the natural oak wood and wear well. Dining room walls may be treated as follows: Paste the border beneath the plate rail, then finish the bottom of the wall with the body veneer and when dry apply one or two coats of varnish, which will give you a surface that may be washed or polished the same as any woodwork or furniture. Should the border be too wide it may be trimmed to any width desired. Full directions sent with each roll. Each roll contains 11⅓ yards, 36 inches wide.

No. 53H1170	**Light Oak.** Per roll	$1.15
No. 53H1171	**Dark Oak.** Per roll	1.15
No. 53H1176	**Border, Light Oak.** Per yard	.10
No. 53H1177	**Border, Dark Oak.** Per yard	.10

One roll will cover 100 square feet.

We cannot fill orders for less than 3 yards of border.

Use No. 30H2720 Durable Floor Varnish for floors and No. 30H2716 Seroco Cabinet Varnish for walls, both listed on page 540 of this catalog.

Wall Paper Sample Book Free

Large samples measuring 6½x9 inches of our entire line of eighty-five designs and colorings will be mailed to you free on request. The samples are cut direct from the rolls in our stock and are of the same weight and quality as the full rolls of paper we ship to our customers.

The Back of Each Sample in our Free Wall Paper Sample Book has an illustration showing a section of a room papered with side wall, border and ceiling. These illustrations give you an excellent idea of the designs and decorations in the borders and ceilings, and serve to show how your rooms will look when papered with any of these patterns.

All the Latest Designs and Shades on the Best Grade Papers at 3 to 35 Cents a Double Roll of 16 Full Yards.

This free Wall Paper Sample Book comprises one of the most complete lines of wall papers to be found on the market, a choice variety for every room in the home—vestibule, reception room, parlor, living room, library, den, dining room, kitchen, pantry, bedroom, nursery and bathroom. We can suit all tastes as our papers range from floral designs with rich pronounced colorings to plain effects with subdued tints. We have added the new dainty striped bedroom paper with cut out floral borders. You cannot appreciate what pleasing decoration these plain striped papers make until you see them in our sample book.

Our Wall Paper Sample Book makes it a pleasure to select your home decorations, permitting you to do so at your leisure right in your own home. It is full of valuable suggestions because our Wall Paper Department has had an exceedingly wide experience as decorators. This Sample Book also illustrates our complete line of picture moldings, chair rails, plate rails, Lincrusta-Walton, wall decorative burlap, oilcloth wall covering and paperhangers' tools and supplies—tables, trimmers, pastes—everything required for the work.

We undersell everybody, whether large firm or small dealer, for the reasons given on page 519. This free Wall Paper Sample Book tells its own story so convincingly that you will be glad you sent for it. Write and ask for our free Wall Paper Sample Book today.

15c

FOR THIS SPECIAL BOOK OF WALL PAPER SAMPLES.

This Special Sample Book contains samples measuring 9x15 inches of all our side wall papers, independent ceilings and oatmeal papers. This book is made up especially for customers who have considerable papering to do and who prefer to see larger samples than we can afford to show in our free 6½x9-inch sample book. This Special Sample Book, including the postage, which we pay, costs us about 50 cents each, but we are perfectly willing to send it to all interested customers on receipt of 15 cents. Send stamps if you wish. A separate price list accompanies the book, which also contains full directions for hanging paper and illustrations of our room moldings, plate rails, paper binders, Lincrusta-Walton and burlap; everything needed for modern home decoration.

Write to us and say, "Send me your Special Wall Paper Sample Book with 9x15-inch samples, for which find 15 cents enclosed." and we will at once mail you this large book postpaid.

How to Hang Wall Paper.

Our free Wall Paper Sample Book contains information which will enable anyone without experience to hang wall paper. These instructions are clearly outlined and accompanied with illustrations showing every step in the work. It will surprise you how easy and simple it is to hang your own wall paper and thus enable you to save, if you so desire, the expense of hiring a professional paperhanger.

OUR WICKLESS OIL STOVES ARE IDEAL FOR SUMMER USE.

The result of mak- our own paint in own factory and ing direct to you.

This picture shows our great paint factory, the Illinois Paint Works, just across the tracks of the Baltimore & Ohio-Chicago Terminal Railroad Co. from our great buildings. We own and operate this entire plant and use the entire output exclusively. The building is four stories high, 125 feet long and 60 feet wide with large basement, and has an output of over a million gallons a year, and arrangements are made so that the output can be largely increased when demanded. It is equipped with the very latest and most scientific paint making machinery, huge grinders and mixers and color mixing machinery of the latest improved type. It is the most modern, up to date paint factory in existence, barring none, and is thoroughly in keeping throughout with the high quality of our famous brand Seroco Paint.

wo great benefits are secured for our customers by our paint manufacturers as well as paint sellers. First: A ty so good that we are safe in guaranteeing the paint, which no other manufacturer has been so far willing ke in regard to his paints. Second: A large money sav- because there is only one profit for you to pay on the l manufacturing cost.

nyone can see at once that our method is the logical one dopt for money saving. Great numbers of people through custom keep paying retail prices for paint; their neigh- do it, many painters do it, and they do it largely because s do it. Middlemen's profits and expenses added to the ufacturers' prices certainly have nothing to do with the ty of paint. Remember, our prices are manufacturers' s. If we were to sell this paint to a dealer and he were ld 50 cents a gallon to our prices, it would not make co Paint any better. The same is true of any other brand of paint. In paying higher prices elsewhere for different brands of paint you do not get any better quality whatever. Every cent of this extra money is absolutely lost. We are convincing the public very rapidly. These facts are so apparent to our customers who buy our paint that they become enthusiastic and tell of their good fortune to others. So much of this is done among our customers that our paint business increases with great rapidity. You can form some idea of this from the fact that our factory now has an output of more than a million gallons a year with arrangements already made for a large increase in capacity. We wish every reader of this page would point out these facts to others. It is certainly unfortunate for people to keep on paying high prices asked elsewhere for paint when this opportunity lies before them. Let your neighbors know about our guaranteed paint and about our prices.

Keep Your Buildings Painted and Save Costly Repair Work

rybody knows the importance of keeping buildings or structures well painted from the standpoint of appear- It adds value to any property and in case you wish l, you will not only find it easier to sell, but your prop- will bring a higher price when well painted. But no should overlook the great danger in the failure to keep ngs well painted. If you leave ngs or other structures to the y of the sun and the rain, decay stened and it will only be a time before costly repair work rgently needed. It should be ely necessary to remind you lumber and repair work are now very costly. All large corporations, railroad and steamship companies, municipalities, private and public utility concerns, invariably give every structure of wood, iron or steel a coat of paint immediately on completion and make provision for repainting periodically. They know it means economy and you can't do better than follow their example. **Our paint is being used everywhere, because it is absolutely reliable and because it is guaranteed, the only guaranteed paint on the market. You can't afford to neglect any building or structure you own when we sell guaranteed paint at such prices.**

PAINT COLOR SAMPLES AND HOW TO PAINT.

We send two paint books free on request—our Paint Color Sample Book and our book on "How to Paint." On page 529 we list all the colors in which we carry Seroco Ready Mixed Paint and you can order direct from this catalog, but if you prefer to see samples of these colors before ordering, write for our free Paint Color Sample Book. With this book we also mail our book on "How to Paint" with simple instructions on how to paint, varnish, kalsomine and do other kinds of decorating.

Seroco Paint, Manufactured and Sold Exclusively by Us Is a Long Wearing Paint. The Test of Service Proves It

No paint offered by any other firm or individual at any price surpasses our Seroco Brand in the qualities which go to make a high class, satisfactory paint for houses, barns, fences, wood and iron, for exterior or interior work, where a paint of extra quality and wonderful durability is required. Seroco Ready Mixed House Paint is manufactured by us in our own paint factory under the supervision of expert paint chemists, and it is because this paint is made by us from tested materials of our own selection that we are able to give a binding guarantee on every gallon sold by us. It is ground and mixed in the finest equipped paint factory in this country. There is just the right proportion of each ingredient necessary to give an extra high grade, free working paint.

Full Measure and Full Weight

When you pay us $1.05 to $1.18 a gallon for Seroco Ready Mixed House Paint, according to the quantity ordered, remember that you get absolutely full weight and full measure, and at these remarkably low prices, which are based on the cost of materials and labor in our own factory with but one profit added, we give you a paint guaranteed not to peel, blister, rub or chalk off, a paint that for preserving qualities and length of wear cannot be excelled by any paint, regardless of the price or ingredients used in its manufacture. Our colors have great strength. We use only the best colors in tinting our paints; in fact, stronger colors could not be had at any price. Remember, when you buy from your local dealer you pay the profits of the manufacturer, jobber and retailer, and above all you have very little or no protection should the paint go wrong. On the other hand, when you buy Seroco Ready Mixed House Paint you pay but one profit, and that is the **manufacturer's,** which is ourselves, and you are thoroughly protected by the strongest guarantee that was ever put on a can of paint.

You Can Order Direct From This Catalog

Select the color wanted from the colors named on opposite page, with our guarantee that the color and quality will please you, or we will return your money; but if you prefer to see the exact colors before ordering, write us and we will mail you our Special Paint Color Sample Book free with our compliments. The book shows samples of the actual colors of all the different paints we handle. With our Paint Color Sample Book we will include a book entitled "How to Paint." This book gives full information on how to prepare all surfaces for painting, how to preserve your brushes, how to kalsomine, and contains valuable information for the novice as well as for the expert painter.

GUARANTEE

We hereby guarantee that this Seroco Paint is composed of the highest grade ingredients, is a perfect preservative, contains nothing injurious, will cover from 250 to 300 square feet, two coats to each gallon, and will not peel, blister, chalk or rub off. We agree to furnish new paint free, should our Seroco Paint fail to come up to our guarantee.

SEARS, ROEBUCK AND CO.

Directions

For first coat of new or unpainted surfaces, thin the paint with boiled linseed oil in the proportion of ½ gallon of oil to 1 gallon ready mixed paint; for surfaces in fairly good condition the proportion of oil used for thinning first coat need not be so great. For second coat, use the paint as received, unless it should be very thick, when a little boiled linseed oil may be added.

How to Find How Much Paint You Require

To find out the quantity of paint you require, measure the length, width and height of the building. In measuring the height you can measure it at one corner, as it is not necessary to measure it at the highest point of the gable. Add together the total number of feet of the two sides and two ends of the building that you want to paint. This will give you the total length of the surface you wish to paint. Then multiply this by the height of the building in feet, which gives you the number of square feet of surface to be covered with paint. One gallon of **Seroco Ready Mixed Paint** will cover from 250 to 300 square feet of surface two coats, according to the condition of the surface. Some surfaces are very porous and absorb more paint than others; therefore, in figuring we suggest that you take the basis of 250 square feet to the gallon. Then divide the number of square feet you get by 250 and that gives you the number of gallons required for the building.

For example, suppose your building measures 20 feet wide, 30 feet long and 20 feet high, you would figure it as follows:

Front	20 feet
One side	30 feet
Rear	20 feet
Other side	30 feet
Total	100 feet
Multiply this by height	20 feet
Total	2,000 sq. ft.

Divide this by 250, which represents the approximate number of square feet that 1 gallon of our paint will cover the surface two coats. You will find this gives you the result 8 gallons, so that it will be necessary for you to buy 8 gallons to cover the surface of a building of the size given two coats. If the surface is in good smooth condition, you can easily see that it will not require even that much. By multiplying the price per gallon by the number of gallons wanted, you can easily see exactly what it will cost you. We sell our **Seroco House Paints** in 5-gallon kits and in 1-gallon cans; thus for a building of the size given, you would require a 5-gallon kit and three 1-gallon cans of paint, if you wanted 5 gallons all one color. It costs $1.15 per gallon for Seroco House Paint in 5-gallon kits and $1.18 per gallon for three 1-gallon cans, so that the total cost would be $9.29 for all the paint you would require for such a building. If you want to paint a barn or fence, measure in the same way and figure the cost of our **Mineral Barn Paint** accordingly.

Why Hand Made Paint Is Not Reliable

Don't attempt to make your own paint, and don't depend upon painters' hand made paint because of the very nature of the materials it cannot be reliable. It is practically a physical impossibility for any painter to mix properly by hand the lead, oil and colors thoroughly and accurately enough to secure a paint that will give good service. In order to obtain a perfect shade of any color it is necessary to be accurate. If a painter mixes a small quantity he seldom hits exactly the same shade a second time if necessary to increase his supply for the same job; or if, to be on the safe side, he mixes too large a quantity, he wastes the paint. Besides, he will take much time to mix it, for which time you have to pay. You are also likely to get a poor job. Why attempt something that has uncertain results, especially when it costs more to do it that way? We offer you a certainty—a paint guaranteed not to peel, blister, chalk or rub off, which either you or a painter may use with equally satisfactory results.

Longlife Master Paint

$1.45 TO $1.58

A GALLON, ACCORDING TO QUANTITY

is all you need pay for the BEST pure paint made, BECAUSE it is made in OUR OWN FACTORY, sold direct to you with just one PROFIT added to actual manufacturing cost.

These illustrations are reproduced from actual photographs of surfaces from the panels of the test fence illustrated in the middle of these pages.

A surface painted with Sublimed White Lead and zinc oxide ground in pure linseed oil in proportions on which we based our formula and exposed for nearly five years. The paint film is well preserved, showing no cracking, peeling or checking, and only a slight surface chalking.

A surface painted with so called strictly "pure" paint containing Corroded White Lead and zinc oxide in equal parts ground in pure linseed oil and exposed about five years. The checking tendency of Corroded White Lead and the cracking caused by an excessive amount of zinc oxide are both shown.

A surface painted with Corroded White Lead and zinc oxide ground in pure linseed oil, the zinc oxide in an excessively high percentage. Observe the way the paint peels, due to brittleness of the film, caused by too much zinc oxide.

Specially made in our own factory to meet the demands of master painters, journeymen painters, composed of sublimed white lead, zinc oxide, linseed oil, turpentine and japan dryer, the selection and proportion of these materials based on results of weather and other tests conducted by master painters' and paint dealers' associations, by our own and other leading chemists.

Formula of Longlife Brand Pure Paint.

FORMULA FOR OUTSIDE WHITE.

	Total	Solid Materials	Liquids
Sublimed White Lead	42.1%	75%	....
Zinc Oxide	14.0%	25%	....
Linseed Oil	40.0%	....	91%
White Turpentine Japan	1.8%	....	4%
Turpentine	2.1%	....	5%
	100.0%	100%	100%

FORMULA FOR LIGHT COLORS OR TINTS.

The light colors or tints are made of a base of 64 per cent Sublimed White Lead and 36 per cent Zinc Oxide. Whatever quantity of color is necessary to produce the desired shade is deducted from the percentage of White Lead and Zinc. For example the formula for No. 30H318 Buff reads as follows:

	Total	Solid Materials	Liquids
Sublimed White Lead	30.0%	54.7%	....
Zinc Oxide	16.8%	30.7%	....
Color	8.0%	14.6%	....
Linseed Oil	41.0%	.....	91%
Turpentine Dryer	1.7%	.....	4%
Turpentine	2.5%	.....	5%
	100.0%	100.0%	100%

The reason for our choice of sublimed white lead for Longlife Brand Pure Paint is easily gleaned from the comparison table on the opposite page. It is just as **opaque**, that is, has the same covering capacity as corroded white lead, but has other qualities which make it vastly superior to corroded white lead. Sublimed white lead, being a fine powder, makes a more compact and weatherproof film than the crystalline particles of corroded white lead, since the latter do not fit in so tightly together. Fineness is **essential** because the paint film of a single coat of paint is about 1-400 of an inch thick.

Sublimed white lead is difficult to decompose, and being practically inert, has almost no chemical action on the oil, while corroded white lead does react on the oil, chalking a great deal, finally taking the life out of the oil, causing the paint to check and admit moisture; therefore poorly protects the surface.

Sublimed white lead when used in paint is practically unaffected by exposure to hydrogen sulphide gas, which is plentiful in smoke, sewer gas and the gases given off by decaying animal and vegetable matter; while corroded white lead so exposed turns a dirty gray or black, which explains why many buildings on which it is used soon turn dirty looking as if they had been painted a long time.

Sublimed white lead has little effect on tinting colors, with the result that paint in which it is used holds its original shade very much longer than paint in which corroded white lead is used, for the latter acts on tinting colors, causing the colors to fade or darken.

Sublimed white lead is NON-POISONOUS, while in using corroded white lead there is more or less danger from lead poisoning, a fact which has caused some European governments to compel dealers to label it "White Lead—Poison." Tests also prove that zinc oxide in certain quantities is a necessary ingredient in high grade paint, for while its covering capacity is not as great as white lead, it counteracts the tendency of all white leads to chalk, making a harder film and a more glossy finish and does not darken on exposure to hydrogen sulphide gas. It also makes the paint work more easily under the brush. But zinc oxide must not be used in too large a proportion, as it then develops brittleness and causes the paint film to check, which explains the trouble with paint containing too large a proportion of zinc oxide.

One of the Test Fences Showing Result on

This fence is 75 feet long and 14 feet high, made like the walls of a house, clapboards on both sides, air space between and arranged in panels, its surface every straight paint pigment and thirty-six combinations of them were tested, being exposed from four to five years, monthly inspections made. Every test conclusively showed the superiority of sublimed white lead.

In our big General Catalog, for the past two years under the heading of "Pure Paint or Guaranteed Paint" we have shown that our Seroco Brand Ready Mixed Paint (quoted on other pages of this catalog) is much superior to the so called "pure" paint. For the benefit of those who have not read our former explanation of this subject we say that Seroco brand is a combination ready mixed paint perfectly adapted to general needs; a paint scientifically developed through years of experimenting and practical service; a paint that does not peel, check, chalk or rub off in years of exposure; a paint in which we have so much confidence that we guarantee to furnish new paint free if it fails to do what we claim. However, there has always been a persistent demand from master painters, journeymen painters and some home owners for so called "pure" paint, due to the established use of corroded white lead as the standard pigment and the fact that its manufacturers have spent millions in advertising it. This led us to offer, during the past two years, "pure" paint made according to the formula. We gave our customers the choice, explained that if they preferred so called "pure" paint we could save them money on it. At the same time we stated it to be a decidedly inferior paint, due to the fact that the chief pigment, which is **pure white lead, made by the Dutch Process" of corrosion** is a very weak compound as shown by tests presented in the comparison table on the opposite page.

There has been a great deal of DISCUSSION of paint, and a great deal of EXPENSIVE ADVERTISING has been paid for to convince the public that pure paint with corroded white lead and linseed oil is the only one to use, but these statements have been largely based on mere theories and customs not thoroughly investigated. In the last ten years a great number of experiments and tests have been made which absolutely disprove the advertised claims for corroded white lead and the "pure" paint in which it is used. In the face of facts developed by these tests, corroded white lead is still made and marketed. Why? Simply because costly advertising has established a demand for it; because c

Ready Mixed Pure Paint

We use sublimed white lead made by the modern fire process in place of white made by the "Old Dutch Process" of corrosion, because sublimed white lead is ly superior. Read the facts brought out in our comparison table on this page, which cannot be successfully disputed and which flatly contradict the widely rtised claims for "Old Dutch Process" white lead.

Formula of Longlife Pure Paint Is Based.

white lead. If all master painters, journeymen painters and delegates to ions interested in paint, who prefer "pure" paint could see even this one re, we doubt if we could supply the demand for Longlife brand with all the cturing facilities we can command.

lead is the **advertised** standard. Let the actual facts, re stated, prove which kind of paint is the **real** standard. ur **business policy is CONSTRUCTIVE, not destructive.** build up rather than tear down. When we discard an lished article we offer something better; so in proving allacy of widely advertised claims for corroded white in exploding the old theories about "pure" paint, we ted the obligation to provide a **better article for the purpose. We have found it in pure sublimed white** With pure sublimed white lead as its principal solid dient, we now offer our Longlife Brand of Master ers' Ready Mixed Pure Paint, the first paint to combine st quality with chemical purity. Its ingredients and proportions are evolved from practical tests—tests of tests of sun, wind, rain, cold, heat, as well as scientific for chemical changes. The result is a "pure" paint that o a perfect paint. The formula tells the story.

o our numerous friends, home owners and unprofes- l painters who need a good high grade ready mixed paint, many of whom are familiar with Seroco brand, d elsewhere in this catalog, we still recommend Seroco y Mixed House Paint. It is also based upon a scien- ly developed formula and has proved by years of e to be a paint that does not peel, check, chalk or rub But if you are a master painter or journeyman painter or any reason prefer to use a so called "pure" paint, if do painting for others and your customers demand a lead paint, we don't want you to lose money, as you will if you buy your paint elsewhere; we don't want o get the "pure" white lead paint, lacking in real quality, u surely will if you follow established custom. We you to get the only "pure" paint that is **perfect** paint, ant to help you please your customers and we want to you a lot of money as well!

nglife brand costs you only $1.45 to $1.58 a gallon, ac- ng to quantity, just because we manufacture it ourselves, our prices on actual manufacturing cost—**cost of mate- and cost of manufacturing** in large quantities with just profit added. There is not a dollar of unnecessary se or profit in our price. You get the **maximum value very dollar** you pay.

Comparison Table Showing the Properties of the Two Varieties of White Lead.

These are the results of chemical analyses, microscopic tests and weather tests of years' duration conducted by various agencies, among them associations of paint manufacturers, paint dealers, master painters and journeymen painters, industrial and public institutions, leading chemists of the country and our own chemists.

	Corroded White Lead.	Sublimed White Lead.
A	Corroded White Lead is a basic CARBONATE of lead, crystalline in structure and highly opaque, made by the "Old Dutch Process" of corrosion of metallic lead.	Sublimed White Lead is a basic SULPHATE of lead, is an exceedingly fine powder and is highly opaque, made by the fire process of subliming lead ore at a temperature of 3,000 degrees.
B	Acid tests show Corroded White Lead dissolves readily. Fire tests, such as the blowpipe test, show it is changed readily to metallic lead, proving it to be a weak compound.	Acid tests show Sublimed White Lead does not dissolve readily, resists fire and is exceedingly difficult to change in any way.
C	On exposure to hydrogen sulphide gas, more or less plentiful in air everywhere, corroded white lead turns black.	On exposure to hydrogen sulphide gas Sublimed White Lead turns slightly yellow but quickly turns white again.
D	Used in paint spread on a surface exposed to weather, Corroded White Lead chalks and checks in a short time, admitting moisture to the surface to which it is applied.	Used in paint and spread on a surface exposed to weather, Sublimed White Lead chalks slowly, but does not check, and maintains a water-tight surface.
E	Corroded White Lead acts on the oil, which is the life of paint, and causes breaking down of the paint.	Sublimed White Lead is practically inert, has almost no action on the oil; therefore prolongs the life of paint.
F	Corroded White Lead, because of its alkaline nature, acts upon tinting colors and results in fading or darkening.	Sublimed White Lead, being practically inert, has little effect on tinting colors, with the result that the paint holds its original shade very much longer.
G	Corroded White Lead is of a poisonous nature.	Sublimed White Lead is non-poisonous.

Bear in mind that WE GUARANTEE our Seroco Ready Mixed House Paint, listed on pages 528 and 529 of this catalog, to be in every way a satisfactory paint for houses, barns, fences (wood and iron), for exterior or interior work. We guarantee it to be a high grade paint; a perfect preservative. We guarantee that it will not peel, chalk, blister or rub off, and we agree to furnish new paint free should our Seroco Paint fail to fully come up to our guarantee.

$1.45 TO $1.58

A GALLON, ACCORDING TO QUANTITY is all you need pay for the BEST pure paint made. BECAUSE it is made in OUR OWN FACTORY, sold direct to you with just one PROFIT added to actual manufacturing cost.

These illustrations are reproduced from actual photographs of surfaces from the panels of the test fence illustrated in the middle of these pages.

A surface painted with pure Sublimed White Lead ground in pure linseed oil and exposed five years. It shows no checking, cracking or peeling, but does show some chalking, which condition is improved by adding the proportion of zinc according to our formula.

A surface painted with strictly pure Quick Process Corroded White Lead ground in pure linseed oil and exposed four years. The fine checks are characteristic of Quick Process Corroded White Lead. The paint film is absolutely lifeless and will not shed water.

A surface painted with strictly pure "Old Dutch Process" Corroded White Lead ground in pure linseed oil and exposed five years. Note the checking of this white lead. The checks are deep and go through to the wood. The paint film is lifeless and will not shed water.

SEROCO MINERAL BARN PAINT

WEATHERPROOF

69c a Gallon in 50-Gallon Barrels	**74c** a Gallon in 25-Gallon ½-Barrels	**79c** a Gallon in 5-Gallon Kits	**84c** a Gallon in 1-Gallon Cans

Compounded by an Expert Chemist

Our Seroco Weatherproof Mineral Barn Paint is compounded by one of the most expert paint chemists in the country and possesses peculiar properties not common in ordinary barn paint. It is a high class, unexcelled preservative which we recommend specially for structural iron work, barns, grain elevators and the like. It is absolutely weatherproof, having been tested under most trying conditions. It is acknowledged by all who know it to be the most durable preservative of wood. It is ground to unusual fineness by the most modern up to date machinery, both minerals and oils being thoroughly ground and reground together. You may use it with the confidence that it is the best possible mineral paint on the market regardless of name, make or price of other brands. By paying higher prices elsewhere you cannot secure a better paint. Higher prices mean larger profits and expenses of middlemen, really a waste of money to you.

$11.26 Paints This Big Barn

A large modern barn like this, painted with our Seroco Weatherproof Mineral Barn Paint, two coats, for $11.26.

This large barn measuring 30 feet wide by 50 feet long and 22 feet in height will require

12 gallons for body, 10 gallons at 79 cents per gallon	$7.90	
2 gallons at 84 cents per gallon	1.68	Total
2 gallons for trimming at 84 cents per gallon	1.68	$11.26

Covering Capacity and Economy of Seroco Mineral Barn Paint

One gallon of Seroco Weatherproof Mineral Barn Paint covers about 250 square feet of surface two good coats and in many instances it will cover 300 square feet and one or two coats depending on the condition of the surface. You cannot make nor buy a better paint for finish and wearing qualities no matter how much you pay for the paint. It is therefore by far the most economical paint to use. Give this paint a trial on the next job, you will never regret it and you take no chances, you are protected by our guarantee.

Free Color Sample Book

We quote prices on six different colors on this page, but if you prefer to see the actual colors before ordering we will be pleased to have you write and ask for our Paint Color Sample Book, which will be mailed free and postpaid at once.

OUR GUARANTEE

We guarantee our Seroco Weatherproof Mineral Barn Paint to be composed of the highest grade ingredients and that no better wearing mineral paint is made. When two coats are applied to old surfaces, or three coats to new wood, it will produce a first class surface and the paint will not peel, blister or rub off. We will furnish new paint free and pay all transportation charges if not as represented.

IMPROVES APPEARANCES, SAVES COSTLY REPAIR WORK

Keep your barn, dairy, corn crib, granary or any other building on your premises well painted. It immensely improves appearances, and in case you ever wish to sell your place it will sell more readily and bring a better price because of the condition of your buildings. These advantages should be apparent to anyone, and the cost of paint for the purpose is a mere trifle. But appearances do not furnish the only reason for painting. It is absolutely necessary to paint to prevent decay and to save costly repair bills. Neglecting to paint a building has cost many a man hundreds of times the cost of the painting job, and it is now more urgent than ever because of the high price of lumber and the increased cost of labor. You can do your own painting with the help of our book on "How to Paint," which will be mailed free with our Paint Color Sample Book. It tells you all about our paints, how to apply them, what brushes and tools are necessary, and enables you to do as nice a job as a practical painter. Paint is a necessary investment, a paying investment, and we offer you the best. It is guaranteed.

ew Process Mineral Barn Paint

Our Second Quality Mineral Paint

A high grade paint is a cheaper paint to use on your buildings than a cheap or low priced paint. You cannot expect the best wearing materials in a cheap paint, nor can you expect the manufacturer, the jobber or the paint dealer to sell his paint below cost. When you buy a low priced paint from the ordinary paint dealer you must remember that there are two or three profits included in the price you pay for the paint and you can draw your own conclusions as to the quality of the ingredients used in its manufacture. Such paints are not worth the labor of putting them on your buildings; they may last about six months or a year and then you are obliged to repaint.

For years we have been experimenting with different oils and pigments with the object in view of making a low priced paint that would look well and wear better than many cheap, worthless, low priced paints that are now on the market. In our New Process Mineral Barn Paint we have succeeded in making a paint that, while not guaranteed, we claim will wear longer and look better than any cheap mineral barn paint you can buy on the market at anything like our price. It is manufactured in our own paint factory and we know every ingredient that it contains; we know that the oil and pigments used in its manufacture are of better quality than is contained in most of the low priced paints on the market.

Our Guaranteed Seroco Weatherproof Mineral Barn Paint, listed on opposite page, is by far the cheapest and best paint to use, considering its high quality and wonderful wearing qualities; the labor of putting on the paint is also an important consideration—you do not want to be bothered with painting every few years, but if a second quality paint will answer your purpose, and if you want a paint that will improve the appearance of your buildings where length of wear is only a secondary consideration, a paint that costs but very little and that will brighten up the buildings and sheds on your premises for a reasonable length of time, and where repainting is done every season or two anyway to brighten up the surroundings, then order our New Process Mineral Barn Paint and we will send you a better paint than you can buy elsewhere at anything like our price. Remember, we manufacture this paint ourselves, and by purchasing from us several profits are eliminated.

roco Shingle Stain and Preservative

Our Shingle Stains are made in our own paint factory and every package leaving our factory contains full measure and is guaranteed as to quality. Strong in color with the highest preserving qualities.

Too much stress cannot be laid on the necessity of preserving your roof and protecting it against the elements. It is just as important to keep your roof in good condition as it is to keep the rest of the ll painted at all times. Don't leave your roof to the mercies of and sun without any protection, but insure against decay by using gle Stain. Remember, a few dollars spent now may be the means a few hundred later on, for new shingles will cost you considerme money than the cost of enough stain to protect your roof for me. **Water will not penetrate shingles coated with our stains, practically immune from decay.**

quoted below are based on the actual manufacturing cost percentage of profit added, therefore do not be deceived by price elsewhere. Send us your order; we guarantee satisy returned. The shingles can be dipped in the stain or it with a brush. When applied with a brush, 1 gallon will square feet of surface one coat, or 100 square feet two dipped, 2½ to 3 gallons will cover 1,000 of the regulation gles. Two-thirds the length of the shingle only need be

S. R. Carbolineum

(IMPORTED FROM GERMANY.)

The Greatest Preserver of Wood and the Only Sure Destroyer of Lice, Mites and Insects

No. 30H1946 S. R. Carbolineum has been on the market over twenty-six years and has received the severest test in its preserving qualities. Telegraph poles that were treated years ago are as good as new today. Thousands of dollars have been saved by its use. S. R. Carbolineum is recommended for wooden fence posts, poles, sills, joists, wooden curbings and steps, trestle work and bridges, railroad ties, water tanks, silos, wharves and docks, ships, boats, barges, dams, plank walks, windmill and water towers, piles and boats to keep off the teredo; all wood exposed to moisture or other climatic influences and insects. If your chicken house is infested with lice and mites, give the interior a coat of this preserver; it will kill all lice and mites and will keep your chicken house free from such pests. Nearly all railroads use this material for treating ties. Moisture or insects will have no effect on fence posts that are properly treated with S. R. Carbolineum.

S. R. Carbolineum is a heavy dark brown oil stain which impregnates all kinds of wood. It is not explosive or inflammable, nor does it evaporate. It is applied with a brush like paint, or the posts or timbers may be dipped or immersed in the liquid. One good heavy coat is enough, as it penetrates very deeply. A gallon will cover about 250 square feet one coat. Just the material for preventing decay.

SEROCO FLOOR PAINT
READY MIXED

$1.08 A GALLON

FOR PAINTING FLOORS OF
Kitchens, Dining Rooms, Bedrooms, Porches and Steps

Seroco Ready Mixed Floor Paint is without a doubt the very best wearing floor paint manufactured; it is the result of many years of experimenting and is made by our own secret formula. It must not be classed with the many heavy, worthless floor paints offered elsewhere, for even though our price is lower the quality is unsurpassed. We are so confident that you will be well pleased with Seroco Floor Paint that we agree to return your money if you do not find it everything we represent it to be.

It Makes Old Floors Look Like New

Applied to the floor in the kitchen, the dining room or the bedroom, it will give long and satisfactory service; for our floor paint will stand more foot friction and general wear than any other paint; furthermore, it is easily applied, dries hard and is readily kept clean. It adds immensely to the appearance of a room. If your floors are worn and disfigured, we urge you to give our Seroco Ready Mixed Floor Paint a trial. An old discolored bedroom floor can be made clean and sanitary with two or three coats at a very small expense. After this paint has been applied and becomes dry it is very easily scrubbed and washed without affecting the paint in the slightest degree. It is also highly recommended by us for porch floors, steps and board walks. Its application preserves the wood and will save many a repair bill.

New or old floors which have not been previously painted require three coats. One gallon will cover from 300 to 350 square feet two coats and from 200 to 250 square feet three coats. It will dry in a single night. These are the most attractive colors in which floor paints come:

No. 30H500 Oak Color

S. R. SUBSTITUTE TURPENTINE

This is a perfect substitute of turpentine when used for thinning paints and varnishes. It is not only a perfect substitute but it is **better** than the pure spirits of turpentine when used for this purpose.

S. R. Substitute Turpentine is free from benzine, will not yellow and is free from stain or grease. It will not cause paint to run, crawl or remain tacky. Painters everywhere are making a great saving by using S. R. Substitute Turpentine in place of the pure turps and we positively guarantee that the material will not injure the woodwork on which it is used. There is absolutely no necessity of paying high prices for turpentine used by painters and varnishers when you can purchase a perfect substitute at the prices quoted below. Try it. If not as we say, your money will be returned.

WHITE COLD WATER PAINT

This paint comes in powder form and is ready for use when mixed with cold water. Recommended for coating interiors of barns, basements, chicken houses, granaries, sheds, factories, warehouses, summer cottages, etc. It is a sanitary paint and should be used in place of whitewash, because our Cold Water Paint cannot readily be rubbed off when once dry. It increases the light in basements, barns, or wherever used. Applied with a whitewash, kalsomine or wide paint brush or spraying machine. A 10-pound package will cover from 600 to 800 square feet.

everleak Roof Cement Paint

WILL STOP THE LEAKS IN YOUR ROOF

rleak Roof Cement Paint Is the Best Substance Known for Repairing Roofs and Keeping Them in l Condition. It Preserves Shingles, Tin, Iron or Felt From the Action of the Elements and Will Make an Ordinary Roof Last Many Years Longer.

LEAKY ROOFS, EITHER TIN, IRON, COMPOSITION FELT OR OLD SHINGLES,

made watertight with our Neverleak Roof Cement Paint. No other roof paint will do what you can accomplish with this remarkable paint. It is a combination of oils, gums, etc., that is more durable than any other paint made for this particular purpose. You can patch holes with this material by following our simple directions.

OUR NEVERLEAK ROOF CEMENT PAINT DOES NOT CONTAIN AN OUNCE OF COAL TAR.

Coal tar products will soften during very hot weather, causing them to crawl and expose parts of the roof. Our **Neverleak Paint,** after once dry, will not soften during the hottest weather. It is a heavy rubberlike, waterproof liquid cement that will make an old roof watertight with one application. In most cases one coat will be sufficient to stop leaks.

Suitable also for all iron work, bridges, smokestacks, water tanks, iron pipes, etc., that are exposed to heat, acid, electricity or the weather. One gallon will cover from 250 to 275 square feet one coat on smooth surfaces. A boy can apply 10 gallons easily in a day. Full and simple directions on each package; use any flat or round paint brush. Made in dark colors. **Black and maroon.**

ed to Stop Leaks in Your Roof if Directions Are Followed. Money Returned if It Does Not.

No. 30H3076 Round Paint Brush. This is a good strong brush, especially recommended for rough work. Suitable for tar paints, roof cement paints or for any job where an all bristle brush is not required. May be discarded when through painting, as price is so low that it would hardly pay to clean. Made of fiber and bristles. Length, about 3½ inches. Securely bound with wire.
Price, each.....**28c**

Duck Brand Roof Coating

(Liquid Coal Tar)

No. 30H3468 Duck Brand Roof Coating is used extensively for coating felt roofs. This material is distilled from low heat straight run American coal tar and is more durable than the coatings made from the common tar. For a more durable roof coating for felt roofing, we recommend especially our Black Carbon Paint No. 30H1942; you will find this paint a better article to use, as it is more easily applied and will give more satisfactory service. However, for a coal tar preparation, our Duck brand will be found far superior to the ordinary coal tar roof coatings offered at various prices. Use plenty of sand with Duck Brand Roof Coating. Weight, per gallon, about 10 pounds.

Black Carbon Paint

FOR PAINTING IRON AND SHINGLE ROOFS, COMPOSITION OR FELT ROOFING, BRIDGES, IRON AND WOOD SHEDS, TELEPHONE POLES, SMOKESTACKS, ETC.

No. 30H1942 This paint is a carbon preparation and does not contain an ounce of coal tar or asphaltum. This carbon paint has been on the market and used for many years and is giving the best of satisfaction. It is not as elastic and durable as our Neverleak Roof Cement Paint, but it has in many instances preserved roofs for five years. It will give far better service for felt or composition roofing than any coal tar preparation.

45c Paints Your Buggy With Seroco Buggy and Carriage Paint

A strictly high grade paint for buggies, carriages, wagons or any kind of vehicle. Also recommended for automobile bodies and gears. It is made from the best pigments ground in the finest carriage varnish, and for durability and finish our buggy paints are unexcelled. One coat makes a beautiful and durable finish and no varnish required. One quart, costing 45 cents, with very little labor will make an old buggy look like new. No experience necessary; anyone can apply it, as it comes to you ready for use. While this paint is made expressly for buggies, etc., it can be used with excellent results on settees, benches, lawn swings, chairs or any article exposed to the weather. Our buggy paints are made from the finest materials it is possible to obtain. We cannot afford to use cheap materials because we want your future orders, also the orders from your friends and neighbors. Manufacturing the paint ourselves enables us to use the very best materials and still be able to quote a price others ask for inferior goods.

70c Paints Your Wagon With Seroco Wagon and Implement Paint

ONE-HALF GALLON WILL PAINT ANY ORDINARY WAGON AND MAKE IT LOOK LIKE NEW.

A paint made expressly for wagons and farm implements, has wonderful wearing qualities and covering power. Made of the very best materials with non-fading colors. Being extremely tough, it will not crack or peel off. It is cheaper to use paint than to allow your wagon or farm implements to go to decay. One gallon will, in many instances, refinish every implement on the farm. It is an ideal implement paint because it can be used on iron as well as wood with equal results. Saves many times its cost in preventing rust and decay. Anyone can apply it and do perfect work, as it is ready mixed and ready to be applied when you receive it. Dries hard with a high gloss. Apply with a No. 30H3028, No. 30H3034 or No. 30H3036 varnish brush, 1, 2 or 2½ inches in width.

Seroco Gloss Enamel

A HIGH GLOSS INTERIOR PAINT.

GIVES THAT SMOOTH, GLOSSY PORCELAIN FINISH ON WOODWORK. ANYBODY CAN PUT IT ON VERY EASILY.

A SANITARY FINISH, AS YOU CAN WASH DIRT OR GREASE OFF YOUR WALLS WITHOUT AFFECTING THE FINISH.

The highest grade interior enamel for all purposes. Anyone can apply this enamel and produce that high gloss finish on woodwork, plastered or board walls, furniture, etc. It is a very sanitary finish for walls and woodwork because all dirt and grease are readily removed with soap and hot water without affecting the high gloss finish. Seroco Gloss Enamel is ready mixed and comes to you prepared ready for use and the directions are so simple that the most inexperienced can secure that smooth glossy porcelain finish on woodwork, walls, etc., the equal of the most costly enamel work produced by expert painters. Seroco Gloss Enamel is not an ordinary enamel paint but is a scientifically prepared mixture and should not be compared with the cheap, worthless enamels on the market. We are anxious that our customers give this enamel a trial. Send us an order and finish the walls and woodwork of one of your bedrooms and we guarantee that you will be so well pleased with the porcelain like finish that you will immediately treat other rooms likewise. The finest material on earth for finishing the walls and woodwork of bathrooms and kitchen. Since Seroco Gloss Enamel is made in a variety of beautiful shades, harmonious color combinations are possible; for instance, use a certain color for the walls and a harmonizing color for the woodwork. Remember, we are offering here the highest grade enamel it is possible to make and so prepared that the most inexperienced can produce with it the most perfect enamel finish. Apply with a varnish brush, No. 30H3036, size 2½ or 3 inches wide.

Oil Stain.

Perfect imitation of natural wood, cherry, rosewood, mahogany, walnut, light oak, dark oak, antique oak. For staining interior woodwork or any work not finished. This stain cannot be applied over varnished or painted surfaces. One or two coats of varnish applied over it will produce a fine finish. No. 30H2716, No. 30H2718, No. 30H2710 or No. 30H2711 Varnish may be used in connection with these stains. Apply with a varnish brush. **Don't forget to state color wanted.**

No. 30H2306 Rosewood.
1-pint can.....$0.19
1-quart can..... .34
½-gallon can..... .66
1-gallon can..... 1.24

Varnish Stain.

Stain and varnish used separately, on new work, produce a better finish than varnish stain, but for refinishing painted or varnished surfaces, such as old furniture, painted or varnished woodwork, this varnish stain is recommended. It stains and varnishes in one operation. Dries hard with a fine luster. Furnished in the following natural wood colors: Cherry, rosewood, mahogany, walnut, light oak, dark oak, antique oak. **Do not fail to mention color wanted.** Apply with a varnish brush; 2-inch brush recommended.

In selecting a color it is necessary that the color selected be of a similar shade to the old finish; for instance, a piece of furniture finished in mahogany cannot be refinished in light oak by applying the light oak varnish stain. The varnish stain in this case will have to be of a dark color, either mahogany or walnut.

Whitewashing and Spraying Machine $5

It Whitewashes, Sprays Sheep and Cattle, and Does Many Other Useful Things

YOU CAN'T AFFORD to be without this machine for so low a price as $5.90. Send us your order today and we will ship you the machine promptly and guarantee to satisfy you in every way or you may return it to us at our expense and we will return your money, including freight charges.

IT DOES WHITEWASHING BETTER THAN WITH BRUSHES, simply because it forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infested with lice, you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice and dirt from head to foot.

FOR SPRAYING SHEEP AND CATTLE IT CAN'T BE BEATEN, as it forces the liquid through to the hide where you really want it. No other sprayer or machine will do the work with so little labor; and for the many other purposes for which it is intended, it is a wonder. After you have given this machine a trial you would not part with it if you could not get another.

THE MACHINE IS SIMPLE AND EASY TO OPERATE. The legs can be removed instantly and thus occupy little space. It can be conveniently carried on cars, in buggies, etc. It is always ready, nothing to take apart or attach, and with a bucket of water you are ready to throw a 30-foot stream any time.

EQUIPMENT CONSISTS OF a 6-foot wrought iron spray pipe with ⅛-inch brass shutoff cock and brass spray nozzle, extra brass nozzle for straight stream work, iron follower wrench (used for tightening plunger ring in bottom pump cylinder), rubber suction hose with screen attachment and 8 feet of ⅜-inch special high pressure rubber discharge hose. Shipping weight, 40 pounds; net weight, 30 pounds.

Here Are Some of the Many Things You Can Do With It:

You can whitewash chicken houses, barns, sheds, warehouses, basements, factories, etc.; wash buggies, outside windows, porches, sidewalks, outside walls of buildings, wash the feet of your horses and cattle, etc.

IT DOES ANY ONE OF THESE THINGS WITH EQUAL EASE AND DOES IT WELL.

No. 30H2382 Handy Whitewashing and Spraying Machine. Price, complete $5

SEROCO DRY COLORS

The following dry colors are used for tinting kalsomines, making graining colors and other purposes. Some use these dry colors for painting purposes by mixing them with linseed oil. This we do not recommend unless the mixture is put through a paint mill, as you will have nothing but a coarse mixture which is not fit for anything. If a mineral paint is desired at a low price you will profit by purchasing the Seroco Weatherproof Mineral Barn Paint; then you will have a substantial paint, a paint that will wear much longer, therefore cheapest in the end.

VET SANITARY KALSOMINE OR WALL FINISH.

ELVET SANITARY KALSOMINE is a dry powder scientifically prepared and when mixed with hot water (full og package) it is ready for the walls. It will give you a smooth finish and cover so the most inexperienced can do perfect kalsomining with this material. If at any time o rekalsomine or desire a change in color you can remove the old kalsomine with r and a sponge, at the same time you are also removing the dust and dirt that have d on the walls. You cannot do this with some of the extensively advertised wall coatings because they cannot be removed and you are compelled to cover the dust ith the new wall coating and seal the dirt to the walls instead of removing it. Our itary Kalsomine is the best covering and easiest working kalsomine on the market l surprise you how clean and fresh a room can be made with a package or two of itary Kalsomine. It comes in many beautiful tints so that each room, if desired, may in a different color. It will give you a smooth velvety finish which will not rub off, will not soil clothing that may come in contact with the wall. If you are tired of painted walls, then apply a coat or two of Velvet Sanitary Kalsomine directly on the painted walls and you will be delighted with the smooth, velvety finish; you do not have to remove the paint because it is a good undercoat for kalsomine. The most beautiful harmonizing combination of colors may be had with Velvet Sanitary Kalsomine.

One package is sufficient for an ordinary size bedroom.

Dirt and dust will not stick to floors waxed with Seroco Floor Wax. One pound will cover about 300 square feet. Directions are simple and plainly printed on every can. Put up in one-pound cans.

Price, per can 28c

Dancing Floor Wax.

No. 30H2637 Dancing Floor Wax (powdered). This is the best preparation for dancing floors, easily applied and can be used on new, old or canvas covered floors. Guaranteed not to soil the most delicate fabric. Sprinkle it on the floors and the dancers will do the rest. Put up in one-pound cans.

Price, per can 30c

Fifteen-Minute Floor Finish.

No. 30H2640 A most wonderful finish for floors, interior stairs, etc. It is a compound consisting of wax and other ingredients and applied to the floor in liquid form with a cloth. Floors may be finished in fifteen minutes and immediately used after applied. Brings out the grain of the wood and imparts a rich color. Floors finished with this material can be kept thoroughly clean without scrubbing, as all dust and dirt is readily removed with an ordinary broom or floor brush. Highly recommended for schools, colleges, stores, public halls, churches, as well as residences. For hard and soft wood floors. The scrubbing expense of large schools, colleges, etc., is enormous. We guarantee that this expense can be reduced 75 per cent by using our Fifteen-Minute Floor Finish. Do not apply this preparation over a painted surface as it is only intended for new floors, or floors that have previously been oiled or waxed. One quart will finish 150 square feet of surface.

1-pint can	$0.25
1-quart can	.40
1-gallon can	1.30
5-gallon can	6.00

Success Linoleum and Floor Oilcloth Finish.

No. 30H2642 Why allow your linoleum or floor oilcloth to wear away when it can be preserved for a few cents and give you a better finish than the original finish of the linoleum or floor oilcloth? This material puts a coating on the linoleum and dries hard but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. Linoleum today is one of the most popular of all floor coverings; its most objectionable feature has been the continual unevenness of wear, causing color to become dull and pattern to be lost, leaving a decidedly spotted effect in the linoleum. By using Success Linoleum Finish the linoleum or oilcloth will retain all its original brightness and luster, thus making the life of linoleum much longer. Hot or cold water does not affect it. A quart can costing 48 cents and a few minutes of your time will save you ten times this amount. One coat will do the work; applied in the evening it will be dry, ready to walk on in the morning. One quart will cover a space 12x15 feet. This finish may also be used on parquet flooring.

1-quart can, **48c**; 1-pint can 26c

Water Putty (Crevice Filler).

No. 30H2659 This is a hard drying mineral substance in powder form to be mixed with water. It dries in fifteen minutes. For filling imperfections and cracks in furniture, vehicles, plastered or board walls, floors, statuary, picture frames, sinks, etc. When dry, water will not dissolve it and may be crumbling. Picture sandpapered, carved or sawed without frames with composition ornaments may be repaired with our Water Putty. Use No. 30H2660 for filling cracks in floors that are springy or not well nailed. Use our Water Putty for filling cracks in solid floors.

1-pound package	10c
5-lb. pkg., **36c**; 2-lb. pkg	18c

Seroco Crevice Filler.

No. 30H2660 Seroco Filler for cracks in floors. A specially prepared elastic, non-shrinkable compound for filling cracks in floors or furniture before applying paint or varnish; also adapted for smoothing rough surfaces.

Chinese Gloss Lacquer

We Want You and Your Friends to Know All About Chinese Gloss Lacquer, the Wood Finish That Will Make Old Furniture Look Just Like New.

This is without doubt the most wonderful wood finish ever produced, wonderful because it surpasses in brilliancy of colors and lasting qualities any wood finish heretofore sold for a similar purpose. It is so easily applied that the most inexperienced can use it, and it is offered at a price so low that it makes it possible for you to make old and scratched pieces of furniture just as good as new at an expense of a few cents. **Chinese Gloss Lacquer** applied to an old table, chair, dresser or any other article of furniture will make it look like new; when applied to woodwork, wainscoting, doors and window sash it gives them renewed light and beauty. Best of all, this beautiful new finish, our **Chinese Gloss Lacquer**, can be applied by any housewife, and the finished work will be just as satisfactory, just as rich and beautiful as if it had been done by an expert painter or a cabinet finisher. Indeed, the greatest merit of **Chinese Gloss Lacquer** lies in this one quality—that it does not require expert handling to produce the very finest results. It is put up by us ready for use; nothing is to be added by the purchaser, just open the can, pour a little of the liquid in a saucer or cup and brush it on the piece of furniture or the woodwork you wish to decorate, following the very simple directions we send with the can, and in twenty-four hours' time the newly finished piece of furniture or woodwork will be ready for use.

Apply Chinese Gloss Lacquer with a flat varnish brush. Any of the following brushes may be used: Nos. 30H3028, 30H3034, 30H3036, 1½ and 2½ inches in width. See page 544.

THE FACTS ABOUT PAINT

Read Pages 530 and 531.

Every builder, contractor, master painter, journeyman painter and home owner is vitally interested in paint pages 530 and 531. For many years a large number of people have had an entirely wrong understanding about paint. Wrong information has been advertised by large institutions who were too enthusiastic about the quality of their products. We have DUG AWAY DOWN DEEP into the paint question and have unearthed THE FACTS and offer them to you on pages 530 and 531 with our compliments. They are yours to profit by them. Those pages contain valuable information for anybody who will appropriate it to his own use. Read the facts and take advantage of them.

Transfer Graining Paper.

No. 30H2958 Imported German Transfer Graining Paper will give you a better grained surface than is possible to produce by hand or with any device. No graining colors to bother with; all that you require are ground color, if necessary, a small quantity of boiled linseed oil and your finishing varnish. Ground color is only necessary when it is desired to grain over painted or grained surfaces, or very knotty wood. A double roll contains 18 yards, 26 inches wide. One double roll is often sufficient to grain the doors and casings of a six-room house, as several impressions may be taken from one strip. Furnished in light, medium or dark oak. State color wanted. Weight, 28 ounces.

No. 10. Quarter sawed and heart oak, like illustration.

No. 9. Straight oak, heavy heart grain and lines.

No. 20. Straight oak, small heart grain and lines.

Price, per double roll of 18 yards 70c

When ordering mention catalog number and number of pattern and color.

No. 30H2697 Ground Color.

TOOLS FOR HANGING WALL PAPER

If You Do Your Own Papering You Should Have This Wonderful Wall Paper Trimming Outfit, The Reliable Simplex $2.10

Front View.

Do you know that it will pay you to have a Wall Paper Trimming Outfit in your home for the simple reason that you can trim all the paper in one-quarter of the time it would take with the old method of using shears, and instead of an irregular edge you will have a clean cut smooth edge which will enable you to match the paper perfectly and more easily, consequently do the entire work in much less time. One of our customers says: "Had I known how much better I could hang paper, as I found after using one of the Simplex Trimming Outfits, I would have purchased one years ago even at the former price of $4.00 an outfit." The customer referred to owns his own home of six rooms and has found it profitable to have a trimming outfit even though he does not paper every year. The entire outfit occupies but very little space and can be stored away after you are through with your papering, as there is nothing about it that will spoil or become damaged. The Simplex was originally made for the paperhanger, but since we purchased the patents and are making them in our own factories we have been able to reduce the price from $4.00 to $2.10 an outfit, all complete. While a few house owners purchased these outfits at the former high price, knowing of their convenience, thousands have taken advantage of owning one since the price has been reduced.

NO PAPERHANGERS' TABLE NECESSARY. Three pieces of board 8 inches wide and about 7 feet in length will make as good a table for the purpose as the manufactured ones. Tack the long piece of zinc on one of the boards near the edge, then take the three boards, the one with the zinc towards you, lay them side by side with the ends resting on two tables or any other support and your table is ready for trimming the paper. The board with the zinc strip can be stored away in the basement for future use. Your money returned if not satisfactory.

Regular Extension Ladders, 13c a Foot.

Our Regular Extension Ladder is one of great merit throughout. The hardwood rungs are tested before they are used; this insures only sound rungs being placed in these ladders. The sides are of good, straight grain pine, solid and strong. A special feature of our Regular Extension Ladder is the double roller top iron which makes the adjustment of the ladder very easy. The drop hooks are very simple and strong. This is a ladder that is safe and sound in every particular, and we guarantee that you will be pleased. Sold in the following lengths, two sections to each ladder. All ladders shipped from our store. Shipping weight, about 2½ pounds a foot.

No. 30H2944 Our regular Extension Ladder.

SPECIAL OUTFITS FOR PAINTING

For the convenience of our customers who may be unable to make a proper selection of paint brushes for outside house or barn painting, we have made up several outfits of the necessary brushes required and other accessories. These outfits have been carefully selected and we suggest that you include one of these outfits with your order for paint.

No. 30H2952

$1.35 PAINT BRUSH OUTFIT.

This assortment consists of extra good quality brushes and first class work can be done with these tools. This outfit includes the following: 1 Painters' Duster, 1 Extra Chinese Bristle Flat Paint Brush, 1 High Grade Polished Steel Blade Putty Knife, 1 Paint Paddle, 1 Paint Pot Hook, 1 Chinese Bristle Chiseled Sash Tool, 1 Chinese Bristle Chiseled Sash Tool, large size.

No. 30H2952 Price for complete outfit.....$1.35

$2.60 PAINT BRUSH OUTFIT.

This assortment has been especially selected for the painter and for large jobs where strictly high grade brushes are necessary. These brushes are made from the best stock, and were you to purchase them singly from a dealer the outfit would cost at least double our price. This outfit includes the following: 1 Russian Bristle Paint Brush, large size. 1 Chinese Bristle Chiseled Sash Tool, extra large. 1 Chinese Bristle Chiseled Sash Tool, large size. 1 Russian Bristle Flat Paint Brush, extra long bristles. 1 Extra Chinese Bristle Flat Paint Brush. 1 Painters' Duster. 1 Extra High Grade Putty Knife. 1 Paint Paddle. 2 Paint Pot Hooks.

No. 30H2954

GRAINING TOOLS AND BRUSHES

Improved Davis Wood Grainers.

No. 30H2964 Wood Grainers are composed of three rubber rolls, 5 inches in length. With the corrugated roll any known growth of wood can be imitated. Quarter sawed oak grain is produced with roll No. 2, the one with the irregular grooves. Roll No. 3 is used in place of combs for straight line work in connection with the other two rolls; this roll is made with three sizes of combs. Anyone possessing a set of our improved graining rolls can, with a few minutes' practice, do a perfect job of graining and imitate the natural wood so that it would be impossible to distinguish the natural grain from the grain made by our improved wood grainers. Complete instructions packed with every set. Weight, 14 ounces.

The Improved Davis

Price, per set of three rolls.....95c

Special Wood Grainers.

No. 30H2967 Having received a number of calls for a set of graining rollers without the roller producing the quarter sawed effect, we have requested the manufacturers of these rollers to make up a set of two rollers, both producing the heart oak grain, one fine and the other slightly heavier. The heart oak graining roller is mostly used, in fact, a better and more natural grain is produced with this roller than with any of the other rollers. We have included a steel graining comb with each set. This gives you an outfit with which you can produce an endless variety of growths of oak wood and the grain made with these rollers cannot be detected from the natural grain of oak. Rollers are 5 inches in length.

Price, per set of two rollers, including a steel graining comb.....68c

The Home Wood Grainer.

No. 30H2965 A handy tool for graining wainscoting, floors, woodwork, furniture, doors, etc. You need no experience. Anyone can do perfect graining with this new roller. A greater variety of growths can be produced with this roller than with other handled grainers, because we give you a complete roller and not a quarter or half roller such as is offered at a reduced price. Price.....28c

Graining Combs.

No. 30H2966 Genuine Henry H. Taylor's English Graining Combs. Best quality steel, in sets of twelve, assorted, 1 to 4 inches, in tin compartment case. Wt., 14 oz.

Price, per set....70c

Check Graining Roller.

No. 30H2968 Double Line Check Graining Roller. This tool is used by the professional grainer for producing the oak overgrain on hand or rubber roller graining. Surfaces must be grained first before this tool can be used.

Price.....50c

Extra Oak Graining Rollers.

No. 30H2960 Extra Graining Roller, 8 inches wide, for graining large panels. Weight, 12 ounces. Price.....70c

No. 30H2962 Extra Graining Roller, 3 inches wide, for graining floors, doors, woodwork, wainscoting, furniture, etc. Weight, 4 ounces. Price.....28c

Rubber Graining Combs.

No. 30H2975 Rubber Graining Combs, used in place of steel combs for certain work. The rubber is securely set in wood handles, and are the best rubber graining combs made. Packed in cardboard cases, in sets of twelve combs, assorted, six, nine and twelve teeth per inch.

Price, per set of 12 combs.....48c

Steel Wool and Shavings.

No. 30H2670 Steel Wool is a mass of fine fibers of steel, resembling curled hair, which, while sharp, does not scratch, but will cut as smoothly as the finest sandpaper, emery or pumice stone. For many purposes it is superior to sandpaper, etc. Used for rubbing down fillers and varnishes; in fact, it takes the place of sandpaper or pumice stone and will be found a much better article to use. Steel shavings are a coarse grade and are used for removing rust from iron preparatory to painting; also for cleaning floors or any surface of old varnish.

No. 0. Very fine, per pound	38c
No. 1. Fine, per pound	29c
No. 3. Fine, per pound	25c
Steel Shavings. Per pound	22c

OIL THE BEST GRADES FOR ALL PURPOSES

Our Oil Department is one of the largest independent shippers of oil in the world. Our customers realize that the goods we have to offer are far superior in every respect to the miscellaneous lot of goods thrown on the market by the various companies. We have no high salaries to pay salesmen on the road. The pages of this catalog are our salesmen. We handle the very best oils the world produces and if you have not given our oils a trial you should at least send us a trial order. **The different oils listed in this catalog are most generally used,** but if you do not find the kind of oil wanted, write to us, giving a description of the oil and purpose it is intended for, and we will promptly quote you the very lowest price.

GRADE INCUBATOR LAMP OIL.

igh Grade Incubator Oil is not like the kerosene oil, but is an oil which will an even temperature because it forms st on the wick, leaving the wick soft in- with a hard crust. Fireproof Cylinder Oil.

No. 30H3341 Fireproof XXX Cylinder Oil. Black in color. The most wonderful and powerful oil ever compounded. Used in any engine, high or low pressure, and lubricates perfectly. You will always find a film of oil inside of cylinders where this oil is used, also on the rings; packing and piston rods are so thoroughly lubricated they show comparatively little wear, no matter how high the steam pressure. One barrel of Fireproof XXX Cylinder Oil will go as far as two barrels of any other oil. We guarantee that after you have once used this oil you will never use any other. We will accept your order for a barrel or can of this oil with the understanding that if not found as represented we will allow you to return the balance of the oil and return your money, making no charge for the oil used. The following prices include package:

Cream Separator Oil for Hand Power Machines.

No. 30H3354 This is the best cream separator oil made. It is a fine white oil which will not gum and contains more lubricating matter than the majority of separator oils on the market. Recommended for use in machines that are kept in moderately warm rooms where the temperature does not drop below 40 degrees. Keep your cream separator in a warm room and use this oil. It will save the bearings of your machine and reduce your repair bills.

1-quart can.....12c

5-gallon can, per gallon.....28c
10-gallon can, per gallon.....26c
50-gallon barrel, per gallon.....20c

Cream Separator Oil for Hand Power Machines That Are Kept in Unheated Rooms.

No. 30H3355 This oil is especially made for use in machines that are operated in unheated rooms at a temperature below 40 degrees Fahrenheit. It is a very light bodied oil, and since it carries very little lubricating matter it should only be used for the purpose for which it is intended. Manufacturers of cream separators usually send this grade of oil with new cream separators. We recommend that the cream separator be kept in a warm room so that our best grade separator oil may be used (No. 30H3354). It will save the bearings of the machine and reduce your repair bills.

1-quart can.....10c
1-gallon can.....32c
5-gallon can, per gallon.....24c
10-gallon can, per gallon.....22c

1-quart can.....22c
1-gallon can.....75c
5-gallon can, per gallon.....72c
10-gallon can, per gallon.....71c
50-gallon barrel, per gallon.....65c

Kerosene Tanks.

Our Kerosene Tanks are made of best 26-gauge galvanized iron in body and bottom; wood bottom under metal, tin hood, portable steady stream pump which can be taken out of the tank and used for pumping kerosene from barrel into tank. All tanks are neatly painted and securely crated. The prices below do not include kerosene. We cannot ship kerosene in these tanks as the railroad companies will not accept them filled.

No. 30H3290 Kerosene Tank. Capacity, 30 gallons. Weight, crated for shipment, 35 pounds. Price.....$3.00

No. 30H3291 Kerosene Capacity, 60 gallons. Weight, crated for t, 50 pounds. Price.....$3.40

OH3292 Kerosene Tank. Capacity, 110 Weight, crated for shipment, 65 pounds. $5.75

85c Transfer Pumps.

No. 30H3298 Transfer Pumps for transferring gasoline or kerosene from barrels into tank. The regular pump furnished with our kerosene tank is rather small for transferring purposes. Oil may be transferred with this pump in half the time.

Length, 32 inches; diameter, 1¼ inches. Price.....85c

Length, 54 inches; diameter, 1½ inches. Price.....$1.70

For Underground Gasoline Tanks with Pump Attachments write for Automobile Supply Catalog.

Tanks With Brass Faucets.

FOR GASOLINE OR LUBRICATING OILS.

These tanks are made of best 26-gauge galvanized iron in body and bottom; wood bottom under metal; has 4-inch screw top and ½-inch brass faucet. May be used for gasoline or oil. A couple of these tanks for your gasoline and lubricating oil will prevent a lot of waste. We cannot ship gasoline or oil in these tanks as the railroad companies will not accept them filled. We can furnish these tanks with a ½-inch brass key faucet like the above illustration, at an additional cost of 40 cents. There has been a great demand for a faucet of this kind which will prevent accidental opening of faucet and will do away with the necessity of keeping your tanks under lock and key to prevent tampering. Key is small enough to carry in your vest pocket.

No. 30H3294 Capacity, 30 gallons. Weight, crated for shipment, 30 pounds. Price.....$2.90

No. 30H3294I Capacity, 30 gallons, fitted with key faucet. Price.$3.30

50-gallon barrel, per gallon.....22c

SPECIAL NOTICE

The prices we ask for oils in 1-gallon cans are very high in proportion to the prices we ask in larger quantities. This is due to the cost of containers, for we pay from 15 to 20 cents for empty 1-gallon cans and of course we must add this amount to the cost of the oil. Therefore, you will best serve your own interests by purchasing oil in quantities of 5, 10, 30 or 50 gallons and thereby get the benefit of the lowest prices.

Signal Oil.

No. 30H3388 Expressly for lanterns. This is a high grade oil, used extensively by railroad conductors, hunters and for use in lanterns; also used by some railroads for lamps.

Graphite Roof Cement.

No. 30H3474 For repairing any kind of leak in roofs, chimneys, gutters, porch floors, etc. Easily applied with a putty knife or wood paddle. Guaranteed to stop any leak. Strictly elastic and will not crack; the severest exposure will not affect it.

2-pound can.....20c
5-pound can.....40c

No. 30H3347 A perfect automobile oil must have high fire test and be as free from carbon as it is possible to make without reducing the fire test. An oil of a low fire test, of which there are many on the market, will be consumed by the heat of the exploded gasoline before it has performed its work of lubricating the cylinder. An oil that contains an excess of carbon will leave a heavy deposit in the cylinders, causing a loss of power and wear on the cylinders. Our 1, 2, 4 and 6-Cylinder Automobile Oil has a very high fire test and is as free from carbon as it is possible to make. Use this oil and save repair bills and with perfect lubrication you get the maximum power of the engine. Even if you have been paying as high as $1.00 a gallon for oil, send us a trial order for this Automobile Cylinder Oil if you want the best oil that can possibly be made for gasoline engines.

Your motor will give you the maximum amount of power when using our Peerless Motorcycle Oil. We challenge you to produce an oil that will better lubrication and satisfaction in general, no matter what it costs. Give our oil a trial and if you find it a better oil than you have used write us and we will return the full price paid for it.

No. 30H3345 Peerless Motorcycle Oil.

1-gallon can.....
5-gallon can, per gallon.....

Pennsylvania Automobile Cylinder Oil
For Air Cooled Gasoline Engines.

No. 30H3346 A special high fire test cylinder oil for air cooled auto gas engines. This oil will not burn up nor cause the pistons to stick in the cylinders because it has an extra high fire test which is necessary in an oil intended for air cooled gas engine lubrication. This is the best oil that can be made for air cooled engines and we will match it against any oil on the market, no matter what the name, make or price. Order a 5-gallon can of this oil and use a gallon of it or more and if you do not find it the finest and most satisfactory oil that you have ever used, return the balance of the oil and we will return the full price paid, making no charge for oil used.

No. 30H2766 May be used with water to make a non-freezing solution for automobile radiators in cold weather. Use 1 gallon denatured alcohol to 3 gallons of water, except in zero weather, when the proportion should be 1 gallon of alcohol to 2 of water.

1-gallon can $0.68
5-gallon can 3.00

Seroco Cup Grease.

No. 30H3454

Seroco Cup Grease for automobiles. This grease is compounded from pure acidless fats and oils, made especially for cups on automobiles. Recommended wherever a high grade solidified oil or grease is required.

1-pound can. $0.18
5-pound can. .65
10-pound can. 1.20

TRANSMISSION GREASES

A High Quality Grease.

No. 30H3455 This grease is known the world over as the best grease for automobile use. We cannot use the manufacturers' name for the reason that we are selling it at a greatly reduced price; the same grease is sold under its regular brand name at 25 cents a pound. Water will not mix with this grease and it remains in the same consistency summer or winter; it never gets hard nor gums. Less power is required to run the gears and there is almost no wear when this grease is used. Furnished in No. 1 consistency, no heavier grease should be used. Guarantee on every can.

5-pound pail, per pound 16c
10-pound pail, per pound 14c
25-pound pail, per pound 13c

A Good Quality Grease.

No. 30H3456 For use in transmissions of automobiles in the sliding gear and planetary type; also used for lubricating differential gears. We are selling this grease for about one-half what is usually charged for a similar grade.

	5-lb. Can, per Lb.	10-lb. Can, per Lb.	25-lb. Can, per Lb.
No. 1. For winter use..	11c	9c	7c
No. 3. For summer use.	11c	9c	7c

No Noise Transmission Grease.

No. 30H3457 If the transmission or differential gears of your car are somewhat worn, causing them to make considerable noise, then give our No Noise Grease a trial. This grease will not make new gears for you, but it will stop the noise to a great extent. Its peculiar properties have the effect of deadening gear noises and at the same time lubricate as well as any of our other greases.

6-pound pail, per pound 17c
12-pound pail, per pound 15c
30-pound pail, per pound 14c

Sponge or Fiber Transmission Grease.

This grease is rapidly taking the place of all soft transmission greases on account of its peculiar properties and excellent lubricating qualities. The grease is of a spongy nature and this makes it adhere perfectly to the gears and it will not work out of the transmission or differential gear cases. Use this grease and experience the minimum amount of waste and at the same time get a grease that is of a fibrous nature throughout. We claim it is the best grease of its kind ever produced. Nearly all automobile manufacturers recommend the use of fiber transmission grease, and there are grease manufacturers and dealers who are selling the very same kind of grease that we are here offering at very much higher prices. They may use fancy names and fancy labels, but they cannot give you a better grease. Furnished in three sizes at the following, exceptionally low prices:

No. 30H3461

10-pound pail, per pound 10c
25-pound pail, per pound 9c

Seroco Waterproof Auto Top and Seat Dressing.

No. 30H34200 This is without doubt the best material manufactured for waterproofing automobile tops and seats. May also be used for leather guards. Will dry in one hour and positively will not crack or peel. The most delicate fabric will not be affected by coming in contact with the material after it has dried, which fact makes this dressing the best for use on automobile seats, backs and even the finest leather furniture. We will return your money if you do not find this material the best you have ever used.

URNITURE DEPARTMENT

A BIG SAVING TO OUR CUSTOMERS

Important!

To make prompt shipment and a saving of freight charges to our customers in the Middle West, we carry an immense stock of furniture in our big warehouse at Kansas City, Mo. This stock includes the latest and most popular styles and the biggest selling articles in each line.

Please Understand We Have Only a Warehouse at Kansas City, Mo., and That it Has No Office for Receiving Mail. All Your Letters and Orders Must be Mailed to SEARS, ROEBUCK AND CO., CHICAGO, ILLINOIS.

We ship the goods in carload lots to our Kansas City warehouse direct from the factories. The difference between the carload freight rate and the less than carload freight rate from the factory to Kansas City, enables us to make you a considerable saving on all goods we carry in our Kansas City warehouse, compared with the freight charges you would be obliged to pay if such goods were shipped to you direct from the factory. The prices we quote on a very large number of articles shipped from Kansas City, **are the same we ask at our Chicago store.** In all such cases the factory delivers the goods to Kansas City at the same price they deliver the same goods to our Chicago store. **On all such articles our customers save the freight to Kansas City.** We state in the description of each article, whether it is shipped from our Kansas City warehouse, from our plant in Chicago, or direct from the factory. We recommend that you make selection from the stock at our Kansas City warehouse. You will get the latest and most popular styles in our entire line, and get the benefit of the saving in freight charges, and prompt shipment of your order.

Send all Orders to

Sears, Roebuck and Co.

Chicago, Illinois

REIGHT RATES

Tables Showing the Freight Rates per 100 Pounds on Goods Shipped From Kansas City, Mo., to a Number of Cities in Nearby States, These Cities Being Used by the Railroads as a Basis for Figuring Rates for All the Towns in the Immediate Vicinity of Each City.

D COMPANIES FIGURE FREIGHT RATES WITH THE LARGE CITIES IN EACH STATE AS A BASIS.

ther towns located in the same part of the state as any one of these cities take the same rate or only a few cents per 100 pounds more than the rate to the y.

s consult the following Table of Rates, considering it in connection with the on of merchandise given below, and you will be able to determine easily actly what the freight will amount to on any goods. If your station is not these tables, the rate to your station will be very nearly the same as the rate arest city named.

FREIGHT CHARGES AMOUNT TO VERY LITTLE.

Don't be afraid of freight charges. They never amount to much compared with what we save you. In fact, we guarantee that you will save money on every purchase after you pay the freight charges. No matter how far away you live we can still save you money on your purchase. If you do not find it so, you may return the goods to us at our expense and we will return your money and all freight charges you paid. You will not lose a cent.

HOW TO FIGURE FREIGHT CHARGES

note the shipping weight of each article you order as mentioned in the description, the classification in the list below, whether double first class, first class, second hird class. Look in the table of rates below for the rate per 100 pounds to the st your home station. Multiply the number of 100 pounds by the rate per 100 the point nearest your home station and the product will be the amount you to pay in freight charges. Example: Suppose you order Extension Table No. 1A640, shipping weight, 110 pounds, and you want it shipped to Topeka, Kan. It takes the third class rate at 19 cents per 100 pounds, which figures one and one-tenth times 19 cents, equaling 21 cents. The freight will be 21 cents from Kansas City, Mo., to Topeka, Kan. Or take as an illustration the No. 1A2459 Bed which weighs 135 pounds. The freight to North Platte, Neb., from Kansas City, Mo., is 89 cents per 100 pounds. Therefore, as the weight is 135 pounds, you would figure one and thirty-five-one-hundredths times 89 cents, which gives you the total freight as $1.20.

ONE HUNDRED FURNITURE FACTORIES. The immense quantity of furniture we sell and the steadily increasing volume of business has enabled us to take almost the entire output of more than one hundred furniture factories, the largest and most favorably known and best makers of reliable, dependable furniture. In most cases we have a factory located near your town, which means a very small freight charge and hence a saving to you which should be considered in making your selection and comparing our furniture with that offered by any other dealer.

QUALITY. The dependable quality of our furniture is so firmly established that we ask you to order any article you may select, place it beside any other article of same design at anywhere near our price and if you do not find the article you purchase from us better made, better finished and worth from 25 to 40 per cent more than the other, you may return it to us and we will return the purchase price, together with the transportation charges.

IF YOU PAY MORE than our price for furniture similar in design and equal in quality, the additional amount represents the profits you are giving to the jobber, commission salesman and retail merchant through whose hands it has passed.

LOOK ONLY 98c EACH

SHIPPED FROM KANSAS CITY, MO.

No. 1A21 Price, each, 98c

If every customer knew the quality of these wood seat chairs as we know it, there would not be the slightest chance for any other dealer to sell him an inferior quality at a much higher price. You will be immensely pleased with the quality long after you have forgotten the very low price you pay us for this excellent chair.

SPECIAL FEATURES. **THE WOOD** is thoroughly seasoned Northern elm in the popular golden oak high gloss finish. **THE BACK** has broad, beautifully designed top and lower panel with seven smooth turned spindles. Height of backs from seat, 24 inches; entire height of chair, 41 inches. **SEAT,** wide and comfortable, size 16x16 inches, made of three-ply built-up veneer stock with layers placed transversely, the best improved method of wood seat construction. Back posts attached to seat and reinforced with braces. Securely packed and shipped from Kansas City, Mo. Shipping weight, each, about 10 pounds.

Our Price ONLY $1.05 EACH

No. 1A20 Price, each, $1.05

This is a big bargain. $1.00 does the work of $1.50. In other words, no one can furnish you as good a wood seat dining chair for less than $1.50 to $1.60. Ask the price of six chairs like these in your nearest furniture store. You will quickly see that at our price of $1.05 each we are saving you at least $3.00. This is a strong well made and well finished chair.

SPECIAL FEATURES. The material is thoroughly seasoned. It is made of hardwood in a perfect imitation of quartered oak, high gloss golden finish which so closely resembles genuine quartered oak that it requires an expert to tell the difference. The seat is saddle shaped, size 16x16 inches. Broad curved top panel. Wide shaped center panel. Strong, fancy turned posts. Height of back from seat, 22½ inches. Entire height, 39 inches. Shipped from Kansas City, Mo. Shipping weight, each, about 11 pounds.

We Ask ONLY $1.28 EACH

SHIPPED FROM KANSAS CITY, MO.

No. 1A30 Price, each, $1.28

The quality is unquestioned, the style speaks for itself. We want you to notice carefully every detail of the design, the shape of the back panels, the posts, the size of the seat; a full standard size chair. The posts, legs, seats and cross stretchers cut from stock of ample size to insure positive strength and the most durable wearing qualities.

SPECIAL FEATURES. Made of seasoned Northern elm, high gloss golden oak finish. **CURVED SHAPED BACK** with broad handsomely decorated panels. Wide center panel and fancy shaped lower panel. **SEAT** made of three-ply built-up veneer stock, laid transversely, insures the greatest strength and can't break or split. Size seat, 17½x17½ inches. **BACK POSTS** fancy turned, securely braced to seat. Height of back, 22 inches; entire height, 40 inches. **BASE** constructed of heavy stock, turned front posts and cross stretchers. Securely packed and shipped from Kansas City, Mo. Shipping weight, each, about 11 pounds.

lorris Chairs and Rockers

LID COMFORT — BIG MONEY SAVING VALUES

No Home Is Complete

t a Morris chair or a Morris rocker. The seat, broad high reclining back and wide make the ideal chair for genuine comfort. s a big difference in the upholstery and construction of Morris chairs and Morris , and it is this difference in the design, and construction of our Morris chairs and rockers that counts in the years of satis- service.

Our Morris Chairs and Rockers

apted for use in the parlor, living room ary. They embody the latest and best style and construction.

How They Are Made.

The frames are made of heavy stock, the wood thoroughly seasoned. They are mortised, glued and fastened in the best dependable and workmanlike manner, which insures a substantial and lasting wearing quality. Surfaces are sanded smooth, the carvings carefully cut, and the wood filler and varnish are of the high standard of quality that insures a clear color and finish that does not become dull with age. **The springs** are one of the most essential parts. The seat of each piece is made with the best guaranteed indestructible high carbon steel springs, securely fastened at the top and attached to steel cross supports at the bottom.

The Reclining Adjustable Back

Has the best ratchet attachment for raising or lowering the back to every comfortable position. The cushions are made with a full width edge, accurately cut and firmly stitched, which insures a uniformity of thickness, softness and elasticity and improves the appearance and preserves the shape. The covering materials you will find of much better quality than is used by the average dealer, selected for splendid wearing qualities and attractive appearance. Fully described on page 636.

What We Save You.

You will make a clear saving of at least one-third, comparing style for style and quality for quality, with any Morris chairs and Morris rockers offered by other dealers. We save you all the middlemen's profits.

This Peerless Reclining Rocker

ONLY $6.55

One of the most popular, most comfortable and most serviceable reclining chairs made. The frame is made of thoroughly seasoned hardwood, imitation quartered oak, high gloss golden finish. You will find this reclining rocker constructed in the same workmanlike manner as the other chairs and rockers on this page. A strong, substantial and rigid frame construction that will give years of service. It has a spring seat and back upholstered in good quality velour, or with a good quality imitation leather and stuffed with a fine quality of flax fiber and clean new cotton. The seat is attached to the platform base by heavy steel rods in such a manner that it gives a perfectly smooth swinging motion. The back is adjustable to several different angles by a strong rod and ratchet attachment. The foot rest is shown extended in illustration; when not in use can be folded or pushed under the seat of chair out of sight and does not in any way interfere with the use of the chair. This combination makes the most comfortable reclining chair and is indispensable as an invalid chair. This reclining chair should be compared with those offered in retail stores at $9.00 to $10.00. Shipped securely crated from Kansas City, Mo. Shipping weight, 70 pounds.

Look! This Davis Automatic Morris Ch[illegible]

FOR $11.95

Instantly adjusted automatically to any position without moving from the chair. In simplicity of operation and genuine comfort it cannot be excelled. The spring device beneath the seat allows it to slide backward and forward easily without the slightest jar or noise, no rods or ratchets being used in its construction. The frame is made of thoroughly seasoned quarter sawed oak, golden finish, highly polished. Every post and bar, joint and tenon perfectly framed and fitted; the best that skilled workmanship can produce. The deep, broad, roomy seat is 21½ inches wide by 23 inches deep, supported by high carbon Bessemer steel coil springs. The shapely curved, deep hand tufted back is 29 inches high by 21½ inches wide and can be adjusted to any reclining position with the automatic attachment, by a slight [illegible] on the back and without moving from the chair. A special feature is the [illegible] foot rest which slides beneath and behind the upholstered hinged box front of the [illegible] Spanish fiber and cotton filling, covered in velour, dark green or dark red color, [illegible] in black color or genuine No. 1 black leather, as desired. Shipped from Kansas [illegible] Mo. Shipping weight, about 80 pounds.

special feature is the knockdown construction used in the building ch of these pieces. The chair seats and table legs are securely ed at the corners by heavy thumb bolts, and can be easily put er without the use of tools. This method of construction insures reatest strength and durable wearing qualities, and permits the ng of each piece in a small package, reduces the freight charges one-half, and removes the liability to damage in handling. The and rocker have full box frame seats. The front posts of the chair ocker and the four table legs are cut from stock 2 inches square, which insures a perfectly rigid frame construction. **Read what we say at top of this page about Early English finish.** The table top, seats and backs of chair and rocker are covered with good quality imitation Spanish leather of dark brown color. The edge of table top and the outer edges of upholstering in rocker and chair have large oxidized brass nails.

THE HIGHEST QUALITY

KITCHEN CABINETS

WORK IN THE KITCHEN MADE EA

THE MOST POPULAR UP TO DATE STYLES. QUALITY ABOVE CRITICISM. BUILT BY CABIN MAKERS OF THE HIGHEST SKILL, TO STAND THE TEST OF DAILY USE

If every customer knew the high quality of our Kitchen Cabinets as we know it, and thousands of customers who have bought them, there would not be the slightest chance for any other dealer to sell him a cabinet of inferior quality at a much higher price.

THE KITCHEN is the workshop of the home. In it system is a valuable asset, as well as in the office, the store and the factory. Our kitchen cabinets hold in a convenient and practical way all the materials and utensils used in cooking. In fact, any one of these cabinets is a kitchen in itself, yet occupying no more floor space than a kitchen table, making the cooking easy, sanitary and economical, and assuring the best results. The hours of drudgery will be turned into minutes of pleasure with the convenience of one of these cabinets.

THE MATERIAL used in the construction of our kitchen cabinets is thoroughly air seasoned and kiln dried hardwood throughout, except the platform of the base, which is made of white wood for ease in cleaning. We absolutely guarantee every cabinet against warping, checking or shrinking. We use no "culls." Every piece of lumber is carefully selected and guaranteed free from all defects.

CONSTRUCTION. The doors are perfectly fitted; the drawers and bins run smoothly without friction. The same high grade workmanship is used in the lowest priced as in the highest priced cabinet. The bins and drawers are so constructed that they can be easily taken out and cleaned, which is not the case with most cabinets made by other manufacturers. Each cabinet is fitted with one or two sliding removable kneading and chopping boards, both sides smooth and even, which can be taken out and placed on top of the table for convenience in using.

Compact, Capacious and Convenient

THE WILSON KITCHEN CABINETS

Sanitary Cleanable Durable

THE FINEST KITCHEN CABINETS MADE, REGARDLESS OF NAME, MAKE OR PRICE.

The Satin Walnut used in the construction of these splendid kitchen cabinets is a thoroughly air seasoned and kiln dried Northern hardwood, specially adapted to kitchen cabinet construction, possessing perfect strength, solidity and a beautiful grain. The so called "satin walnut finish" offered by many other dealers is but a poor imitation of the genuine satin walnut used in our Wilson Kitchen Cabinets. It is a coarser, softer wood and does not possess the perfect wearing qualities and handsome close grain of genuine satin walnut. The genuine satin walnut used in our Wilson Kitchen Cabinets is specially selected from the choicest lumber, thoroughly tested; will not warp, check or split and will hold its color.

Finish. The Wilson finish absolutely prevents the absorption of moisture by closing the pores of the wood with a special mineral wood filler. Over the wood filler the best high grade varnish is used. It is a beautiful color with a rich high gloss golden brown effect.

LOOK FOR THIS LABEL

Attached to the front of every Wilson Kitchen Cabinet.

WILSON KITCHEN CABINET THE BEST

Tops of our kitchen cabinets are built to allow free and [illegible] use of the table top of the base. The doors, drawers [illegible] can all be opened without the removal of dishes and [illegible] table top. Each cabinet is so constructed that the top [illegible] detached from the base section for convenience and safety in handling shipping.

Bases. In the various bases you will find many special features [illegible] as roomy cupboard, large bins, package racks, [illegible] cereal cans, bread and cake boxes, all carefully constructed and [illegible] operated, each of which will prove a boon to the housewife.

Flour Bins are placed in a positively dustproof enclosure [illegible] are made entirely of wood, the bottom of [illegible] stock and laid transversely, a big improvement over metal bottoms [illegible] they will not dent or corrode and flour will not mold in them. [illegible] be easily removed for airing and cleaning. The sliding and [illegible] move easily without binding or friction. The Wilson Sifter Flour [illegible] the most convenient, accessible and perfect bin ever made.

No. 1A533 Price..... **$15.65**

We Can Prove the superiority of our Wilson Kitchen Cabinets by inviting a comparison of these cabinets with any other cabinets, regardless of **name, make or price.** We have made a close and careful study of the manufacture of kitchen cabinets for many years; we are familiar with the product of every well known manufacturer of kitchen cabinets in the United States and do not hesitate to make the statement, which is backed up by our guarantee, that the Wilson Kitchen Cabinets haven't their equal in selection of material, detail of construction and finish, and if sold through the regular channels of trade, would retail at double the prices we ask.

A Very Popular Style

Satin Walnut.

Metal Top

Articles displayed are not included with the cabinet.

No. 1A532 Price..... **$14.35**

This Kitchen Cabinet is 48 inches long, 27 inches wide, and 33 inches high, which is 3 inches higher than the average cabinet, bringing the table surface on a more convenient working level. Top is covered with a metal known as nickeloid, with polished surface, and is drawn over the edges and fastened beneath, and will not wrinkle. The top is thus rendered perfectly smooth, sanitary, easily cleaned and very durable, and is without question the best metal top ever devised. The flour bin is the most perfect, convenient and sanitary device ever placed in a kitchen cabinet. Slides forward on adjusted guides and holds 50 pounds of flour. Bottom of the bin has metal flour sifter, made of heavily coated tin plate and can be easily detached. The cupboard door is fitted with two racks with cereal and spice cans. Kneading boards can be removed and placed on top of cabinet. A more convenient and higher grade cabinet than is generally offered in the regular channels of trade at $18.00 to $20.00. Shipped from our factory in Grand Rapids, Mich. Shipping weight, 200 pounds.

OAK KITCHEN CABINET

All the practical labor saving and time saving devices are embodied in its construction. The handy cupboard, convenient, accessible drawers, the large patent removable tilting flour bin, the roomy china cabinet, the rack on the cupboard door with spice cans, the tilting sugar bin, the recipe and card rack, the bread and cake drawer with metal lid will appeal to every busy, tired, overworked housewife. Made of seasoned oak, a dull golden finish. Entire height, 73 inches; width, 42 inches; depth, 26 inches.

There is a big difference in kitchen cabinet construction. It is this difference that will count in the perfect satisfaction which one of our cabinets will give throughout the years of daily use.

THE TOP.

Top section fitted to the table top of the base in such a manner as to give a free and unobstructed working surface. Each drawer and compartment can be opened without removing dishes or utensils from the table top. Flour bin placed on the left hand side of the top. It is airtight, dustproof and holds 50 pounds of flour, which can be put in by tilting the bin forward. The flour passes out through the patent metal sifter at the bottom into a bowl or pan. The flour bin and the sifter can both be taken out for airing and cleaning. Flour in the bin is always preserved in the most sanitary and wholesome condition. China cabinet has double doors with glass panels. Below the china cabinet is a tilting, removable sugar bin and two small drawers for cutlery. Swinging door on the left is fitted on the inside with a rack for recipes, grocery list, etc.

THE BASE.

Table top of the base made of white basswood with a working surface 26x42 inches. We also furnish the base with a nickeloid metal top with a highly polished surface, which is drawn tightly over the wood top and securely fastened beneath the edges. Easily cleaned and always sanitary. Below is a removable kneading and chopping board, which can be taken out and placed on the top for convenience in using. Inside the large cupboard door is a rack with six spice cans, below which is a rack for small packages, etc. Large drawer at the bottom is built for bread and cake and has a metal top. Two drawers above are for linen and cutlery. Every drawer, bin and door is carefully fitted and easily operated. Shipped from Kansas City, Mo. Shipping weight, 265 pounds.

COLDEST REFRIGERATORS MADE

REFRIGERATORS

ODORLESS, CLEANABLE, DURABLE

THE CASE.

The outside case of our refrigerator is made of the very best quality of oak, Northern ash or elm, as mentioned in the description of each refrigerator, the three best woods for outer case refrigerator construction, specially selected and thoroughly air seasoned and kiln dried and absolutely guaranteed not to warp, crack, check nor shrink. The inner wood section of the case is made of seasoned hardwood selected for its perfect adaptation to a cold temperature.

HOW THEY ARE BUILT.

Each section of the wall is a perfect non-conductor of heat or cold, making it absolutely impossible for heat to penetrate or cold to escape. Each wall is made with an outside wood section, a thick sheet of mineral felt, a dry air space, another sheet of mineral felt, a section of wood and the metal lining. Note especially that two sections of mineral felt are used in the walls of our refrigerators and read what we say about mineral felt at top of page 575. Each wood section is framed and fitted in the most perfect manner. The tongue and groove joining is used, instead of miter joints, making it absolutely impossible for the joint to break loose. The galvanized steel lining and porcelain lining are fastened securely to the inner wood casing, covering it entirely and rendering it impossible for the water to come in contact with the wood in any part of the chambers. There are no cracks or crevices for the accumulation of dirt or impurities. **The mineral felt is held in** against the wood section by strong cleats. Solidity, **cleanliness and durability** are bined with perfect sanitary and germproof inner chambers. **A perfect dry cold air** tion and every degree of this coldness utilized in the perfect **preservation of the food.**

THE DRIP CUP.

Made of cast steel and is hinged to the bottom of the refrigerator and held **beneath the drain pipe.** The water fills the cup and overflows into the pan **below** lower end of the drain pipe is immersed in the water in the cup and prevents air **from** outside entering the refrigerator through the drain pipe.

OUR PORCELAIN LINING.

The porcelain lining used in the provision chamber of the four refrigerators shown this page is made of 16-gauge steel. The walls have rounded corners. **There are no** or crevices to catch and hold any food that may be spilled. The inner surface of the ber has a pure white porcelain finish. Many other makers use plates of porcelain fasten them with screws with open joints at all the corners, **which makes an uneven** surface which catches food particles and makes it hard to keep the food chamber sweet. **Our porcelain lined food chamber is the strongest, most durable and most cleaned of all food chamber linings.**

Digitized by Google

RAL FELT is absolutely the most perfect insulator for refrigerators. It can-not settle in the walls, leaving the ice chamber unprotected, nor lift through the inner walls, soiling the provision chamber, as does mineral wool or . It is a combination of mineral wool, asbestos and hair felt, compressed or into thick sheets, making a perfect insulator not only for the walls of the refrig- but the door and lid as well, which cannot be done with a filling in the lump or d form, such as mineral wool or charcoal. This is a very important feature, as the front of the refrigerator, being always exposed, requires the same insulation as the lls of the case.

ICE CHAMBER. The ice rests on a removable rack. The water from the slowly melting ice drops into the bottom of the chamber ws into the waste pipe and fills the automatic drip cup. The end of the pipe is immersed in the water in the cup. The water overflows the sides of the cup into the neath. No foul air can enter the ice chamber through the waste pipe. Nothing be placed around or near the ice, except milk, cream, water etc., in corked bottles. wrap the ice in paper or cloths of any kind.

FOOD CHAMBER. All our refrigerators, except the porcelain lined ones, have the top, sides and bottom of the provision compart-ted with the best quality galvanized steel. The shelves are made of steel wire tinned with plenty of open space between them through which the cold air currents pass downward and upward. Shelves made by most manufacturers have small perforated the solid shelf, thereby impeding the circulation of the air and often stopping the un entirely when the food or food plates cover the holes.

THE COLD DRY AIR. The air inside of our refrigerators is not damp and life-less, but intensely cold, absolutely dry and constantly moving in duplex currents from the ice downward, passing and repassing in and through the food chamber, carrying all the impurities upward, depositing them on the ice, which, in melting, sends them out of the refrigerator through the sanitary drain pipe from which there can be no backward flow of moisture nor odor. All within is clean, sweet and pure.

THE SAVING OF ICE. A refrigerator that wastes ice is dear at any price, no matter how cheap the first cost may be. We have given the question of insulation and ice saving careful study. In a comparative test made with several refrigerators made by other manufacturers our refrigerators produced a lower temperature with an equal amount of ice under the same conditions, proving in a practical way that our refrigerator is without question the best and most scientific in its insulation and ice saving properties. In other words, you will find that a 50-pound cake of ice in our refrigerator will last as long as a 75-pound cake in the ordinary refrigerator.

THE ICE CAPACITY. A cake of ice cut the exact dimensions of the ice chamber will weigh the full number of pounds given in the description of each of our refrigerators. We recommend the selection of a refrigerator with an ice capacity large enough to hold not only the amount of ice you may wish to use, but to accommodate the unmelted portion of the previous cake, as well as milk bottle, water bottle and other products generally placed beside the ice. For example, a refrigerator to accommodate a 50-pound cake of ice and the small unmelted part of the previous cake should have a capacity of at least 65 pounds.

Ice Chest $3.98

Made in three different sizes, all built with a thick outer case of seasoned Northern elm, golden finish. The inner walls are built in the same perfect manner as the refrigerators and are economical in the use of ice. They are lined with a good quality galvanized steel and have galvanized steel shelves and wood rack. Equipped with drain pipe and drip cup. While ice chests do not have the cold dry air circulation like our refrigerators, yet they are excellent preservers of food and will give satisfaction. We recommend the purchase of one of our high grade refrigerators because of the greater convenience in handling the food and ice, the cold dry air circulation which keeps the provision chambers perfectly dry, always cold, and will preserve the food better with less consumption of ice. Securely crated and shipped from factory near Grand Rapids, Mich.

COMPARE OUR GOODS, COMPARE OUR PRICES.

EXTENSION TABLES

WE WA TO B JUDGE QUALI THE

OUR EXTENSION TABLES. There is no furniture in the modern home that is more satisfactory than a good dining room extension table. Whether you want a table designed and constructed on plain lines or one that is markedly distinctive in design you will find it on these pages. The large assortment represents the newest and most popular designs of today.

WE OFFER YOU THE SAME ADVANTAGE of selection can find in largest furniture stores in the cities, with the added convenience of your selection in your own home. It is impossible by illustration out every detail of design, construction and finish, yet by a careful of the description and a close examination of the illustrations, w made from photographs, you will form a correct idea of each extensi

WE SELL twenty-five thousand extension tables yearly. THERE IS A REASON. We have given the manufacture of extension tables close attention and study with the one purpose of giving our customers in every table that we offer a thoroughly reliable and dependable article, more attractive in design, made of better material and constructed in a more workmanlike manner than extension tables of similar design generally offered by the average dealer, and at a price that means a big saving to our customers.

LOOK AT OUR PRICES.

If you pay more than the price we ask to any other dealer for any extension table similar in design and of equal quality, the additional amount, which in every case is at least one-third more, represents the profit you are giving to the jobber, the commission man, the wholesale and the retail merchant through whose hands it has passed and each of whom has made a good profit. We contract direct with the manufacturer for thousands of each table at a price far below the regular prices to the average dealer, who can buy only in small quantities. Our price is based on the actual factory cost of the material and labor entering into the construction of the table, to which we add but a small margin of profit.

SOLID OAK $8.55

No. 1A640 Price, 6-foot length, only $8.55.

This Claw Foot Center Pillar Extension Table is made of seasoned oak, high gloss golden finish. The perfectly round top is 42 inches in diameter and has wide box rim and extends to 6 feet in length. The large non-dividing center pedestal is 8 inches thick at the widest point. Note the large shapely curved legs with deep and smooth carved claw feet. This extension table is well made throughout. The material thoroughly seasoned and the finish a clear golden color which brings out the grain of the wood perfectly. The leaves are carefully fitted into each other with dowel pins. Each table is furnished with a set of good quality casters. This table is a splendid value at our price, $8.55. We do not offer it as a $15.00 extension table for $8.55, but you will find it made of better material, stronger and more durable in construction and more dependable in finish than any table of similar design generally offered by others at $11.00 to $12.00. Each table is securely crated, the top and legs in a separate crate, to insure safe delivery by the transportation company, and shipped direct from Kansas City, Mo. Shipping weight, 110 pounds.

THE OAK used in the tops leaves of our tables is thoroughly seasoned and The slides are made of seasoned hardwood. The workmanship in sion tables is reliable and dependa are made in factories equipped latest improved machinery, operat perienced workmen, and you will table of the standard quality of a similar design offered for sale by and most reputable dealers. NEWEST STYLES OF DEPENDABLE QUALITY

SIDEBOARDS

A BIG SAVING TO OUR CUSTOMERS

SIX REASONS

WHY YOU SHOULD BUY ONE OF OUR SIDEBOARDS FOR YOUR DINING ROOM.

1—They are the choicest and best up to date designs.
2—Every piece of wood in them is thoroughly seasoned.
3—The cabinet construction throughout, from the lowest to the highest priced sideboard, is built by skilled workmen with the latest and best time and labor saving machinery.
4—Each sideboard is rigidly inspected before it is packed for shipment.
5—There is no guessing about the quality. We know it and back it by our binding guarantee.
6—Style for style and quality for quality, we save you at least one-third in price.

We are proud of the styles; they speak for themselves. The more you compare the quality and the price, the better we shall be pleased.

HOW THEY ARE MADE

COMBINATION BOOKCASES

THE LATEST STYLES. QUALITY GUARANTEED.

Do you want to preserve your books and have a convenient place for writing material? Very few articles of furniture are of more importance in the home than a combination bookcase and writing desk, because of the great convenience which they afford on account of the space they occupy being much less than can be had in two separate pieces of furniture affording the same convenience for books and writing material. The great popularity of this piece of furniture is fully established and great care should be used in its selection as to style, convenience of arrangement and quality of material, workmanship and finish.

Figure C—This illustration shows the pigeonhole case with drawer used on the inside of desk of Combination Bookcase No. 1A1102, shown on this page.

Our PRICE Only $11.70

No. 1A1114 Price, $11.70

This Combination Bookcase and Writing Desk is made of oak, high gloss golden finish. The entire front and top section is made of quarter sawed oak. Bookcase is 72 inches high by 38 inches wide and has a pattern shaped mirror, French bevel plate, size 12x12 inches. Writing desk fitted with pigeonhole case, as shown in illustration, figure D, at top of page, for writing paper and other stationery. Below the writing desk is an imitation drawer and a roomy cupboard for papers and periodicals. Left hand side of the case is arranged for books. Bent glass door made of clear thick stock, firmly set into the rigid and well fitting frame. Door and desk lid are fitted with locks and keys.

Shipped from Kansas City, Mo. Shipping weight, 135 pounds.

A BIG SAVING TO OUR CUSTOMERS

If every customer knew the quality of our Combination Bookcases as we do it, there would not be the slight chance to sell him a similar style of inferior quality at a much higher price. The wood used in our combination bookcases is thoroughly seasoned. The raw lumber stands for from fifteen to twenty months on the "stick" in our yards and before being made up is placed in a steam heated dry kiln which removes all moisture from the pores and insures against warping or shrinking.

THE FINISH. The combination bookcases made of oak are finished in **the popular golden color,** which brings out the grain of the wood perfectly. The combination bookcases made of birch are finished in a perfect imitation of mahogany. We use French bevel plate mirrors with a smooth ground bevel edge.

Figure D—This illustration shows the pigeonhole case with drawer used on the inside of desk of Combination Bookcases No. 1A1116, No. 1A1118, No. 1A1120 and No. 1A1125. Illustrated on this page.

SECTIONAL BOOKCASES

HEST QUALITY — ONE-THIRD SAVED

This illustration shows a top section, book section and base section exposing inside construction. Door is raised and pushed half way back into a position on four ball bearings.

Whether your collection of books is large or small, this Sectional Bookcase is easily adapted to your needs. No unfilled shelves and no surplus of books. Highest quality of construction. Specially selected wood of the choicest grain and the finest polished finish. Absolutely non-binding doors. The door of each section is easily reached and slides back over top of books on four ball bearings. The end of each section is fitted with ornamental metal plates of adjoining section and lock sections together in perfect vertical alignment. The sidewise and vertical expanse of your library bookcase is limited only by wall space of your room. Each bookcase section furnished in two different depths and five different heights. **Length outside, 34 inches.**

THE MATERIAL. Made of solid mahogany, also quarter sawed golden oak, or in plain golden oak as desired. Polished finish. Backs and bottoms of each section made of three-ply white maple. End plates oxidized brass. Door knobs oxidized copper.

Securely crated and shipped from Chicago. Shipping weight, book sections, 22 lbs. each; top and base sections, 8 lbs. each.

FILING CABINETS

E SAVERS — MONEY SAVERS

Filing Cabinets are time savers, labor savers and money savers. A place for everything and everything in its place about your office. They are the most popular and most practical and perfectly adapted to general use. They prevent unnecessary worry and waste of time. Doctors, lawyers, clergymen, merchants, insurance men, real estate men and manufacturers, whether your business is large or small, you cannot afford to be without these up-to-date devices.

All of the pieces illustrated below is made of thoroughly seasoned wood, constructed in a workmanlike and reliable manner throughout. The framework of outside cabinets, as well as the drawer fronts, drawer sides and drawer bottoms, are built solid, not skeleton construction, and will stand the severest test of daily use.

ROLLER BEARINGS. The drawers in the large four-drawer cabinets move on roller bearings, one pair beneath extension slides on continuous axles set in grooves to insure perfect alignment, and with the least possible friction. The extension slides support drawers and enable them to be extended to their full length. Each drawer fitted with two alphabetical index cards and twenty-five numerical vertical guides made of tough thick cardboard. Each drawer has a capacity of 1,200 letters. The numerical filing system has proven the most practical, whether correspondence is large or small.

The Card Cabinets, Wall Rack, Stationery Rack and Letter Tray are built to use with the large filing cabinets. They are convenient to handle and their wonderful utility is quickly recognized. Each cabinet drawer will accommodate about 1,400 light weight, or 1,000 medium weight cards, including the index. You will find every cabinet we offer, style for style and quality for quality, means a saving of at least one-third of the price you will be asked by others. Each cabinet securely packed, and **shipped from Chicago.**

PRACTICAL IN DESIGN

OFFICE DESKS

GUARANTEED IN QUALITY

OUR OFFICE DESKS. Every business man will readily recognize the splendid values we offer on this and the following page in office desks. They represent the most popular designs in office desk construction. The convenient and practical arrangement of drawers, pigeonhole space, bookstalls, card index drawers and letter files will be fully appreciated by the experienced and methodical office man. In fact, the detail of arrangement found in our office desks is the result of years of experience and a thorough acquaintance with the needs of the modern business office. Whether you are in need of a flat top desk with its broad top surface and spacious drawers, or the nature of your business demands the large roll top curtain desk with its splendid arrangement of top and base section for books, letters, papers and working materials of every kind, you can be suited from these pages.

THE WOOD in the outside as well as inside of each desk is thoroughly seasoned and kiln dried. Each desk is made of fine grain oak, the most serviceable and durable wood for office desk construction.

HOW THEY ARE MADE. You will find the drawers work smoothly, the posts and posts framed in a skillful and workmanlike manner. All surfaces are carefully sanded and smoothed. The finish is the popular color which brings out the grain of the wood to the best advantage.

WE GUARANTEE THEM

BEDROOM SUITES

BUILT TO STA CONSTANT W

TEST OF VALUE.

All pride of possession is lost unless the article has real worth. When you buy a bedroom suite of the style and quality shown on these seven pages you make a lifetime investment. It represents the very best taste in modern, up to date bedroom furnishings. It is the fundamental law of our business that quality must never be sacrificed to quote low prices. No matter which suite you select, it is backed by our binding guarantee of quality.

HOW THEY ARE MADE.

Our bedroom suites are the work of the most experienced craftsmen and are not mere combinations of wood, mirrors and varnish. Every piece of wood in them is thoroughly seasoned; the cabinet work throughout, from the lowest to the highest priced suite, is built in a strictly workmanlike manner; surfaces are smoothed, filled, coated and finished with the best of finishing materials; mirrors in all dressers are French bevel plate. Our suites are made in the best modern, up to date factories; in addition we maintain the most rigid inspection, absolutely insuring quality.

THE BIG SAVING IN PRICE.

Naturally we make you a large saving, because we base our prices on the actual facturing cost, adding but one profit, out all the profits and expenses of mid This saving amounts to at least one-third of all we absolutely insure quality, then lows from our direct method of merch that we save you money. The more you pare our quality and price with others, th ter we shall be pleased.

MADE IN FOUR WOODS

QUARTERED OAK FINE GRAIN WALNUT BIRDSEYE MAPLE MAHOGANY

The excellent material, careful workmanship and finish will stand the severest test.

THIS PICTURE SHOWS EACH PIECE IN FINE GRAIN WALNUT.

This Dresser, Chiffonier, Princess Dresser and Washstand we furnish in either of four woods. The quartered oak is carefully selected, handsomely figured and finished in the popular golden color. Rubbed and polished. Birdseye maple has a choice birdseye grain and is one of the most handsome woods of which furniture is made. It is finished in the natural color, which is almost white. The mahogany and walnut are very close grained and handsomely figured. Each piece has a rubbed and polished finish. The drawer fronts and end panels are made of three-ply built-up stock. The outside facing in each wood is carefully matched and finished. In the mahogany pieces the drawer fronts, end panels and top of base are finished with genuine mahogany. The posts, standards, mirror frame and cross rails are made of fine grain birch, which matches the grain perfectly when finished. Every necessary item of cost, which makes for a high standard of quality in bedroom furniture, enters into the construction of each of these pieces. No matter which wood you select you will be highly pleased and will have made a big saving in price. Two or more of these pieces with one of our brass beds, shown on pages 626 and 627, make an exceptionally attractive bedroom suite.

DRESSER—French bevel plate mirror, size 22x28 inches. Mirror frame and standards have rounded edges. Extra large base, 22x24 inches. Swell front. Double top dr[illegible] drawers finished inside. Wood knobs. French legs. Claw feet.

READ THIS—SAVE MONEY

Four Big Money Saving Values. We make the illustrations large so that you can get a better idea of the values we offer and readily see how nearly the cost of material and labor in each piece must represent the price we ask. If you want one of the latest and most popular style bedroom suites, select two or more of these pieces and one of our metal beds shown on pages 622 to 627. You will be immensely well pleased.

This Dresser, Chiffonier, Princess Dresser and Washstand are made of seasoned hardwood, finished in imitation quarter sawed oak, high gloss golden finish. Each piece perfectly matched. Built in one of the best modern, up to date factories. Not mere combinations of wood, mirrors and varnish. Shipped from Kansas City, Mo.

$8.75

OUR SIX FINEST DRESSERS

FINEST QUALITY. EXCLUSIVE STYLES. CHOICE OF THREE WOODS.

SE SIX DRESSERS are in a class by themselves. You would quickly recognize the super-extra quality of the material, the cabinet con- n and the finish if you could see them on our sample floor or in the factory. If you a dresser that you will be proud to show your friends and neighbors, made in Grand . Mich., the home of the best made bedroom furniture in the country, made in one of rgest, most favorably and best known factories by cabinet makers and finishers of the skill and long experience, you will get it if you send us your order for either of these sers.

HAVE A CHOICE of three different woods, and no matter which one you select you will be more than pleased. The quartered oak s have a specially selected highly figured flaky grain, finished in the popular golden Birdseye maple is one of the handsomest grained woods of which furniture is made. a hard flinty surface with the birdseye grain of the wood brought out, finished in a color which is almost pure white with a slight amber tinge. The mahogany and Cir- walnut are the two finest close grained woods used in the making of high grade re.

SUPERIOR CABINET WORK. The dresser fronts and end panels are made of three-ply built-up stock. The outside facing in each wood is specially selected, highly figured, carefully matched and beautifully finished. The drawer guides are mortised into the heavy front and back posts and fastened to the end panels on the inside with glued blocks, making the strongest and most rigid base it is possible to construct. The sides of the drawers are fastened to the drawer fronts with the latest improved dovetail construction The drawer bottoms are grooved into the sides. The back panels of the base are made of built-up three-ply stock. All drawers finished on the inside. The mirrors are French bevel plate. They are fastened to the standard with brass toilet hangers. In the mahogany dressers the drawer fronts, end panels and top of the base are veneered with genuine mahogany. The posts, standards, mirror frame and cross rails are made of fine grained birch, which so closely resembles mahogany when finished that it is almost impossible to detect a difference. This method of construction is used by best makers of high grade furniture, as it would be a useless extravagance to use mahogany in these parts. Securely packed and shipped from factory in Grand Rapids, Mich. Average shipping weight, 150 pounds.

Dependable in Material, Construction and Finish

WOOD BEDS

Prices Lower Than Average Dealer Pays at Wholesale

Material used is the construction of our Wood Beds is air seasoned and kiln dried.

Workmanship in every detail is reliable and dependable. Rails, intervening bars and posts are carefully framed and fitted. The carvings are clean, smooth cut and nicely

The finish of the solid oak beds is the popular high gloss golden color. The hardwood beds are finished in a perfect imitation of highly figured flaky grained quarter sawed high gloss golden oak, so perfect that experts find it hard to distinguish it from the genuine quarter sawed oak.

Quality is the important consideration in a wood bed as in every other kind of furniture for the home. Every piece of wood in our beds is thoroughly seasoned, from the lowest in price to the highest priced. They are built in a workmanlike and strictly reliable manner in every piece and part.

Whether you want a wood bed at the lowest price ever quoted by any firm for a strictly dependable quality or the handsome and massive high grade Napoleon style you can be suited from this selection.
